RICHMOND HILL SEED FAIR
FARMERS WHO WIN PRIZES

Interesting Addresses Given—

School.

Richmond Hill, Feb. 15.—(Special.)—The third annual seed fair was held here to-day. A large number of the representative farmers were present, and Simpson Remie of the Dominion seed department addressed the audience on clean seeds. He commented upon the uniformity of the potatoes upon exhibition and the very good samples of red clover seed shown. He emphasized the importance of selecting cultivation and manures, in obtaining maximum yields. He discussed the methods of dealing with the Canada thistle, the perennial sow thistle and switch grass. The principle to be noticed was that all these pests must breathe thru their leaves, and hence a constant cutting off of the leaves meant death to the plant.

A. J. Reynolds of Scarborough was present, and called attention to the seed fair at Markham next Friday. He felt much interested in the seed improvement, and referred to the good done by Sir Wm. Macdonald by his inquiry for the boys. There were three ways to make more money on the farm and they were to make farms better by manures, by cultivation and by seed selection with a good short rotation of crops.

J. Locke Wilson, superintendent of agricultural and horticultural societies, commended the spirit of enterprise among the farmers in the study of science in their work. Germany, and other European countries, had beaten us out in the race already, for they had gone in steadily for scientific inquiry and co-operative work. The fact that two million tons of potatoes alone were used in Germany for the manufacture of denatured alcohol for fuel and power purposes on the farm was evidence of their progress. He called the attention of the directors to the changes in the new act whereby a grant of \$75 was given to associations holding bull and stallion shows along with the seed fairs. In closing he counseled young men to remain in Ontario, and be better off in the end than they would be in another place.

The judging of the potatoes and grain was done by Simpson Remie, J. L. Wilson and F. M. Chalmers. The following prizes were awarded: Early potatoes—1, T. W. Stephens; 2, Chas. Jones. Late potatoes—1, Chas. Jones; 2, Peter Jones; 3, T. W. Stephens. Turnip seed—1, T. W. Stephens; 2, Wm. Palmer. Aillic—1, W. Stephens. Red clover—1, Henry Casely; 2, Wm. Palmer; 3, T. W. Stephens. Goose wheat—1, T. W. Stephens; 2, Ed. Lynett; 3, Chas. Clark. Canadian beauty peas—1, Lynett. White oats—1, Chas. Jones; 2, Scott McNair; 3, Wm. Jones.

To Cure You Now That We Have Learned How—Relief in 30 Minutes.

For years the author of Dr. Agnew's Heart Cure has believed that the health of the heart is almost entirely responsible for the health of the nerves and stomach and now it can be proven. Dr. Agnew's Heart Cure will relieve heart disease in 30 minutes and cure it. It feeds the nerves through the heart by giving the heart the necessary power to pump rich blood to the nerve centres when stomach disorders and nervousness disappear as by magic. One dose will convince.

ists, and Lancaster Rylands, the English comic comedian, who makes his first local appearance at this concert. The program will conclude with a dramatic sketch by the members of the Avenue Amateur Dramatic Club.

A public meeting was held last night in Hillcrest school house, school section No. 25, when it was decided to authorize the trustees of the school section to apply to the township council for the issue of debentures to provide further school accommodation. The trustees explained that the proposition is to add four new rooms to the present building by a wing on the east side of the building with an assembly room 65x24 ft. in the second floor, the whole cost to be \$15,000. The proposition was adopted unanimously, the debentures to run for 30 years. The school board was also authorized to buy more land north and south of the school for additional playground. The petition will be presented to the township council next Monday.

NO MORE AMERICAN SHOES.
Increased Duty Will Make Their Cost Prohibitive in Canada.

After weighing the question carefully, Hon. William Fielding decided to put a higher tariff on American shoes. The man or woman who cannot now be satisfied in a Slater Shoe store, must pay thirty cents on each dollar's worth of value in the shoes, or an average of about \$1.25 more on each pair.

Thus an American shoe selling for \$5 at retail in the United States will cost \$4.25 at wholesale in Canada, and a shoe dealer would then ask \$7.00 for a shoe, with the same leather as in a Slater Shoe.

Yet, the president of the Slater Shoe Company was the only manufacturer to protest against this increase, which cannot but do his company a world of good. He unselfishly advised the government to reduce the tariff on raw materials, so that people could get their shoes cheaper.

As one gentleman observed, "I suppose ours is a retaliatory measure. The Slater Shoe does not need protection. But at Washington they tax everything coming into that country from Canada, with the possible exception of the money loaned to risky Wall-street speculators by Canadian banks. One Canadian bank recently showed Wall-street loans more than double the amount of its total capital.

DICKENS' CARNIVAL.
Pupils of Harbord St. Collegiate Institute Enjoy Themselves.

A "Dickens Carnival" was held by the scholars of Harbord Collegiate Institute on the school rink last evening, and over 200 of them appeared in costume. A band was in attendance. The prize winners were Miss Beattie McConnell as "Sairy Gamp" and Miss Boyle as "Mrs. Jarley" with honorable mention for Miss Wood as "The Doll's Dressmaker". Boys—G. Ferguson as "Artful Dodger"; C. Wood as "Samuel Weller"; honorable mention, Russell Fortar as "Fagin".

A large number of parents of the pupils were present, while among those who skated were Principal Hagarty and Mrs. Hagarty.
