LOOKS FOR LONG FIGHT

Grady Predicts Jeffries and Johnson Will Use Great Caution.

CINCINNATI, O., Feb. 3.—William A. Grady, the theatrical manager and former pugilist promoter, says the Jeffries-Johnson fight is to be the longest in the history of the game. He says Jeffries will fight cautiously and will take no lead, knowing the danger in this to a big man and to one who has been long out of the ring. Johnson, he says, is the greatest defensive fighter of the age, and therefore will play cautiously, too. Grady also believes the fight will not be held on July 4, inasmuch as that is on Monday, and Jeffries is known to be superstitious for any day except Friday. He will not say whom he expects to win.

Only One "BROMO QUININE"
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 25c.

LONGBOAT WAS GOOD IN PITTSBURGH RACE

Sol Mints says that Tom Longboat would have beaten Percy Smallwood if he had run the twelve miles in 1:43 instead of 1:48.

"I never saw the Indian so tractable," said Mints today. "He did so easily as he was told, and worried Smallwood in the same fashion way as he scorched Dorado the night he beat him in New York. He told Smallwood the night before that he would beat him, and beat him good. Two no more fast now," he told him. He was referring to the time Smallwood beat him in Philadelphia when he wore new shoes."

"Mints laughs at the story that the race was fixed, and says that even money was the best he saw.

"I was too busy to even get down a bet," said Mints.

Mints says that Longboat will run Meadow twenty miles or better fifty-two miles any time other man wants to come to the front. Longboat will not start in the Madison Square Garden fifteen-mile race or any other event except a match race.

JACK TAIT WANTS TO MEET W. M. SHEPPARD

If He Can Defeat Bonbag at Two Miles He May Go After Other Cracks—Tait is Running Good.

TORONTO, Feb. 3.—If Jack Tait, of the West End Y. M. C. A., had beaten George Bonbag at Buffalo Saturday he would have taken steps to have a one mile race arranged with Melvin W. Sheppard as soon as the Irish-American's suspension is raised. All will remember how Tait was beaten in the 1,500 metre run at the Olympic games at London in 1908, when Sheppard won the event in the Olympic record time of 4 min. 2.3-sec. Tait ran his trial at Rosedale in 4:05. Ever since that Jack has had a desire to meet the Yankee. In that race H. A. Wilson came second, but since then Skene has beaten the little Englishman and Tait has defeated Skene, so that his Wilson son out.

Tait has had a lot of experience since the Olympic games. He was young then—his only 21 years of age now—and he had only won his first race about eight months previous to going to England, but now Jack considers that he could just about trim his conqueror. All depends upon the showing Tait makes against Bonbag on February 8th at Buffalo in their two mile run, whether Jack will want to tackle Sheppard. Although the way they are going now, Sheppard wouldn't be as hard a proposition as Bonbag.

At the Olympic games at London Sheppard also won the 800 metre run. Time, 1:52.4.

AT SARANAC

SARANAC LAKE, N. Y., Feb. 3.—Edward Lamy, the amateur skating champion, won the final in the 200 yard, half mile, the mile and the three mile events in the international outdoor skating championship contest today.

The 200 yard race was a close and fine struggle. Fred Robson of Toronto finished a close second. In the half mile race Lamy came in only 13 feet ahead of H. Wheeler of Montreal. Claude Lamy and Robt. Logan of Montreal skated a dead heat in the one mile. Lamy falling just as they crossed the line. Young Lamy refused to skate the heat over and Logan won the distance alone.

DEAL SECURED BY TORONTO FROM LANCASTER

There is little doubt that Ben Hooser, the Toronto first baseman of 1909, will make good with the Philadelphia Americans, by whom he was bought to ward the end of last season. He expressed a desire to play with the Toronto again in 1910, but like catcher Fred Mitchell, he is not expected back in the minors for some seasons at least.

John "Snake" Deal was bought from the Lancaster team, which won the championship of the Tri-State League. He was acquired with second baseman Fitzpatrick, and it was the speed and hitting of this pair that was largely responsible for the winning of the pennant by Lancaster. Deal is a tall athletic fellow, somewhat on the lines of Jack Flynn. Down in Pennsylvania, where basketball is the favorite winter pastime, and played as a winter months. Deal is known as one of the best men in the game. On the floor he is known for his speed, as on the baseball field. A speedy first baseman will be a new sensation in Toronto. Bill Massey, Jack Flynn, Mike Kelley, Myron Grimsaw, Ben Hooser and other guardsmen of the Toronto initial check were never famous for their speed. Deal combines slowness with fielding and hitting ability, and Arthur Irwin tipped him off to Jim McCaffery as a real comer. Irwin would have taken him for the New York Americans, but with the phenomenal Hal Chase playing first base for Stallings' team there is little need for a successor. Grimsaw, Townsman and Wyatt Lee are qualified to hold down the job in an emergency.

To cure headache in ten minutes use **Kumfort Headache Powder.**

The C. M. B. A. five leaders in the three points to five score last evening in a game with I. L. and B. Kelly opened with a string of 112 and remained high, finishing with an average of 91.3.

The Thistles defeated Carleton in an eight-rink match yesterday by 63 points. Only one Carleton rink, that skipped by J. P. Belyea, was victorious by the close score of 21 to 29. Thistle rink had large margins in the majority of cases. The total score was 182 to 110.

One of the most impressive spectacles seen in Paris in a long time was a funeral on Wednesday of Police man Dery, who was murdered by the Apache Liabaut. Almost every important dignitary of the government, except the President himself was present. In an address at the vault in Montmartre cemetery, which is reserved for the burial of policemen who die in the discharge of their duty, Prefect Nolle Loys declared, in effect, that too much good honest blood was sacrificed in France out of consideration for those possessed of criminal instincts. Paris was the refuge of too many hands and justice treated them too tenderly.

This sentiment finds strong echo in public opinion and is heightened by the arrogant attitude of the most extreme socialist organ in Paris. Herve, editor of La Guerre Sociale, published an article soon after the crime in honor of the assassin Liabaut. "Do you know," he wrote, "the Apache who has just killed Dery, is not lacking in a certain beauty, certain greatness. I find in this country of feeble will and bestial instincts he has given a fine lesson of energy, perseverance and courage."

To us revolutionists he has set a fine example. Honest workmen are every day victims of police brutality. In the way he will stop over in New York to see if he cannot arrange a deal for some new material.

It is more than likely he will strike McGraw, of the New York Nationals, for a pitcher or catcher. Kelley does not believe he will be able to find the men he wants at this time, but he is putting in a bid now so that when the Giants return from their training trip South McGraw will know where to let some of his men go. Kelley still has hopes of getting Thony from Boston, and he may pay a visit to that city before his return home.

In speaking of his team yesterday, Kelley said he was perfectly satisfied with the material he has at present. He is desirous of getting his men into good shape, and when he sent out his contracts last week, he advised all of them to start on "gym" work so as to reduce weight and take the kinks out of their muscles. He did not sign one of his men with a contract, and he expects them all to sign. Some of the men will receive increases. Kelley expects to move with his family to Toronto about the middle of April.

APACHE "QUEEN"

SPURS ASSASSINS

Paris Ruffians Said to Covet Approval of Grande Marcelle

Artion, Ha'f S'mpat'zing With the Desperate, Fans the Popular Indigent.

Crimes of violence continue of frequent occurrence in France. The Apaches of Paris seem bent upon proving their utter disregard of possible punishment. One of the worst of their kind, Jean Jacques Liabaut, who wanted to kill a policeman the other day, and wounded four others, was arrested with a woman known as the Grande Marcelle, who figures as a sort of queen of the Apaches. Her whims seem to have determined many of the depredations of the manufacture of the ruffians of the middle ages to the extent that they were slaves and wristlets of brass, which bristled with keen points, so that policemen in the mere act of attempting to seize him were sure to inflict severe wounds upon themselves.

He says he derived this idea from reading the appliances used by some Londoners obliged to go out late at night, as safeguards against gangs of strangers who went about. This equipment of Liabaut, together with the revolver and the enormous knives he carried, one in each hand, explains how, attacking policemen without warning, he was able to do so much damage.

An aged female conger was murdered in her lodge on a busy street in the heart of Montmartre Monday evening. She was both chloroformed and strangled, and some 1,000 temporarily left her body on the street. She was tenanted by the house, were stolen, the same night.

This old woman was mysteriously slain by the roadside in Neuilly Plaisance, a suburb of Paris. She had been struck on the head and a large knife thrust into her throat where it still was when the body was discovered.

These recent crimes have left a deep impress of horror upon the public. Vigorous demands are being made for the suppression of the Apache scourge, and early in the week the prefect of police issued instructions to his men that they must not forget it is their duty to defend themselves efficaciously against violence. In other words, they are not to hesitate to use their weapons in cases where there is danger of serious bodily injury.

It must be owned that the restraint of the Paris police is admirable, and no better proof of it could be cited than the patience shown in the encounter with Liabaut. The policemen remained armed as passive on using their swords or revolvers.

Another similar case occurred Tuesday when two policemen were stabbed in the most cowardly manner by Apaches whom they were trying to arrest.

One of the most impressive spectacles seen in Paris in a long time was a funeral on Wednesday of Police man Dery, who was murdered by the Apache Liabaut. Almost every important dignitary of the government, except the President himself was present. In an address at the vault in Montmartre cemetery, which is reserved for the burial of policemen who die in the discharge of their duty, Prefect Nolle Loys declared, in effect, that too much good honest blood was sacrificed in France out of consideration for those possessed of criminal instincts. Paris was the refuge of too many hands and justice treated them too tenderly.

This sentiment finds strong echo in public opinion and is heightened by the arrogant attitude of the most extreme socialist organ in Paris. Herve, editor of La Guerre Sociale, published an article soon after the crime in honor of the assassin Liabaut. "Do you know," he wrote, "the Apache who has just killed Dery, is not lacking in a certain beauty, certain greatness. I find in this country of feeble will and bestial instincts he has given a fine lesson of energy, perseverance and courage."

To us revolutionists he has set a fine example. Honest workmen are every day victims of police brutality. In the way he will stop over in New York to see if he cannot arrange a deal for some new material.

It is more than likely he will strike McGraw, of the New York Nationals, for a pitcher or catcher. Kelley does not believe he will be able to find the men he wants at this time, but he is putting in a bid now so that when the Giants return from their training trip South McGraw will know where to let some of his men go. Kelley still has hopes of getting Thony from Boston, and he may pay a visit to that city before his return home.

In speaking of his team yesterday, Kelley said he was perfectly satisfied with the material he has at present. He is desirous of getting his men into good shape, and when he sent out his contracts last week, he advised all of them to start on "gym" work so as to reduce weight and take the kinks out of their muscles. He did not sign one of his men with a contract, and he expects them all to sign. Some of the men will receive increases. Kelley expects to move with his family to Toronto about the middle of April.

LAURIER DEFINES HIS NAVAL POLICY

Own Fleet Under Our Own Control

A Masterly Speech—Borden Urges Consideration of Price of Two Dreadnaughts—Monk Opposes Both.

OWASAW, Ont., Feb. 4.—Sir Wilfrid Laurier yesterday defined the policy of the government, looking to the creation of the Canadian navy in co-operation with the navy of the motherland, in a two-hour address which will rank as a classic in the annals of the Canadian Parliament, which its conclusion was marked by the inspiring spectacle of the whole house rising and singing the national anthem. Touching first on the discord and divergent views expressed by the various wings of the opposition, following a unanimous endorsement of the resolution passed last session, he drew home the incoherence and anomalies of their opposing attitudes, and in a brilliant review of the basic principle of local autonomy in matters of defence, while at the same time being bound to the motherland by ties of loyalty and devotion, made enduring because voluntary, and based upon the people's will. He pointed to the fall grown partner and loyal daughter of the Empire, and his contribution to the government of the province of Ontario, or to the policy of the other extreme of not meeting the duty now resting on the larger and richer Canada, of fulfilling her responsibilities as a full grown partner and loyal daughter on the mother land.

He was followed by Mr. Borden, who, in despite the previous endorsement of the government's policy for the creation of a Canadian navy, completely and evidently in the exigencies of pressure from within the party, cast in his lot with the ultra imperialists, who have been advocating a direct contribution as a temporary expedient to meet the alleged crisis in each of Great Britain's islands amount sufficient to construct two Dreadnaughts, or about twenty million dollars leaving the permanent solution of the question of Canada's defence as a part of the Empire to be dealt with hereafter.

To both policies P. D. Monk came out in unequivocal opposition. He took the extreme anti-imperialist position, declaring that Canada should hold aloof from any participation in the wars of Britain, and declared that the creation of a navy meant practically the giving up of the Dominion's freedom and unrestricted autonomy.

has certainly destroyed a large amount of property. Just as we are having a flood of trade which is certainly causing the food to be always nice and fresh. We do all our own cooking in pie, cakes, puddings and breads. Our motto always is "Try Us, Prove Us."

When you feel as though your stomach were a piece of lead, when gas or food or acid issue from your throat, when your tongue is coated, your appetite gone, it is high time to send your stomach on a vacation.

The stomach is constantly coming in contact with foreign substances, which must reduce in form to give strength and health to the other organs of the body. It is the commissary department of the human system and must furnish from such supplies as come to it that such a system demands.

If the stomach becomes deranged and cannot furnish the necessary nourishment, it weakens the entire machinery of man and is itself placed out of commission. It cannot exert itself, because the curative powers of Nature receive their force from the stomach. If the stomach is deranged, the curative means for its own benefit. Stuart's Dyspepsia Tablets impart all the power, vigor and strength necessary to the stomach. They do the stomach's work and without calling on this organ for assistance.

If you would put your meal in a glass jar and with it place the correct amount of Stuart's Dyspepsia Tablets you could sit down and watch these tablets digest the meal as perfectly as the most healthy stomach. This demonstration has been made in almost every state in the Union by placing one grain of a single ingredient being capable of digesting 4,000 grains of food.

If you have the slightest doubt about your stomach, go to the nearest drug store and buy a box of Stuart's Dyspepsia Tablets, price 50c, or send us your name and address and we will immediately send you by mail a trial package, free. Address P. A. Stuart Co., 134 Stuart Bldg., Marshall, Mich.

Fred Logan will endeavor to break the 100 yards skating record at the police sport in the Victoria Rink tonight. Logan is travelling fast and should establish a new figure.

The last assembly of the season was held last evening in Keith's Assembly Rooms. Dancing commenced shortly after nine o'clock. Among those present from out of town were Miss Beale Grimmer, St. Andrews; Miss Danforth, New York; Miss Blatchford, Amherst; Miss O'Leary, Richibucto; Miss Clarke and Miss Stevens, St. Stephen, and Mr. J. D. Hagen, Mrs. St. John's, Md. The chaperones were Mrs. P. R. Inches, Mrs. J. D. Hagen, Mrs. St. John's, Md. and Mrs. Geo. West Jones.

OTHER CRIMES

Yesterday morning the body of a well-dressed man which turned out to be that of a railway official, was found in a tunnel on the Centure Railway, between the stations of the Avenue Henri Martin and Bouchainvilliers. The deceased had been a passenger by a train bound for St. Laurent station, and he either accidentally fell out of the compartment and was killed or else was murdered and his body thrown on the line. There is a suspicious wound on his head, resembling that made by a revolver bullet.

In the quarter of Batignolles a youth, as the outcome of a disagreement with his sweetheart, fired two shots at her with a revolver, one of which took effect in the right temple. Then the assailant, turning the weapon upon himself, shot himself in the breast. Both are now in the hospital.

All who would like a good bean supper come to the Seaman's Institute Saturday, Feb. 6th, from 5.30 to 7.30. Admission 25c.

A Benefit

If it makes you think---then make trial and see if Better Health Greater Strength Keener Brain

Come from Grape-Nuts

Grape-Nuts

Try the change. You will feel as "fit as a lord" in a week's time by breakfasting on Grape-Nuts and cream, a little fruit, a soft boiled egg, some nice, crisp toast and a cup of well-made Postum.

If you ever try this experiment, you will always bless the day you woke up. There's a reason why Grape-Nuts food furnishes power to body and brain. It is made of selected parts of the field grains that furnish phosphate of potash in a natural state that can be assimilated by the human body. This joins with the albumen of food and forms the gray matter of the brain and nerve centres.

Feed skillfully and you can "do things." The greatest brain workers eat Grape-Nuts.

Ask one or two, they'll tell you. You meet eaters who are ailing in any sort of way should take the hint. A prominent authority says:

"There is no doubt of the fact that meat-eating is not essential to human life, and that men can be well nourished without resorting to a flesh diet.

"It think the statement may be accepted without question that, as a rule, we eat too much, not only of meat, but of all forms of food. The question of limiting the diet is based primarily not on the principle of economy, but on the requirements of hygiene.

"At the early breakfasts which Americans are wont to indulge in, that is, a hearty meal before going to their daily work, the omission of meat is to be earnestly advised.

"It is well known that men who are nourished very extensively on certain cereals are capable of the hardest and most enduring labor."

You can depend on the energy from Grape-Nuts longer than from any meal of meat. "There's a Reason" for Grape-Nuts

Made at pure food factories of the Postum Cereal Co., Ltd., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.
