LEGISLATION.

The report of the committee on leg-islation dealing with charges required by the union of the two branches of church was read and adopted. ACADIA ACCOUNTS.

The report of the treasurer of the Acadia College and related institutions was presented by Dr. E. M. Calhoun. The trust funds showed an increase of last year's balance of \$27,097, by \$76,538, making a total investment of

\$103,636.

The college current account showed expenditures for ordinary expenses \$18,423. professor extra services \$350, expenses, second forward movement, \$2,235 and an income of \$21,606, reducing the debt balance by about \$600.

The college residence showed a defict of \$597 on an expenditure of \$8,635.

The Horton Academy spent \$9,839 which was \$1,633 more than the income.

The Seminary's income was \$24,388 showing a credit balance of \$551.

Prof. E.M. Kierstead raised the question of the proportionate assets and income of the boys' academy and the girls' seminary. While approving of the largest aid for the seminary he thought the academy should receive better financial support.

On motion it was decided to hand over the resolution on provincial prohibition to the committee on resolutions.

The following are extracts from the report of the committee on Foreign Missions of which Rev. W. Camp, M. A., was president, which was delivered on Sunday morning.

At a meeting of the allied liquor interests recently held to devise means for turning back the mighty tide of temperance enthusiasm which now threatens to sweep all before it, the significant lament was made that most of the French papers throughout the province are advocating prohibition. Thank God for the sterling temperance ideals of our French compatriots. More

prohibitory law in the Dominion is in force against the liquor traffic, the temperance people are seeking to have that law renedered as effective as possible. The chief difficulties they have to contend with are inefficient officials, and those inimical to the enforcement of the law. Yet notwithstanding these and the lying reports of the "trade" as to the success of the measure, our is land province wears a diadem whose lustre is undimmed by the baneful shadow of the traffic, and rejoices in a prosperity, healthful and unshared in by the minions of this monstrous evil. In commenting upon the law, the Charlottetown Guardian of June last says: "It stands higher than ever in the estimation of cur people. The favorable results down to date have exceeded even the expectation of its promoters in this city, and the liquor traffic was

President Hutchison explained that there were 300 students in the seminary and only a little over a hundred in the academy. Further people would pay more for tuitipn for their daughters than for their sons and in this war the income from fees was larger. The academy was also hampered by the terms of Rockfeeller's last gift.

The Paysant Fund received 34.81 and expended 34.821.

An abstract of the college accounts showed a net deficit of sist.

FORWARD MOVEMENT SUCCESS FULL.

For the forward movement \$31.477 was collected during the past year from the churches and \$27.903 was received from J. D. Rockfeeller. His contribution of \$100.000 was paid over. This information was greeted by the slinging of the Doxology.

And the province of the new science building, which is being as sisted by Andrew Carnegie.

The trust funds of the college amount to 335.85, not including the J. W. Barss Fund, of \$19.500, which is managed in Halifax. The other assets of the college including real estate, stocks, bonds, mortages, bills due, etc., amount to \$477.492.88.

The report was received and adopted as a whole.

In February last a deputation of a hundred men representing every part of the province waited upon the government with the renewed demand for a prohibitory law. Though they received but little encouragement they did not fail to assure the government. received but little encouragement they did not fail to assure the government that "the people will not rest until they get what they want."

As a result of the resolution embodying provincial prohibition brought into the N S. legislature in 1907 by a member of the government, E. H. Armstrong, M. P. for Yarmouth, a government amendment was also introduced. At a meeting of the allied liquor in temperance enthusiasm which now threatens to sweep all before it, the significant lament was made that most of the committee on Foreign Missions of which Rev. W. Camp, M. A. was president, which was delivered on Sunday morning.

"The Laymen's Missionary Movement has bad a splendid year's history. The movement has been organized all over the continent, and has met with marked success everywhere. Wherever meetings have been held, the men have taken hold of the problem of the world's evangelization with a serious determination to manfully attempt its solution, and, as one has expressed it, if to see this mission business through to a finish." The spirituality, as well as the business enterprise, of the move-

moral tone of the country.

During the year the Scott Act has been more thoroughly enforced, and violations of the license act more trenchantly dealt with, than for some time past. In the city of Moncton the traffic has had a sore time. That city is now declared to be practically "dry." In the city of Fredericton the question of Scott Act v. license brought the temperance people and the liquor interests to the place where they must again measure strength, with the result that in the capital city, where for 20 years the Scott Act has been in force, it was again sustained by a magnificent majority, and license sentiment received a blow which sent it down and out, we trust for all time to come.

"It gave us peculiar pleasure to re-

At the Sunday school meeting the an-nual report of the S. S. Board was pre-sented by Rev. G. A. Lawson, of Hali-fay. It was followed by addresser on sented by Rev. G. A. Lawson, of Halifax. It was followed by addresses on the Educational, Evangelistic and Adult Departments of S. S. work by Revs. A. S. Lewis of Bridgetown; D. H. Simpson, Annapolis, and J. H. Mac-Donald, Fredericton. This meeting was followed by a meeting for men only in the vestry, which was largely attended and was one of remarkable enthusiasm and power. N. B. Smith of Halifax occupied the chair. T. S. Simms of St. John was the first speaker who briefly outlined the steps already who briefly outlined the steps already taken in the movement so far in the churches of St. John. John Burgoyne of Halifax followed and moved the audience to a high pitch of enthusiasm over the imperial undertaking of evangelizing the world in this generation. gelizing the world in this generation. Excellent addresses were given by J. W. Spurden of Fredericton, H. F. Laflamme of India, and W. T. Squires continued his attack and scored effectively with three right uppercuts, following the blows with a staggering left to Burns' nose. Burns was decidedly groggy and staggered to his seat when the gong sounded.

Round 12—Squires again determined by forced the fighting at the beginning of the round, Burns becoming quietly elusive, side stepping and dodging, and as the blows fell harmless, steadied the Australian with two lightning punches, he then attacked vigorously and Squires, his fast work having plainly tired him, was on the defensive during the rest of the round.
