The D. B. Martin Company, whose business has made such rapid strides lately, have engaged Joseph Wilson, ir., as buyer of live stock. Mr. Wilson is the son of the well-known "Joe," whose name is familiar to all cattlemen from the Atlantic to the Rockies. The son is a chip of the old block, highly respected by all frequenters of the markets, and will, no doubt, make good as assistant to that veteran buyer, Wm. Crealock, who has had more business than any one man should be called upon to perform.

Building permits issued by the city from Dec. 6 to Dec. 16 numbered 107, and stood for a prospective outlay of \$731.300. A large portion of the amount is contributed by the big eight-storey building to be erected by the Toronto General Trusts Comporation, at the corner of Bay and Melinda-streets. The cost will be \$375,000. Sir. Henry Peilatt was granted a permit for a \$50,000 foundation of a residence to be built on Davenport-road.

NATURAL GAS WRECKS STOVE.

## OPPORTUNITY

"Master of human destinies am I! Fame, love and fortune on my footsteps wait, Cities and fields I walk; I penetrate Deserts and seas remote, and passing by Hovel and mart and palace, soon or late I knock unbidden once at every gate.

If sleeping, wake; if feasting, rise before I turn away. It is the hour of fate, And they who follow me reach every state Mortals desire, and conquer every foe Save death; but those who doubt or hesitate, Condemned to failure, penury and woe, Seek me in vain and uselessly implore: I answer not, and I return no more,"

# You Neglected Cobalt, Don't Miss this Chance

But, despite the old adage, opportunity does sometimes knock a second time at the door of the chosen few, but should the sleeper not awaken immediately, then it passes forever.

If you have read anything about oil, and its production and uses, you must be interested, and I have tried to give you some idea in my advertisements of what this king of industries means to the commerce of the wide world.

But now-

I want to talk to you about how it affects you personally and financially. Let me try and point out to you how this wonderful industry may be your opportunity—the chance you may regret all your life if you allow it to slip by unheeded. In other advertisements I have already shown you the fortunes that have been made by those who invested in the California oil fields in the early days, and there is no question and no doubt but that the oil fields north of Edmonton will be the greatest and richest fields in the world, and the revenue and dividends which will be paid from them will make many, many people rich, wealthy and happy.

Are you going to get your share?

The Home Oil Company was started by a few men of limited means. The stock was sold at \$10.00 per share, and the same stock afterwards sold as high as \$5,000 per share. The Canfield and Chanslor Oil Co. sold its stock at 25c per share, and afterwards paid a dividend of \$20 per share. The Whittier Oil Company sold some of its stock at 3c per share, and within a year paid out a dividend of \$4 per share. The Lucile Oil Company sold its stock at 15c per share, and the same cannot be bought now for \$5 per

But it would be worse than folly for me to tell you that shares in the

would make this wonderful increase, or, in fact, to make any positive statement as to what they would

be worth a year from now, what I may think myself and honestly believe is another matter. What is of more importance is what you think and believe after you have looked thoroughly into what I am offering you, and that is what I ask you to do; then, if you become convinced, as others besides myself are, you will need no urging to buy these shares, but will purchase at once, while I am offering them at 25c, and before they have made any further advances. You surely are like the rest of humanity, and would like some of the pleasures and independence which wealth brings, and it is a hundred to one that if you achieve this end it will be through some investment, for that is the way the large majority of fortunes have been made, and the greatest and most spectacular in the world have been made from the oil industry, and I say without fear of successful contradiction that no other business can make such a showing.

Results count, and if you want big results, continuous results, I would strongly advise you to buy some of the stock I am offering in this oil company which has nearly 2,000 acres in what will undoubtedly prove to be one of the richest oil fields in the world.

DO IT NOW

Buy while I am offering a limited number of these SHARES AT 25c PER SHARE. In a few days THE PRICE WILL BE RAISED TO 40c. You can

200 shares for \$50; pay \$12.50 down and \$12.50

500 shares for \$125; pay \$31.25 down and \$31.25

1,000 shares for \$250; pay \$62.50 down and \$62.50

per month. Par value \$1.00, fully paid and non-assessable. I do not ask you to take my word on the conditions and indications in the territory, but to carefully consider the evidence given before the Senate of Canada by experts who had absolutely nothing to gain. (Copies of this will be sent on application, together with prospectus.)
