ST. JOHN, N. B., OCTOBER 8, 1908.

CHAMBERLAIN'S POLICY.

There are many influences today which tend to the disintegration of the British Empire, with only one unifying force—sentiment—to oppose them. When it is in good working order, sentiment is the strongest bond possible, but with only itself to feed upon its health is liable to waste and its temper to be subject to the unaccountable quivers of the sickly. To provide some stronger bond of union than this is the sole motive of Mr. Chamberlain's campaign for the prosecution of which he has surrendered one of the highest offices his country has to offer.

His idea is to add to the ties of sentiment one of mutual self interest. Heretofore his proposal has been rather vaguely understood as a scheme whereby the various sections of the Empire should be knit together by a tariff which should favor lands under the British flag at the expense of all others. In his speech in Glasgow Tuesday night Mr. Chamberlain definitely states his scheme which seems simple and practicable. He proposes to begin at home by putting a low duty, not to exceed two shillings a quarter, on foreign wheat, and flour, and a duty of about five per cent. on all foreign meat and dairy products, including bacon. Similar goods from the colonies are admitted free, as now. In case that, during the few years between the time this policy should go into force and the time that the colonies alone should be able to feed Britain, the price of these commodities in the English market should be slightly advanced by these duties, he proposes to take off three-quarters of the duty on tea, half the duty on sugar, and corresponding reductions on cocoa and coffee, so that under the new system the Englishman's breakfast would be even cheaper than it is now.

The loss to the exchequer, he estimates at two million, eight hundred thousand pounds, but that and more he proposed to find in the imposition of a duty on manufactured goods which, in addition to providing increased revenue, would give to British manufacturers needed protection.

There, in brief, is the beginning of Mr. Chamberlain's scheme—preference for the colonies over all other countries in British markets. To perfect the plan the colonies must act similarly, and there is no reason to believe that they will not. There certainly should be no trouble in Canada, which already allows Britain a nominal preference. Mr. Chamberlain's ideal is probably free trade within the Empire, and while this is impracticable at present, it is conceivably possible in the future. Canada now cannot afford to expose her growing manufactures to British competition, but with our increasing capacity as a manufacturing country, especially taking into consideration our incalculable wealth in water power, the power of the future, the time is not far distant when the tariff may be safely lowered or done away with in many lines. Then within a trade Empire with a tariff wall against all the rest of the world, conditions would shortly adjust themselves so that each country should produce just what it was most fitted for, and be dependent for other things on its sister states alone. An Empire like that, self-sustaining, indissolubly bound together and entirely independent of the rest of the world, is Mr. Chamberlain's dream.

THE MAN WHO DOES NOT VOTE.

Discussing the proposal now before parliament to disfranchise for six years any man who neglects to poll his vote, the Montreal Star says:

"The purpose of the provision is to punish the man who makes merchandise of his ballot, and refuses to poll it until he has been 'bought,' by taking his wages away from him for the next election; and also to spur up the indifferent citizen who thinks that there is nothing in the then pending contest worthy of his distinguished attention."

"If the action of the clause can be so limited as to hit only these two classes, there will not be much public mourning at the resultant narrowing of the franchise. The man who regards his vote as a purchasable commodity certainly should have it taken away from him. It is not just to other citizens that he should retain the power to kill their ballots with his insincere and mercenary vote."

"Then the indifferent man is a real danger to the community. It is not only that he can often be stampeded at the last moment into casting a mischievous ballot on a side-issue; but when he stays at home and toasts his die of his ballot, and refuses to poll it until he has been 'bought,' by taking his wages away from him for the next election; and also to spur up the indifferent citizen who thinks that there is nothing in the then pending contest worthy of his distinguished attention."

FREE BAPTIST CONFERENCE

The Free Baptist conference at Millstream yesterday the augmentation committee urged that a missionary salary of \$500 be paid ministers; Messrs. Cockburn, Maynard, Bell, Perry, Knapstick, Wilson, Bolger, Kierstead, and Milburn were given licenses to preach.

The officers elected in the Women's Missionary Society were Mrs. Augusta Simpson of Hammondsport, president; Mrs. D. McIlvin, of Woodstock, treasurer; Mrs. C. W. Weyman of this place, corresponding secretary; of St. John, secretary; Mrs. J. D. Smith, of St. John, auditor. Rev. J. M. Barner was re-elected as missionary among the societies at a salary of \$300 per year.

Rev. Mr. Lewis and James Patterson were granted leave of absence. The editor of the Intelligencer will be paid \$500 for this year's work.

It was placed on record that the census report showed a loss of \$10,000 to the Free Baptists in ten years. This was an error, and although proof had been furnished the correction has not been made. The conference considers this conduct most reprehensible.

Rev. Dr. McLeod, C. T. Phillips, B. H. Nobles, F. C. Hartley and David Long were elected executives. A committee consisting of Dr. McLeod, A. Perry, F. C. Hartley, B. H. Nobles, and D. Long was appointed to confer with a similar committee from the Baptist convention as to the union of the two bodies.

FATAL TORNADOES.

EMPORIA, Kas., Oct. 7.—Three persons killed outright, two fatally injured and fourteen others more or less seriously hurt, with enormous property damage is the net result of the tornadoes that prevailed near Hamilton, Greenwood county, and near Alkayville in Coffey county, Kas., last night. The town of Alkayville, which has 200 inhabitants, was practically demolished. Wives were prostrated and the extent of the storm was not learned until late today. The list of casualties may yet be incomplete.

NOVEL DEATH.

LONDON, Ont., Oct. 7.—Jas. E. Haldane, of Strathroy, an inmate of the asylum for the insane, adopted an extraordinary method of taking his own life. Haldane is employed at teaming. He took a logging chain and fastened one end to a four-inch iron pipe in the reservoir and secured the other end around his neck. He whipped up the horse and broke his neck.

DOMINION PARLIAMENT.

OTTAWA, Oct. 7.—Parliament may not proceed for many days, as a result of the charge made by Sir Wilfrid Laurier in the commons today that petitions presented against the Grand Trunk Pacific had been forged.

Mr. Talbot started the fight, moving that two petitions from Bagot be referred to the committee on privileges and elections. The opposition showed their faith in the genuineness of the petitions by promptly moving an amendment to have all petitions examined and verified. The amendment was adopted, and if the government had courage to face the situation, parliament may be forced to sit for several months.

The vote of \$40,000 for a dredge for the maritime provinces passed. The new vessel will be largely used at St. John and will have a capacity of 1,000 cubic yards per hour. She will dredge to the depth of 30 to 35 feet and will cost \$150,000. When will she be completed?

The opposition challenged the receipt of \$50,000 for the transportation commission. It was pointed out that this expenditure was to be made after the government had decided to build the Grand Trunk Pacific. The Liberals pushed through the grant on a vote of 60 to 22.

LOCAL NEWS.

It is now stated that the St. John's railway will be open for business next week.

The motormen and conductors will meet this evening in the hall, Simonds street, at 10 o'clock.

The local government met at Chatham this evening to deal with the representations of the lumber operators with respect to the stumpage question.

The condition of Miss Macdonald, the injured fire department driver, was reported as very favorable at a late hour last night. He is resting comfortably and the doctors expect he will be able to get out again in three or four weeks.

Commissioner John Macdonald of Ottawa spent yesterday in St. John. Mr. Macdonald formerly represented Pictou in the house of commons. The collector of customs called on the commissioner at the Royal yesterday.

The fall conference of the Catholic clergy of the Diocese of St. John was held yesterday at the provincial residence of the Bishop of St. John, the Hotel de la Reine, Broad street. His Lordship Bishop Casey, Rev. W. F. Chapman, pastor of St. John the Baptist, and a large number of the clergy attended.

Mrs. Beaman, proprietor of the Alexandria hotel at Charlottetown, is having the house enlarged and greatly improved. John A. Adams has the contract, which includes the addition of a story to the main building and the provision of a large dining hall and a billiard room on the ground floor.

Pandora Range.

A broiler or roasting door, to be of any practical value in a range must be so constructed that the steak or broil can be placed immediately over the live coals—broiling and roasting should be done quickly to be done well.

Broiling door in the Pandora is so constructed that a broiler can be placed almost on the coals if desirable, and the door is large enough to admit any style of broiler—a thick, juicy steak can be broiled to retain all its rich, natural flavor and bread can be toasted with that appetizing brown, so hard to get just right, if done in the ordinary range.

Pandora range is fitted with enameled, recessed, triple triangular grates and steel warming closet, features found on no other range.
