

12 INCH DOUBLE CUTTING OFF AND CENTERING MACHINE

The machine is of exceptional weight, strength and power, the power being such as to necessitate the use of steel driving gear throughout to withstand the heavy cuts the machine is capable of carrying. The chucks are self-centering and each admits 12" diameter. Each centering attachment is driven by separate countershaft. You can get a fair idea of this machine from the illustration, but a better idea if you will allow us to furnish you with photos and description. We build a full line of heavy car and locomotive tools—write for descriptions.

The John Bertram & Sons Co., Limited, Dundas, Ontario, Can.

TEMAGAMI

(300 Miles North of Toronto, Ont.)

One of the best fishing and hunting districts in America.

Unlimited attractions for the camper, canoeist and sportsman.
