TRONES WOOD FIGHTING The Nickel Situation

A special Ottawa despatch to The Poronto News yesterday said: The arrival of the German submarine Deutschland at Baltimore and the announcement of the captain that he intends to re turn to Germany with a cargo of nickel and rubber has aroused interest afresh in the question of the export of nickel from Canada. The Canadian Government and the

British authorities are thoroly satisfied that no Canadian nickel ore has reached the enemy or will reach the enemy, but special steps probably will be taken to see that the Deutschland does not start on its return trip with any nickel from Canadian ore.

The closest possible tab is kept by the Canadian officials on what ore is shipped out of Canada, how much is refined in the United States, and where it goes when refined.

Every order is closely scrutinized.

LONDON, July 11.—The marriage occurred today of Capt. Harold McComb of Edmonton, paymaster at Shorncliffe, to Violet Clare Lewers, daughter of Charles Lewers of Dublin. Canon Westlake officiated. Captain John Cameron of Toronto was groomsman, and Miss Cariyon bridesmaid. Among the guests from Shorncliffe were Capt. and Mrs. McInnis, Major and Mrs. MacLaren, Capt. Bowman, Toronto, Mrs. W. A. Glesbach, Misses Fielena and Gene Secord, Mrs. A. L. Sifton of Edmonton, and Mrs. Clark Dennis of Calgary. The marriage takes place shortly of Bessie Belcher, daughter of Col. Belcher, Edmonton, to Capt. Mewburn of the Canadian Artillery.

"Well, my dear," responded her husbut you must remember that I have heard the story of your Atlantic City trip about seventeen times now."

Willie: Excuse me, Miss, but I expect that it was history repeating itself again.

German Agents Succeeded in Laying Hands Upon Large Quantity.

PILED HIGH ON PIER Metal From Canada Ready to Be Taken Aboard the

Deutschland. WASHINGTON, July 11-Inasmuch as rubber and nickel are being tmported to the United States under private agreements by the purchasers that they shall not reach the central powers. British authorities are beginning to investigate how the large quantity of those materials piled up at the Deutsch-

land's pier got into the hands of German agents.
The United States Government no party to such agreement but officials point out that the steel mills which supply materials for guns and armor for the army and navy may be affected by the outcome. Practically all the nickel now being used here comes from Canada and practically all the rubber comes by way of London in British ships.

That the great German U boat
Deutschland is a merchantman, was the

report made to the treasury and state departments today by Captain Hughes.
U.S.N., and Collector of Customs Ryan, who examined the ship so officials could establish her status, it was announced at the state department this afternoon. The text of the report by Collector Ryan follows: "In company with Captain Hughes I have made a thoro inspection of the Deutschland, All spaces except those occupied by cargo and oils were visited. There is no evidence that this ship is armed or can be armed without extensive structural

changes. I reafirm my statement of

yesterday that this ship is a merchant

vessel A complete and detailed re-port will be mailed tonight."
