## ON MONTREAL MARKET

Furnished by F. B. McCurdy & Co., Members of Montreal Stock Exchange.

Montreal, Feb. 12.—The local market owing to New York being closed did little more than mark time during the greater part of the day. A generally firm tone prevailed, there being an absence of the liquidation which took place on Tuesday when New York was declining. The stocks which had been more active during the past week ruled firm around Tuesday's closing prices. Canadian Cottons opening higher at 43 1/4 and holding around 43 during the entire morning session.

Dominion Textile was traded in only to the extent of 800 shares in the early part of the day, holding around 85 to a quarter.

Greater activity prevailed in C. P. R. rights, this being the last day for the readjustment, the prices holding around 15 to 15 1/4. As the day went on the prevailing tendency was downwards but in no instance was the decline more than fractional.

Liquidation of small orders in R. & O. carried the price down from 115 to 114 1/2 in the early session. Brazilian from 97 1/4 sold to 97. Montreal Power just held around yesterday's closing prices from 230 to 229 3/4. Cement which had been holding at 28 1/4 since the annual statement was issued sold off fractionally to 28.

Among the preferred stocks most interest was centered in the early trading, Canadian Cottons preferred being at 78 1/4.

Halifax Tramway sold at 160 for 25 shares.

In the afternoon prices held fairly well there being a little selling of Ottawa Power which carried the price down to 137 for 75 shares.

In the unlisted department in the afternoon considerable attention centered in National Brick which gained from around 63 1/2 to 65 1/2.

## WORLD'S LARGEST MINE HOIST FOR CAPE BRETON

The American Machinist of Jan. 10 says:

An order for what is thought to be the largest size hoist in the world, was recently placed with the Nordberg Manufacturing Company, Milwaukee, Wis., in competition with both German and English builders.

The hoist is to be used at the Inverness Railway and Coal Company's mine at Inverness, Cape Breton Island, N. S., and is of the Nordberg Corliss duplex double-drum type. The cylinders are 34 and 34 1/2 inches and the hoist is equipped with two drums, one of which is equipped with Nordberg axial clutch and post brake, enabling independent operation of either drum.

The hoist is destined to lift the following load: A train of 12 cars, each car weighing 1150 lbs., and containing one long ton of coal. It will be required to pull this load a 10,000 ft. incline, which is 16 deg. at the surface and 35 deg. at the bottom. This makes the stress on the rope about 41,000 lbs., and in view of this rope stress and the length of the cable, this hoist is thought to be the largest ever constructed.

Hoists with larger cylinders have been built for the copper mining business, notably the two Nordberg hoists at the Tamarack Mines, in Calumet, Mich., but these are surpassed in the present case in the two particular features mentioned. As might be expected, the brakes, clutches, reverse and throttle are not operated directly by hand, but by auxiliary engine.

## Shock Upset The Nerves

This letter from Mrs. Tweedie is interesting because it shows how nervous trouble develops gradually from such derangements as stomach trouble, until prostration and locomotor ataxia or paralysis render the victim helpless.

It is even more important because it tells how the writer was cured by Dr. Chase's Nerve Food, the greatest of nerve restoratives.

Mrs. F. Tweedie, Brighton, Ont., writes: "For years I was troubled with the stomach and have always been of a nervous temperament. The death of my husband was a great shock to me, and a few months later I was prostrated by nervous trouble. Locomotor ataxia developed later and I was in a bad condition."

"I took treatment from different doctors, but did not gain until I began the use of Dr. Chase's Nerve Food. When I used five boxes I was so fully restored that I was like a different person. I am sure that the Nerve Food is a good medicine, and have told many people about the remarkable way in which it has restored my health."
