To extend Teraulay-street to a width of 80 feet was favored by the works committee at their meeting yesterday afternoon when Ald. Wanless' motion providing that the city engineer and the assessment commissioner report upon the cost of widening the street to that width was passed by a vote of nine to four. The motion provides for the jog at Grenville-street as for-

merly agreed upon. A-deputation from St. Michael's College put a proposition to the committee asking that instead of projecting the street straight thru the college athletic field it should be curved slightly to the cast, thereby only damaging their pro-perty to the extent of 33 feet. If this were dene and the city would give them the lane to the west of their

A deputation from the board of trade, consisting of President G. T. cmers, R. S. Gourlay, J. J. Gibson, Marriott and F. G. Morley, appeared before the committee to present their clews on the Teraulay-street extension. Mr. Somers stated that the project on of the street met with the entire mately projected to Davenport-road it would effectively relieve the traffic on Youge-street. According to Mr. Gourlay, the large

gasoline propelled vehicles would be the most popular way of moving vehicles in the future, and these demanded wide streets. Teraulay-street, he said, would be a natural traffic artery for the city and one that was absolute ly necessary in view of the congestion

THROW AWAY YOUR DRUGS

Dr. McLaughlin's Electric Belt Will Make You Strong and Well

That's what a man does with his bottle of medicine as soon as he begins to feel the effects of my Belt—turn it down the sink spout.

If you want a stimulant, take whiskey. If you want permanent health, strength and vigor, fill your nerves with electricity. Don't drug. Drugs are stimulants, narcotics, antidotes and poisons, and you know these these don't cure. know these things don't cure.

Take an inventory of yourself. Seek the truth. Don't further wreck your nervous system and befuddle your brain with DRUGS, stimulants, but use that great, wondrous power. Electricity, as I apply it with my Electric Belt. No sensible man now uses drugs to build up his strength, or to cure his aches and pains. Drugs are unnatural, and what is unnatural must necessarily be harmful.

The most eminent physicians and scientists of the world now agree with me that electricity is the basis of human vitality, and that we cannot feel well and strong unless we have a normal supply of it in our bodies. Electricity is the life of the nerves and of the various organs, and there is no way in which it can be applied that is so effective as with my Belt. Applied while you sleep, if directs a soothing, invigorating current, a glowing warmth through all the organs of the body.

If You Have Rheumatism, Nervousness, Backache, Kidney, Liver and Stomach Troubles, or if You Have a Pain or an Ache, Etc.

My Electric Belt Will Cure You

It has made thousands of ailing men and women strong and healthy. It will do the same for you. Mr. James J. Gannon, Whitney, Ont., says:--"I would have written scoher, but was waiting to see what the Belt would do. I have got good results from it for my general weakness, as I feel stronger and can rest better at night. I have not been bothered with my ba k since I commenced the use of the Belt. I have never regretted getting the Belt, I assure you, and I will recommend your treatment to-

my friends and other sufferers."

My Belt is easy to use; put it on when you so to bed; you feel the glowing heat from it (no sting or burn, as in old style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

Wherever you are. I think I can give you a name of a man in your town that I have cured. Just send me your address and let me try. This is my twenty-fourth year in the business of pumping new vim into worn-out humanity, and I've got cures in nearly every town on the way. If you will come and see me. I will explain it to you. If you can't can, let me send you my book full of the things a man finds inspiring to strength and courage. Free if you send this ad. finds inspiring to strength and courage. Free if you send this ad.

Dear Sir.—Your Belt has been a boon to me. My Rheumatism in the shoulder has gone. I must say that I feel that life is now worth living. The most noticeable thing is the blood; it seems to have increased very much in circulation. Before using the Belt, if I took a swim in the lake I very soon got cold but now I am in the water every morning about o'clock, and don't feel the cold at all. I think your Belt will do all you claim it will, and then some more. Belt will do all you claim it will, and then some more.

A. G. ROFFEY, Wabigoon, Out.
