Special to The Standard.
St. George, Sept. 30.—A special meeting of the Weir Owners' Association of St. John and Charlotte counties, was held here this afternoon at 2 o'clock in the Town Hall, to deal with a situation which has arisen in connection with some of the buyers trying to purchase for less than the standard price of \$10 per hoghead.

Representatives were present from all sections of the counties, and the following resolutions were unanimously adopted:

"That any boatman found cutting prices and offering less than the standard price would be refused fish at any price by the members of the association. It was also resolved that the price for the balance of the season should be \$10 per hoghead."

These resolutions will go into effect on Tuesday, October 3.

MR. WM. M'INTOSH ADDRESSES TEACHERS OF NORTHUMBERLAND

His Remarks on Insects as
Disease Carriers Heard
with Interest by Conven-
tion.

Newcastle, Sept. 29.—The total enrollment at the Teachers' Institute was 112. Yesterday afternoon was most profitably taken up by addresses on nature study and school gardens, by Director R. P. Steeves; and on insects by Wm. McIntosh of St. John. Mr. McIntosh showed how fleas carried bubonic plague from rats to men; how the mosquito carries malaria; the louse, typhus; the common house fly typhoid, etc. These insects had caused the downfall of nations and turned the course of history. People were so slow to learn and so slow to forget.

Habana could not become a winter resort nor the Panama canal be built until the mosquito that carries yellow fever was exterminated.

In the evening there was a public meeting. Mayor Fish presided and gave the address of welcome. He hoped that the institute would suggest to the board of education that school trustees of towns be elected. They might then show more interest in their office.

Mr. Macintosh gave a superb lecture on The Manners and Customs of the Indians of New Brunswick, profusely illustrated.

Very profitable addresses by Inspector MacFarlane and Dr. Carter closed the meeting, the National Anthem being sung before dispersal.

This morning two excellent papers were read, School Sanitation by Dr. D. R. Moore, and Household Science in the Public Schools by Miss Vera Wilson, the efficient instructor in that subject in Chatham.

HOW PNEUMONIA STARTS AND HOW OFTEN PREVENTED.

You catch a little cold today, and by tomorrow it has reached the throat, next day the lungs are affected and you wish you had used "Catarrhoxone" which kills colds in five minutes. In the first place Catarrhoxone soothes the irritated membranes and relieves congestion, then it cuts out the phlegm and destroys the germs. It enables the blood to retain a natural supply of Oxygen, lung-food, and vitality. In any cough or bronchitis Catarrhoxone is guaranteed to positively cure. Beware of dangerous substitutes offered under misleading names for genuine Catarrhoxone which is sold everywhere, large size containing two months' treatment costs \$1.00, small size 50c.; trial size, 25c.
