Are You Using Gas? If So, Why Not Install A Glenwood Range With Gas Attachment?

A Glenwood Range with the gas attachment makes an ideal kitchen and is neat in appearance, and gives you two ranges in one. The gas range having a broiler and oven, besides three burners on top, makes a complete range of itself and can be used either with or without the coal range. These gas attachments are made in St. John along with our Glenwood Ranges and, like every range we have made, they have been tried and proven to be O.K. in every way before offering them on the market. If you have gas in your home it will pay you to come to our store and inspect the gas attachment for yourself. Made sold and guaranteed by

Ransacking of Stocks Here a Little! There a Little! a Little Here, a Little

There! Here and There a Little! We have been busy the past few days. Oak Hall customers found ripe "plums" in all the stocks. Nothing that was an odd lot, or that was a broken stock, or that would not be again renewed this season has been held sacred from the blue pencil.

No store could, all the time, give bargains such as these we tell of. Such a claim would be preposterous—there's no money in it, and stores want to make money! We gain in bettered stocks, and friends the
