

THE

'Ideal' and 'Universal' Pulmonary Inspirators

... IMPROVED

A Perfected Apparatus for the Treatment of the Diseases of the Respiratory Organs by the Inhalation of Antiseptic Remedies in Dry or Moist Heated Air, or in Combination with Oxygen Gas

Patented October 1, 1895, and
March 30, 1897

Other patents pending

Patented in Canada, December 1, 1896

Aseptic

Non-Corrosive

THE only instrument in which a *Differential* range of temperature is obtained, and the *perfect* volatilizations of the most and least volatile medicaments occur simultaneously, and by the use of which perfect **pulmonary tolerance** is assured. The use of these instruments is especially indicated in the treatment of

TUBERCULOSIS
BRONCHITIS
PNEUMONIA
CATARRH
ASTHMA
LA GRIPPE

and the diseases of the Larynx, Pharynx, and Nasal Passages.

THE

**Loomis Sanitarium
for Consumptives**

LIBERTY, N.Y.

Is successfully using these inspirators.

PORTABLE OXYGEN GAS GENERATORS

We are manufacturing three sizes and styles of Portable Oxygen Gas Generators, having a retort capacity of ten, twenty, and thirty gallons. The cost of producing Pure Oxygen Gas will not exceed ONE CENT PER GALLON.

Descriptive Illustrated Pamphlet with Price List sent on application. (Mention this journal.)

OXYGEN GAS A SPECIALTY.

Chemically Pure for Medicinal Purposes.

G. B. UNDERWOOD & CO.

15 East Fourteenth Street,

NEW YORK CITY.
