

ANNUAL REPORT

Of the Parochial Association of the Church Society in connection with St. Paul's Church, Kingston.

STATEMENT OF ACCOUNTS

Table with columns for 'By total amount of Annual Subscriptions', 'To amount of the Treasurer's Report', etc.

After the reading of the report the following resolutions were proposed and carried:

- Resolved 1. That the report be read and adopted and sent for publication to The Church newspaper.
- Resolved 2. That the very encouraging measure of success which has attended the operations of this Parochial Church Society during the past year, calls for the public acknowledgment of our gratitude to Almighty God.

Moved by the Rev. J. M. Macdonald, seconded by Mr. H. Bell, Resolved 3. That as this congregation at large derives benefit from the operations of the Church Society, inasmuch as this Church is one which all have an interest in, and the Library which is open to all, is yearly increased from its funds; therefore, it is resolved that all members contribute to the support of the same.

Moved by the Rev. J. M. Macdonald, seconded by Mr. H. Bell, Resolved 4. That in addition to the publication of the report in the Church newspaper, a sufficient number of copies be printed for distribution among all the subscribers.

The foregoing resolutions were ably supported by the various speakers, and the effect upon the meeting was excellent, as we doubt not will be abundantly shown by the next year's Report.

ST. JAMES' CHURCH SUNDAY SCHOOLS, KINGSTON.

To the Editor of the Kingston Chronicle and News.

Sir—I am desirous of calling your attention to the interesting anniversary of the Sunday schools in connection with St. James' Church, Kingston, which will be celebrated on Wednesday last at 2 o'clock. It is but very recently that this school has been established in this populous part of the city. The sacred edifice was erected by private subscription, and was the paragon of its kind in the city. The school was opened on the 1st of September, 1840, and has since that time been blessed with the presence of a faithful pastor, the Rev. R. V. Rogers, who has labored with the greatest care and blessing of God on his labors.

The anniversary day proved auspicious, but the little people in their hundreds showed, with intelligence and devotion, the most gratifying interest in the proceedings of the day.

The anniversary day proved auspicious, but the little people in their hundreds showed, with intelligence and devotion, the most gratifying interest in the proceedings of the day.

millions—not more than one-third the amount usually on hand at this period of the year. The stock of bullion, however, still goes on increasing, and it is currently reported, that the bank intends shortly to resume payment of all its notes in specie.

The intelligence that eleven steamers were preparing at Toulon, with orders to sail within a month, has been received at Liverpool, and it is not unlikely that the French fleet will be ready to start for the Mediterranean in a few days.

The steam vessels were adapted to carry from 7,000 to 10,000 men; but up to the latest moment, no order for sailing had been received, and either a change of policy had taken place, or, more probably, the expedition had been altogether abandoned. There was, however, a strong feeling, and 400,000 muskets had been ordered from the manufacturers at St. Etienne.

The main cause of apprehension was, however, the condition of the French finances. M. Passy, the Minister of Finance, had published his budget for 1849, by which, including the deficiency of 1848, there will be a total deficit of 715,000,000 francs at the end of 1849.

The last closing prices of the three per cent were 45f. 4d. the five per cent 75f. 25d.

THE CALIFORNIA GOLD FEVER IN EUROPE.

The California gold seeking mania has extended to the continent of Europe, and in the ports of Germany and Denmark there are already vessels fitting out for the conveyance of adventurers to the auriferous region. The English journals are crowded with advertisements of ready-made outfits, and all set in motion by the continued favorable reports from the United States of the marvellous riches of the new discovery.

THE GERMAN EMPIRE.

The Frankfurt Assembly has fairly cast the apple of discord amongst the Princes of Germany. Austria, whilst recovering her rebellious provinces, has a new foe to contend with in the threatening rivalry of Prussia for the German throne. Her tenure of the Provinces of Lombardy will again become, probably, the subject of a quarrel with the King of Sardinia. The question of the Danish Duchies are again in agitation, Austria having virtually withdrawn from the circle of central authority established at Frankfurt.

It thus remains for the Assembly to take the only alternative left to her, the way for a prince of the house of Hohenzollern, to the imperial throne.

Prince Windischgratz had entered Buda-Pesth, without firing a shot. King Louis, having virtually withdrawn from the circle of central authority established at Frankfurt.

It thus remains for the Assembly to take the only alternative left to her, the way for a prince of the house of Hohenzollern, to the imperial throne.

Prince Windischgratz had entered Buda-Pesth, without firing a shot. King Louis, having virtually withdrawn from the circle of central authority established at Frankfurt.

and that the proceeds of so much of that portion of the Marriage License Fund, arising in Lower Canada, as shall not be required to pay off the interest of any unexchanged Debentures, shall be added to the said Tavern Licence Fund.

Mons. FORTIER.—It is true that Mons. Fortier, the Nuncio, intends to introduce a Bill to Parliament for the following purposes:—

1st. For the equal distribution of all real and personal property among all denizens of Canada, whether subjects or aliens, minors or lunatics.

2nd. To limit every merchant to give away his goods; to take to do business gratis; doctors to be hung if they cure their patients; and ministers of the Gospel, as well as the Governor General to create a sinking fund by making their salaries applicable to the payment of the public debt.

If this is the fact, we shall instantly subscribe one farthing towards the payment of a colossal statue of Mons. Fortier, to be placed at the apex of the dome of the Parliament Buildings. We hope it will not excite the Parliament!

(From the Post-Int.)

PUBLIC MEETING IN TORONTO.

PROTESTANT FREE TRADE.—We have given in another column a tolerably full report of the proceedings of the meeting held on Friday, to consider the subject. The meeting was at first small, but increased until the large room of the Court-house became quite or nearly full.

The Free Trade party in the meeting were represented by 500 persons, on the Free Trade side particularly, that the Free Traders were present in any number, and towards three o'clock, most of them were present for the meeting to be held at their homes. What the question on the Free Trade party was taken, it is believed it would have been taken in the presence of what was such the opinion of the Free Trade party is evident from the fact, that they made the Free Trade party, as it is necessary to observe, the action of the Free Trade party should be known.

The Free Trade party, as it is necessary to observe, the action of the Free Trade party should be known.

have in view a common object—the fulfilment of our duties to Her Majesty's Majesty, and the welfare of the people in this part of Her Majesty's Majesty.

The birth of a Prince since your last meeting will be hailed by you as a subject of sincere congratulation.

I regret that the Commercial Interest of the Province have been, and still are, in a state of considerable depression, but I rejoice to see those signs of reviving trade and prosperity in the Mother Country which will necessarily benefit the Commerce and Industry of this Province—will not suffer to be a portion of Europe—we may well thank that we feel none but their remote effects.

The force of Law and the supremacy of the Civil Power in the Mother Country have demonstrated most strikingly the excellence of those Institutions, in the maintenance of which we have a constant and justly-earned gratitude to that Divine Being who has upheld the integrity of the British Empire, and has spared us the bloodshed and tumult with which it has pleased Him to visit so many great and powerful Nations.

At a time when other Countries are making such progress in the improvement of their manufactures, and in the construction of Railways, we cannot properly abstain from doing our utmost to promote objects of the same character.

The Commissioners appointed by Her Majesty's Government, have made their Report on the proposed Free Trade Bill, before you. I believe the destiny of these Provinces is, under Providence, involved in this question more than in any other which I can name.

I believe that the elements of great future prosperity in the North American Colonies, and for the immediate development on Public Works of this description. I am convinced that to sacrifice which tends to secure their execution will ultimately be found too great, and I most earnestly recommend to your favourable consideration any scheme for promoting them.

The means which your liberality places at the disposal of the Government, for the improvement of the Public Works of this description, are such as to be practicable to throw open the Inland Communication by Steam between the Bay of Fundy and the River St. Lawrence. A measure relating to this subject will shortly be submitted for your consideration, and I trust that the Government will be enabled to cooperate in securing an object of equal importance to both Provinces.

The Immigration from the Mother Country of the year just past, has been a singularly free from the disaster of a single vessel, being entirely free from the disaster of a single vessel, being entirely free from the disaster of a single vessel.

Our Agriculture has been partially successful, and I need not, I know, observe to you, that it has increasing and improving prospects. I am, however, desirous to find the means of securing to our Agriculture, the same success which has attended the means of securing to our Land Sales, as to secure the settlement of industrious Emigrants; and I earnestly recommend to your consideration, and I trust that the Government will be enabled to cooperate in securing an object of equal importance to both Provinces.
