ment. A Great Calamity. On Wednesday night of last week fire broke out in the theatre Comique, Paris, while a performance was in progress. M. Taskin tenor of the company-who was singing at the time-says that when he first saw the fire, he thought it was nothing but what could be extinguished by the employes, and, wishing to avert a panic, he told the audience to keep their seats. Charles A. Duviviere, a New York merchant, who, with his son, was in the Opera house when the fire broke out, says that at the first sign of danger he and his son arose to leave the theatre. M. Taskin, was trying to assure the audience that

there was no danger, but the burning stage belied his words and nothing could stop the wild panic that set in immediately He thinks that everybody in the main auditorium must have been fearfully bruised in the crush. He is positive that many of the people in the galleries were Mr. W. J. Ayres, another New Yorker. with his wife and daughter and a Mr. Rutthat for which we imported it. ter, who occupied a box at the opera, says

the knowledge of a fast approaching fire is their rear made the frightened people crush and push the harder. The party reached the open air after a terrible experience in the panic-stricken crowd, and after many narrow escapes from being trampled on. Ayres thinks the fire must have been burning for some time, as his party saw the flames some minutes before the alarm was communicated to the audience by the accidental discovery of one of the singers. M. Taskin says that in escaping from the blazing building he saw many apparently lifeles; bodies in the galleries. About an hour after the fire was discovered, the crowd in the neighborhood of the opera nouse saw two men jump from the burning

the flames and driven to the roof. LATER.
Forty bodies, in a terribly mutilated condition, have been recovered from the ruins. The remains are principally those of ballet girls, choristers and machinists. The remains of three men and two women, found in a stage box, were victims taking refuge from the flames. It is as- ten thousand tons of the same iron as we 1,400 horses, \$250,000; 175 cars, \$180,000; certained that many bodies lie in the up- do, and pay on it a duty of \$30 a ton.
