AWAY AGAIN

Champion Sleeper, Who Recently Came Out of 51-Day Slumber, Again Dozes

Norfolk, Va., Nov. 20.—Harry Joseph Harley, a sailor, who says he slept fifty-

one days without food or water, is again asleep. Doctors say his nap this time will not be of long duration. He has moments of partial wakefulness.

Harley, who has lost 101 pounds since Sept. 20, will be examined by a medical survey of nine naval surgeons and at least three physicians from civil life. Naval physicians say they cannot understand how Harley slept fifty-one days without water. He could live without food, they say, but they regard it as almost impossible for a person to sleep and live for fifty-one days without liquid.

Queen Visits Ex-Emporer?

Vienna, Nov. 21.—A report from Roumania is printed with reservations by Die Morgen, to the effect that Queen Marie of Roumania recently visited former Emperor Charles of Austria at his residence in Switzerland, and asked him to renounce all claims to the Hungarian throne, in order to accomplish consolidation of the two countries under the Roumanian crown. The queen is said to have offered Charles a large sum of money in return.
