BRIDGETOWN IS DEFEATED

Local Team Loses to Yarmouth. Game Devoid of Sensational Features. Score 11-3
Yarmouth baseball team met and defeated the local team by a score of 11 to 3 on Wednesday afternoon on the B.A.A.A. grounds.
The local team as a whole through a considerable portion of the game were not up to usual standard. Malcolm was under usual form and his support on a number of occasions was far from the best. The grounds were also rather damp on account of heavy showers during the morning. Bridgetown made their first run in the fourth inning. Yarmouth scored two runs in the second, one on the third whole in the fourth they had seven men at bat and ran up the tally for four more runs. They were blanked for the next three innings but struck another streak in the eighth, piling up three runs. The local boys did their scoring in the fourth and seventh innings. The attendance was greater than at previous games for some little time back. Quite a number of Yarmouth fans motored up.

PROBABLE SHORTAGE OF HARD COAL IN CANADA THIS WINTER
Ottawa.—"There will probably be a shortage of anthracite coal for domestic use in Canada next winter," said S. J. Cook, chief of the mining, metallurgical and chemical branch of the Dominion Bureau of Statistics. The opinion continues: "Imports into central Ontario of anthracite coal in domestic sizes during the six months ending June, 1922, amounted to 776,000 tons as compared with 1,421,000 tons, the average quantity imported during the same period in the three preceding years. Of the same grades, the Province of Quebec received 240,000 tons this year as compared with an average importation of 615,000 tons in the three preceding years.
"Complete figures regarding the output of coal from Canadian mines during the six months ending June are not yet available. It is probable that British Columbia will be the only province to maintain its average output.
The Maritime Provinces should from now on continue to show increased output and it is probable that the strike in the United States mines will make possible the expansion of markets for Maritime coal.
The output from the mines of Alberta has been very considerably reduced during the last three months, while the larger mines in Saskatchewan have been operating fairly steadily. Many small mines in the latter Province have, however, been operating on part time only."
Dr. W. A. Creelman, principal of Sydney Academy, has been notified from Halifax of his appointment as a school inspector for Cape Breton County. Owing to the great increase in the number of schools, it has been found necessary to divide this territory into two sections. T. M. Phalen, the present inspector, retaining one, and Dr. Creelman taking charge of the other. Dr. Creelman who has been principal of Sydney Academy for ten years, was recently honored with a degree by Mount Allison University.

WHAT CAUSES SO MUCH SICKNESS
Constipation Responsible for 90% of Disease
"FRUIT-A-TIVES" Corrects It
It is generally recognized among the medical profession that Constipation or Insufficient Action of The Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the Nervousness, Insomnia and Rheumatism—the Ezema and other skin troubles—the Headaches and Backaches.
Why is this?
As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.
"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation. "Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. The thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.
50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

BEAR RIVER
The regular monthly meeting of the Women's Institute was held with Mrs. J. H. Cunningham, 1st Vice-President, presiding. Owing to the illness of Mrs. J. Arthur Rice, Recording Secretary, Mrs. W. Wade was appointed to fill that office.
A letter was read from Miss Macdonnell re Short Course for Girls at Truro. Also one from Smith's Cove, in answer to enquiry whether loan of books from their library was feasible. On motion Mrs. Steadman was appointed to interview members of Smith's Cove Library regarding exchange of books. Twenty-five dollars was voted for the purchase of new books for Institute Library. Executive to select and buy said books. It was decided not to order another McGill Library during the summer months.
An important matter brought before the meeting was the reading of letters from Yarmouth Local Council of Women regarding the establishing in that county of an Orphanage or Home for Neglected Children of the four Western Counties of the Province. These children are now housed in various County Homes, and Poor Farms amidst surroundings altogether unfit for the training of the body and mind of a normal bright child. The co-operation of the Women's Institutes in those counties is needed and they are being asked to affiliate with the Local Council in this laudable undertaking.
These letters were laid on the table and after a short discussion it was decided on motion that the Corresponding Secretary be requested to write for further information and that the matter be brought up for discussion at the next meeting.
