Vancouver News:—A large seizure of goods was effected by the Custom House officers the other day. A quantity of household goods came up on the steamer Premier from Seattle, and were entered at the Custom House as settlers' effects. On the cases being opened a large quantity of cloth of all shades and styles, and tailors' trimmings, were found hidden amongst the furniture, and were immediately seized. The owner attempted to bribe the Customs officers, but failed most ignominiously. An appraisal of the seized goods resulted in their being valued at considerably over \$1,000.

Vancouver Herald:—DeWolf returned to the city yesterday. He has made a final selection of the location for the smelter upon the west half of block C in lot 183, and expects that the erection of the works will commence in about a month. A brother of his will come out to reside here as managing director of the company, and two well known gentlemen in the province will act as local directors. The company is prosecuting development work on the claims it recently purchased near Goldan. It is probable, DeWolf says, that one of the best known chemists and assayers in London will come out to take charge of the technical department of the works, and everything will be done to ensure their success, and a very large increase in the capacity of the works through the quantity of ore which will be offered for treatment.

James Hastie, furniture dealer, Victoria, has admitted C. B. Lockhart into partnership; style now Hastie & Lockhart.
