## With a "Y and E" Automatic Reel

you simply press a lever with your little finger, instead of winding a crank like fury. The reel takes in every bit of slack, no matter how quickly your fish may turn. The result is

### YOU LAND YOUR FISH

where, with an ordinary crank reel you'd never get him in the world. These are the only reels which give you a chance to play your fish—to get all the sport there is in it. No reels are more finely constructed. There's no "lost motion;" they will stand all sorts of "rough and ready" use.

It's "all off" with any other reel when a "Y and E" gets into the game.

### 1908 MONEY PRIZES
