Discuss Victory Loan Campaign

Central Committee Gave Dinner Last Night With Idea of Putting More Life Into the Work—Number of Interesting Addresses—The Returns to Date.

With the idea of putting a little more pep and punch into the local team captains and canvassers, the central committee of the Victory Loan campaign gave another dinner at Bond's last night, which was followed by a verbal statement from a representative of each ward and district, telling of the individual problems and successes.

It was pointed out by the speakers that those who invested in previous years took their savings from the bank to do so, and that they have no savings now; that the high cost of living has struck all the people, merchant as well as consumer; that the public lacks enthusiasm regarding the loan; that the larger investors are subscribing through the banks rather than the subscribers' badge—an indication of the lack of interest that is being taken.

The representative of Prince ward reports that three factories in that district are having the employees come by on the deferred payment plan which will enable almost all the workers to become bond owners.

It was stated that the railway employees are pooling their subscriptions and having them placed as subscribers from the railway men as a body, some of the canvassers being of the opinion that Moncton would get the benefit of this investment.

Another point brought out was the fact that the man who could afford to invest \$2,000 or \$5,000 is not doing anything.

One interesting statement was that regarding the way the foreign citizen is subscribing to the loan, one team captain making the announcement that he had received applications from Russians, Austrians, Germans, Poles and Turks.

Capt. H. Patchell, Simonds ward, said the non-investors of the ward are in three classes; those who have not enough money; those who subscribed last year and cannot this year; returned soldiers who have been misled by the bogus, gratuity cry.

The returned soldiers who have money, this speaker said, are refusing to invest because they think they have been misused. As a matter of fact they have been well used, and the loan will insure that the more unfortunate fellow soldier will also have a chance.

H. B. Robinson took exception to the statement that there was no patriotism to the present loan. Many of the largest investors, fully 25 per cent. of this city alone, took bonds this year solely through a patriotic spirit.

Chairman Paterson told of the formation of the \$100,000 club in which ten local men are pledged to take bonds to the total value of a million dollars, though to do so some of them were using all their available capital and even extending their credit to the utmost, a stirring example for others.

The returns up to date are as follows:

SMOKING IN THE POLICE COURT

Though the day was one of the most disagreeable in the year, a heavy rain and driving wind adding to the discomfort of the low temperature, the court room was unheated, and the magistrate and others were forced to wear overcoats during the session.

Dissatisfaction With The Government

E. P. Hoare Says if Provincial Government Went to Country Now it Would be Badly Defeated—A Bad Road Policy.

"If the Provincial Government went to the country now, it would be badly defeated," said E. P. Hoare, of Moncton, who arrived in the city yesterday to attend the Opposition Convention. "There is much dissatisfaction with the Government's road policy," added Mr. Hoare. "They have been building what they call permanent roads, and issuing bonds to cover the cost, and their permanent roads are a joke, and a grievance. This spring they had a fairly good road between Sackville and the border, which represented a considerable addition to the public debt, but at present the road is full of holes, and in a deplorable condition generally. While the government is spending a lot of money on these permanent roads which go to pieces in a season they have been neglecting the back roads, and the farmers are naturally much dissatisfied. Where the farmers vote controls a constituency the Government candidates would have a rocky road to travel with defeat at the end."

Social At Stone Greatly Enjoyed

Large Number of Congregation Attended Re-union—Presentation to Rev. Canon and Mrs. Kuhring—First of a Series of Socials.

The congregational social held last evening at St. John's (Stone) church, proved to be a "social" in the true sense of the word. In spite of the wet weather, there was a very large attendance of church members and all enjoyed the musical programme provided, while the guessing games were entered into with much pleasure.

George Warwick presided and Rev. Canon Kuhring made a brief speech of welcome, explaining that last night's was only the first of three socials to be held during the winter. This one was in charge of a committee of ladies and gentlemen, the next would be arranged by the Junior Badminton Club, while for the third the choir had asked for the pleasure of planning.

Premier Foster presented the prizes of the contests to the winners as follows:—Basket of apples, Mrs. Blanchard Fowler; cake, Mr. Carter; pumpkin, Kee Anderson. Two fine solos were given by Mrs. George Bell and WeWitt Cairns, and a violin solo by Mrs. T. J. Gunn played greatly, and the orchestra played during the evening.

A pleasing incident which took place was the presentation to Canon and Mrs. Kuhring of life memberships in the Hospital Aid. Mrs. G. F. Fisher made the presentation on behalf of the Red Cross Circle of the church of which she is president.

Refreshments were served at the close of the entertainment. Presiding at the tea table which was prettily decorated with pine, red ribbon and red candles, were Mrs. William Vassie and Mrs. Shirley Peters.

Those in charge of last evening's social were Mrs. Kuhring, Mrs. George F. Smith, Mrs. W. F. B. Paterson, G. M. Dunlavy, R. J. Armstrong, John Ross.

After the meeting the directors met and elected the following officers: George M. Dunlavy—President; John Ross—Vice-president; E. W. Paul—Secretary-treasurer. Committee of management—George M. Dunlavy, John Ross, W. F. B. Paterson, W. F. Nobles and Jas. MacParlane—Auditors.

Resignation Of Popular Pastor

With Much Regret Congregation of Central Baptist Church Receives Resignation of Rev. D. J. MacPherson—Takes Effect First of December.

It was with much regret that the congregation of the Central Baptist church received, at their mid-week services, the resignation of their popular pastor, the Rev. D. J. MacPherson, the resignation to take effect the first of December.

The Rev. Mr. MacPherson took up his pastorate in this city in August, 1914, when he became the incumbent of the Old Brussels Baptist church pulpit, where he was entirely successful in conducting the activities of that church. In February, 1916, he was instrumental in the amalgamation of the congregations of the Brussels church and the Leinster street church, both congregations worshipping since in the Leinster street edifice in such harmony and good will that the joint communion seems that of one big family. Under his guidance, the Central Baptist church has made great strides forward, and to say that he will be missed, and greatly missed, by this congregation, is putting the matter very mildly.

In his work he has been most ably assisted by Mrs. MacPherson, who for some time has been president of the United Women's Missionary Society, and a very energetic worker in all church activities.

The Rev. Mr. MacPherson leaves from here the first of December for Sussex, where he will take charge of the United Baptist congregation. It is the intention of that community to erect a new church building, and a parsonage as well. While wishing their pastor the best of success, the congregation as a body has a distinct sense of loss which will not be easily overcome.

Severe Storm Raged Yesterday

Rain Fell All Day and Night, the Total Fall Recorded at 1.10 Inches—Wind Blew 46 Mile Gale from the Northeast.

A bitterly cold wind, which drove the persistent rain through the fibres of one's clothes right to the skin, was the particular part of yesterday's weather which made even the mildest men express his war-like sentiments of a red-flag waver.

The storm started early in the morning, in fact the signal on the Customs House was hoisted at 1.30 in the morning, and it was not long after that, in the words of the scribe, that the "rains descended and the wind blew, and great was the discomfort thereof."

Throughout the day the rain fell incessantly, and at nine o'clock last night the Meteorological Bureau had recorded a total rainfall of 1.10 inches. While the higher levels were comparatively dry, the lower portions of the city were well dotted with pools and puddles, making walking without rubber boots a moist undertaking. The wind blew strongly from the northeast all the day, attaining its greatest velocity at 1.30, when it was blowing a 46-mile gale; at nine o'clock it had tempered down to 20 miles, but had a lot of kick in it still. The highest temperature was at mid-day, when the mercury registered 42 above, and the coldest was at nine o'clock, when it had dropped to 27 above.

The day was a very hard one along the waterfront, there being practically no movement in the harbor.
