SITTING OF CIRCUIT COURT HELD

Grand Jury finds "No Bill" in only criminal case before the Court.

The Madawaska County Circuit Court sat at Edmundston today with Chief Justice Barry presiding.

There was only one criminal case come before it and no civil cases.

The Grand Jury found "No Bill" in the case of the King vs John Stading, Stading was charged with making up a plate something apparently intended to resemble twenty dollar and one dollar American Bank notes.

In his address to the jury his Lordship informed that Stading had previously been charged with having in his possession machinery and materials for making bank notes, had pleaded guilty, been sentenced to six months in goal and after serving two months of the sentence had been released by Judge Carleton on a habeas corpus application. He also pointed out to the jury and the witnesses to go before them that no evidence as to the admissions made by the accused to the officers at the time of his arrest could be received unless the necessary warning had been given by the officer making the arrest, and when Mr. McGrath went before the jury sent Mr. Chamberlain to see that no improper evidence was admitted.

The witnesses who went before the jury were John J. McGrath of the United States Secret Service and Constables Robichaud, Milne and Richards of the N. B. Provincial Police.

The members of the Grand Jury were J. A. Topping, Foreman, Hilary St-Jarre, Denis Masson, Léon Labonté, Alphonse Michaud, Dr. O. J. Cormier, Emile Picard, Raymond Clavelle, Jim Theriault, Fred Lebrun, Tom Michaud and Frank Cronin.

Mr. A. M. Chamberlain of Grand Falls represented the Crown and P. Dodd Tweedie and C. J. Jones of Woodstock acted as counsel for the defendant.

Automobile Accident Near St. Leonard

VAN BUREN CAR BURNS

A Buick Sedan owned by Leon Violette of Van Buren, Me., burned as a result of a collision with a Whippet Sedan owned by James Duguay of Edmundston on Sunday evening.

Mr. Duguay, accompanied by his wife and Mr. F. X. Carrier was coming from St. Leonard towards Edmundston and at about 7:15 o'clock met the Violette car just outside the limits of the Town of St. Leonard. The Buick was travelling at a very fast rate of speed, according to eye witnesses of the collision, and in meeting the Duguay car struck the side of it, tearing off the running boards and mudguards and damaging other parts of the car. The Buick turned over and caught fire and was burned to such an extent that it is a complete wreck. The occupants, Mr. Violette, and three girls were severely shaken up but not otherwise injured. Immediately after the accident they crossed the border to Van Buren. The occupants of the Duguay car were not injured.

The road at the point where the accident happened is straight and the collision is attributed to the speed at which the Violette car was travelling and possibly the condition of Mr. Violette who was driving it.

SECOND VICTORY FOR LOCAL TEAM

Edmundston Football Team Defeated Woodstock Again. — Game Played at Woodstock. — Score 5-3.

The Edmundston Football Team defeated the Woodstock Team at Woodstock on Saturday by a score of 5 to 3. Both teams made one try each, but McCaffrey for Edmundston was successful in converting the try made by his team.

Ewan Matheson for Edmundston made a touchdown in the early part of the first period. It was the result of a long run and sensational combination work on the part of the half line. The rest of the period was scoreless. Reardon for Woodstock succeeded in getting over the line about the middle of the second period, but the attempt to convert was made from a difficult position and was not successful.

The Woodstock team was working much better than it did in the previous game and heeled the ball cleanly during the most of the game.

McCaffrey and Reardon were the outstanding players. Hierthy also played a very strong game.

The management is communicating with the Saint John Trojans and the Fredericton City Team and games will probably be arranged in the near future.

CHIEF JUSTICE

Mr. Justice Hugh E. ROSE of the Supreme Court of Ontario, who has been appointed Chief Justice of the High Court of Ontario, succeeding Chief Justice R. M. Meredith, who has resigned after forty years' service.

PERSONALS

—Mrs. Archibald Fraser, received for the first time since her marriage on last Wednesday, from 4 to 6, at her home on Burpee St. The house was beautifully decorated with pink roses and mauve chrysanthemums.

—Mrs. Fraser was very charming in a gown of beige spongete crepe, cut in princess lines, and trimmed with brilliant, she wore a corsage of orchids. —The following young people motored to Madawaska Hotel's camp on Sunday and had a chicken supper: Mary Madams, Geraldine Clavette, Bela Jessup, Ella Jessup, Vera Bates, Olive Martin, Blanche Pelletier, Estimette

Quaker Oats Introduces Delicious New Cereal

Quaker Crackels "pillows" of delicious grain food. — Creates a new job in mill.

The Quaker Oats Company now is producing the first really all-new cereal "invented" in over a century. Quaker Crackels are entirely different from any other ready-to-serve cereals. They combine the splendid energy of wheat, the body-building protein of oatmeal, and the rich nourishment of corn. Wherever Crackels have been introduced they have met with instant popularity.

Behind Crackels is all the cereal experience of The Quaker Oats Company. The new cereal is the creation of the company's food experts, who spent seventeen years in experiment before they finally were able to produce Crackels in its present form.

Crackels are crisp, golden-brown "pillows", about the size of croutons. Because of a special "ever-blending" process they possess a delightful, fresh-tasting, oven-crisp crunchiness. They stay crisp in the cereal dish—in spite of milk or cream—down to the last spoonful. They provide a food combination not found in any other cereal.

Crackels are made by machines which were designed by the Quaker engineering staff and built to their requirements. These machines employ 25 additional operators in the Peterborough mill alone and they are already working to full capacity. Distribution of Crackels now is being made to grocers as speedily as possible.

Naturally only the finest selected grains are used in the making of Crackels. These, with the other ingredients which give to the new cereal its subtly distinctive flavor, are milled and kneaded as a dough which is conveyed to a machine which combines several intricate operations and which is the main instrument in the manufacture of Crackels.

In the machine the dough is forced through cooking coils heated by steam to a temperature of 325 degrees. It emerges a hollow ribbon with all the appearance of a never-ending stick of macaroni. Knives cut these "tubes" of dough into the proper length and seal the ends. Simultaneously the Crackels are subjected to a blast of air of 500 degrees.

From here Crackels go to the ovens which toast them to their golden-brown crispness. Through screens which sift out the imperfect "pillows" they are carried by gravity to the packing department. Crackels are not touched by hands in the whole process of manufacture and packing. The eight cartons have a sealed inner container of transparent glassine, which fully protects the contents from the effects of changes of temperature and atmospheric conditions.

What price radio? A small sum of money that buys more entertainment than dollars ever before became acquainted with. What perseverance to learn operation to learn operating radio? Hardly none. Just the will to do it — we'll show you.
