The Schools Re-Open, but the Trouble is Not Yet Over.

Only Two Changes Made—Talk of Applying to Court for a Mandamus.

Ottawa, Sept. 4.—The separate schools all opened yesterday. The only concession which has been made to those who have been fighting against the engagement of the Christian Brothers as teachers is that the name of St. George's ward, is to be conducted by the Sisters instead of the Brothers.

The other three schools which the Brothers conducted are again under their charge, so that the trouble is not yet over. It is reported that a mandamus will be issued by Trustee Moffett against the Brothers being permitted to teach in any of the schools in face of the report of the commission appointed by the government to inquire into the state of the schools.

Philadelphia, Sept. 4.—The decapitated body of B. F. Fietzel, one of the supposed victims of H. H. Holmes, was exhumed from the American Mechanics' cemetery to-day by the coroner's physician. The coffin with its ghastly burden was carried into the tool shed of the cemetery, but the utmost vigilance was maintained to keep the object of exhumation a secret. London, Ont., Sept. 5.—The Canadian trades and labor congress committee on standing orders have recommended a commission to investigate the sweating system practised on garment workers of Montreal, Toronto, Ottawa and Hamilton.

The committee has also declared that the existing Dominion immigration system has utterly failed. Active opposition, it held, should be offered to the influx of the Chinese, and a resolution was passed that the poll tax be raised to \$500 to further restrict Chinese immigration. Several delegates condemned the action of the Presbyterian general assembly in urging and aiding the government to repeal the existing Chinese laws.

UNCLE SAM'S NEW SHIP.

Will Resist the Projectiles of the Best 12-Inch Gun.

Washington, D. C., Sept. 5.—The new battleship Iowa will keep out the projectiles of the best 12-inch gun afloat. That was the conclusion drawn from one of the most important tests ever made at the government proving grounds at Indian Head. To-day the United States, for the first time since the use of modern guns and modern armor, began experimenting to determine the actual strain and injury which a battleship would be subjected to if struck by projectiles. For this purpose, a side armor plate of the battleship Iowa, now building at the Cramp yards in Philadelphia, was fitted up in an actual reproduction of a section of the ship. The importance of the test was such that Secretary Herbert himself went down the river to witness the firing.

The armor plate, which weighed 400 pounds, was fired at the frame work from a 12-inch gun. The projectile struck with a velocity of 1800, or an energy of 1,530,000 foot pounds. This shot should, according to estimates, have penetrated a 10-inch Harveyized plate. Although it cracked the plate, already weakened by two previous shots, and penetrated to the wood backing, it did not get through the backing. Secretary Herbert and all the engineers were delighted.

WILHELM'S WARM WORDS.

On Sedan Day May Have a Booming Effect.

London, Sept. 4.—The Times' Berlin correspondent says: The emperor's sharp words against socialism in his speech to the guards on Monday has aroused a many with startling suddenness, and his patriotic enthusiasm and his revealed her to political struggles of everyday life. Many comments have already appeared in the conservative organs applauding his majesty's words.

The Tagblatt says: The imperial appeal will not be made in vain, but no Liberal can join in the agitation for a second edition of the anti-revolution bill. The best way to thwart the socialists is to grant repeat reforms and give the working classes less causes for complaint.

The Nord Deutsche Allgemeine Zeitung also dwells upon the necessity of steps to stem the socialistic tide. "It remains to be seen," the paper goes on, "what fruit the speech will produce. Even the most careless might well be aroused from indifference by the emperor's threat to appeal to the army. It is a thankless task to prophesy evil but considering the conditions of political life in Germany, one is driven unwillingly to the conclusion that the imperial words, though resounding for a time, will finally be stifled by the ever-increasing din of party strife."

As a revenge for the prohibition of the meetings the socialists sent the following message to their friends in Paris: "On the 25th anniversary of Sedan we send a protest against war and chauvinism, a greeting and a clasp of the hand to our friends and comrades. Hurrah for international solidarity."
