## IDEAL PICTURE CARDS

Upon each card is a picture reproduced from an original pen drawing of the object represented.

Above the picture is the name of the object in print, while below the picture the name is repeated in script. When used, one or both the names should be cut off, the cards mixed and then given to the child to place with the proper pictures again. A large number of common words, printed and written, are thus most pleasantly fixed in the child's mind.

Three sets, each containing twenty-four cards in a pastboard box.

- Set No. 1—Animals, Birds, etc.  
 Set No. 2—Fruits, Flowers, Vegetables.  
 Set No. 3—Common Forms and Objects.

Price, per set, 25 cents.

## IDEAL FORM CARDS

In this set the sphere, cube, cylinder, cone and pyramid are included as type forms, and each is illustrated by a number of pictures of familiar objects in whose outlines the type form is conspicuous. The child is given a type picture, the cube, for instance, and a number of other pictures from which he selects those resembling the type form. This not only affords interesting occupation, but leads the pupils to observe the type forms in other objects that come to their attention. The cards may also be used for word drills in the same manner as the Ideal Picture Cards.

Twenty-five cards in pasteboard box.  
 Price, per box, 25 cents.
