Russia has produced this year, according to the estimate of the Minister of Agriculture, 272,000,000 bushels of wheat, as compared with 336,000,000 last year. Her rye crop is 792,000,000 bushels, as against 752,000,000 a year ago. The barley yield is 176,000,000 and that of oats 672,000,000. There is no famine in the Czar's empire this year.

A British Protectorate have been formally proclaimed over Uganda, the Union Jack being hoisted at Menco with much ceremony. The borders of Uganda have been extended towards the north-west so as to include a portion of Unyoro. Everything is quiet, and the proclamation of the Protectorate seems to have a pacifying effect on the country.

After careful consideration of the question, the Emperor of Germany and the Berlin War Office have now decided that artificial teeth are to be provided free of charge to the soldiers, on the ground that the troops are better able to render good service with sound grinders than with teeth which either ache or are inadequate to the performance of their work of mastication.

To whom it may concern—and that is nearly everybody.—This is to certify that I have used Coutts & Sons' "Acetocura" on myself, my family and hundreds of others during the past fifteen years for headache, toothache, rheumatism, sciatica, sprains, cuts, boils, abscesses, scarlet fever, chills and fever, and also with good success on myself (as I was able) in an attack of yellow fever. I can hardly mention all the ills I have known its almost magical power in curing, such as croup, diarrhoea, biliousness, and even those little but sore pests to many people—corns. The trouble is with patients, they are so fond of applying where the pain is—and not where directed, at the nerve affected. And the trouble with the druggists is that they also want to sell "Something just as good," which very often is worse than useless.

Wishing you every success in your new establishment, and that a more enlightened public may appreciate the blessings of your Acetocura, is the fervent wish of

Yours truly,

CAPT. W. M. SOMERVILLE.

Late of U. S. Engineer Service, and formerly of the Marine Department, Canada.

The London Spectator notes an interesting racial fact in the following comment: "No body of Englishmen strong enough to resist has ever been able to reconcile itself to live under foreign domination. Either it retreats, as it did from Java, or it upsets the native authority, as it did in Texas. The best proof that Americans are not foreigners is that the British immigration merges itself gently in the population, and is not even, like the Irish and the Germans, a separate voting power."

"GREAT IS ACETOCURA."

185 Madison street,

Chicago, Aug. 17, 1894.

Gentlemen—One day last month I called into the office of your agent, Mr. S. W. Hall, on other business, and received the gentleman's condolence upon my wretched appearance. As a matter of fact, I was a sick man—had been receiving treatment from two different physicians without the slightest benefit. I certainly was discouraged, but afraid to let go. I had not had a decent night's rest for most ten days, no appetite, no ambition, "achey" all over, but bowels were in good order—the fact is, neither the physicians nor I knew just what the trouble was. Mr. Hall spoke of Acetocura. I confess I would have paid little attention to it but for my precarious condition. He insisted on giving me half a bottle to try, and refused to accept any payment for it. I read the pamphlet and had my mother rub me that evening. Failing to produce the flush within 15 minutes, I became thoroughly frightened—the flesh along the spine seemed to be dead—but persisting in it produced the required result in just 45 minutes. That night was the first peaceful one in ten, and on the morrow my spine was covered with millions of small postules. By night I felt a considerable improvement. Owing to soreness the application was omitted, but again made the third night. The following day showed a wonderful change in me. I felt like a new man. Since then I have chased rheumatic pains several times, with the greatest ease. From being sceptic, I cannot help but say, "Great is Acetocura." It is truly wonderful, and I am most grateful to Mr. Hall for his action.

Respectfully yours,

P. O. BAUER.
