ere from the United States reporting renewed tension between the United States and Japan over the San Fran-

States and Japan over the San Francisco school incident are published with rather depisive comment, for the press takes the view that Japan is not as beligerent as represented.

The official view, while it does not minimize the delicate points involved, does not regard the question as having entered upon the critical stage. It is pointed out that the reports of a Japanese "ultimatum" probably arose from the popular use of the word ultimatum, instead of its decisive meaning under linternational law.

Government circles thus far have

International law.

Government circles thus far have given little consideration to this controversy, because they do not share the view that it is likely to embroil Great Pritain under the terms of the Anglo-Japanese treaty.

Officials here point out that the whole thing is more a question between the American federal and state governments than between Japan and the United States. During a recent informal exchange of views, one of the chief

United States. During a recent informal exchange of views, one of the chief government officials said that the difficulties of the federal government in dealing with the different states could be appreciated here owing to Great Britain's difficulties in dealing with Newfoundland and other colonies.

Concerning the Anglo-Japanese treaty for mutual support, the official view is that this treaty is limited, by its premble, to the maintenance of the territorial rights of Great Britain and Japan
