Anaemia

Thin, watery blood is no more nourishing than thin, watery milk—skim milk,

But you can soon enrich thin blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. G. Simmons, 42 Curtis St., Brantford, Ont., writes:

"For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, seemed restless and easily worried or irritated. There was a buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt brighter and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before I used this splendid medicine."

Accuses Bavarian Leaders of Plans To Sacrifice Germany

Charges Efforts to Break Up Unity and Place Bavaria Under French.

Berlin, Feb 77.—Ignatius Trebitch Lincoln, now under arrest in New York, to which city he fled after unloading some "revelations" on the Czecho-Slovak Foreign Office and foreign newspapers at a high price, professing to be treaty secrets of his associates in the Kapp putsch, has a rival revelator in August Abel, "insider" in the Bavarian home guards movement and a prominent writer for reactionary papers.

Abel has created a sensation in Nationalist circles by publishing an open indictment of prominent leaders of the Bavarian movement, accusing them of planning to sacrifice the unity of Germany and to place Bavaria temporarily under a French protectorate as a step toward the realization of their goal, the restoration of the monarchy.

He attacks by name Dr. Pittinger, present head of the Bavarian organization quoting remarks said to have been made by Pittinger to the above purport in the presence of witnesses whom he names, and declaring that Pittinger's associates are working hand and glove with the notorious League of Awakened Magyars in Hungary to bring about the establishment of a Danube condederation with Bavaria as a member under French auspices.

Abel calls upon the Nationalists to cast out these Judases to the cause of German unity. There is some disinclination here, after the disclosure of the falsity of Lincoln's revelations, to accept like charges from other sources, but the present publication bears all the outer evidences to verisimilitude.

HEART WOULD BEAT LIKE A TRIP HAMMER

Heart trouble has of late years become very prevalent. Sometimes a pain catches you in the region of the heart, now and then your heart skips beats, palpitates, throbs, or beats with such rapidity and violence you think it is going to burst.

You have weak and dizzy spells, sinking sensations, are nervous, irritable and depressed, and if you attempt to walk upstairs or any distance you get all out of breath.

We know of no remedy that will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy normal condition as will

MILBURN'S HEART AND NERVE PILLS

Mrs. Chadwick, Delhi, Ont., writes: "I had palpitation of the heart, and the least exercise, such as going upstairs or up a hill, my heart would beat like a trip-hammer and at times I was dizzy-headed and had a sinking sensation as if my time were near.

A friend suggested I try Milburn's Heart and Nerve Pills, so I procured three boxes, and by the time the first one was used I began to improve. In all I took six boxes, and now although in my 66th year I feel like a young girl; no dizziness or heart-thumping, and can walk miles without fatigue. At time of sickness I weighed 120 lbs., now I weigh 150."

JOHN HAY'S WIDE OPEN DOOR POLICY AT LAST

America's Old Time Attitude Is Exemplified in Chinese Treaty.

Washington, Feb. 7—The Nine-Power Treaty which was reported to the conference today on plenary session is the open door which has been since John Hay's time the American policy with regard to China, put into the form of a covenant. Nine Powers sign it, including China herself, and all other Powers whose governments are recognized will be united to accept it. Thus it promises to be a world-wide policy with respect to China.

The principle underlying it is the non-exclusive exploitation of China. Spheres of influence, monopolies, exclusive rights and discriminations are in the future to be frowned upon. China herself agrees not to grant them, the other Powers agree not to seek them or not to support their nationals in obtaining them.

No Pressure or Bribery.

Upon agreement of mutual forbearance and self-restraint, a self-denying ordinance under which all the nine Powers promise to give up the practice of the part under which China has been reduced by outside pressure or by bribery to grant exclusion favors and rights to stronger nations or promoters supported by those nations to yield up value exclusive privileges or opportunities to exploit exclusively certain regions.

It will make for the peace of the world as the jealousies arising from the abuses of the old system were sure in the end to lead to conflict. If we assume that the great economic development of the future is to be in China then this nine Power treaty ranks second only to naval pact as a document which will secure the nations of the earth against war.

It is a triumph of American diplomacy, ever since John Hay enunciated the open door doctrine, this country has been pressing steadily to have the principles now definitely embodied in this treaty solemnly accepted by the great Powers of the world.

Old Processes Overturned.

When Hay announced our adhesion to the open door the other Powers with interests in Asia at once signified their acceptance of it. But their acceptance meant little. The old process of seeking monopolies and spheres of influence went on and during the war when the rest of the world had its hands full elsewhere, Japan went so far in impairing the sovereignty of China that her absorption seemed likely.

Behind the open door there was no force. The military possibilities of the United States were not realized on the other side of the water when Japan presented her 21 demands to China during the great war. Frank Polk, then counsellor of the State Department, said shrugging his shoulders: "Well, what can we do about it?"

"t has been rising of the United States to first place among the nations of the earth that has made it possible to obtain from the other Powers the self-denying ordinance today reported in plenary session.

"At one time during this conference it seemed that this country did not sufficiently realize its power and would report the question of Mr. Polk when Japan insisted upon maintaining its selfish attitude towards China.

"But since the naval agreement became assured the American delegates put on new pressure. The Shantung settlement was effected and the way was paved and this charter of Chinese liberty from outside aggression became possible. Its professions as has been cynically observed are the old professions. Regarding China some one said: "There has not been a treaty for generations regarding China which did not contain the words sovereignty, independence and territorial integrity."

New Significance To It All.

They have a new significance in this document. Mr. Hughes' emphatic words of Friday regarding Manchuria and Mongolia show that the United States is firm in its intentions to see that China's rights are respected. There will never in the future be occasion to repeat the impotent question: "Well, what are we going to do about it?" If this country maintains in the future the attitude she has maintained in the last days of the conference China is as completely safeguarded from outside aggression as any Power as weak and unstable in its government can be.

The Nine-Power Treaty adds to the favorable impression of the work of the conference with regard to the Far East. The success has been almost as great as it has been in limiting naval armament

POLICE COURT CASES

In the police court yesterday morning John Arthurs pleaded guilty and Fred McLeod and J. H. Sherwood pleaded not guilty to charges of selling produce in the city without paying market fees. Policeman Saunders testified he saw McLeod take eight bags of potatoes and Sherwood three tubs of butter to the store of W. L. Walsh, Haymarket square. Later, Sherwood, he said, asked him not to cause any trouble, and offered to fix it up with witness if he wouldn't report him or Mr. Walsh.

John Stevenson and Samuel Withers, clerks in the city market, said they had received no fees from either of tre defendants.

For the dfenece W. L. Walsh said these men had been bringing him stuff for years. In the morning they left it in his store along with an order for goods they wanted, and he got them the goods. He didn't buy any of the things from them, he said.

The defendants were warned they were liable to fines of $20 each.

LINIMENTS WONT RELIEVE PAIN BETWEEN THE EYES

The pain is not rheumatism or neuralgia. Many folks think so,—it is due to Catarrh, plain ordinary Catarrh and needs attention right now. Catarrhozone is the name of a wonderful invention that is daily fixing up chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs. It can't fail to help, because it goes where the trouble really exists,—and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. There is no sufferer from a grippy cold or any winter ill that won't find benefit in Catarrhozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months, and costs $1.00. Small size 50c, sample size 25c, all storekeepers or the Catarrhozone Co., Montreal.

Six Boys Remanded on Charge of Stealing Coal—Leo Hayes Charged With Theft of Whiskey.

In the police court yesterday the case against George Merritt, Wm. McAleer, Ernest Bushfan and George Cook, charged with stealing coal was resumed. The boys were given a lecture and remanded. Joseph DeVean and Ernest Doucett, held on a similar charge were also remanded.

Six men for drunkenness were remanded.

The case against Leo Hayes, held on the charge of stealing two cases of Black and White whiskey, valued at $80, the property of Raymond Tobias, was resumed in the police court yesterday morning. Miss May Patchell, employed with Mr. Tobias, said she was in the house on the night in question, but went out for a few minutes and locked the doors after her. When she returned she found the front door partially open. She knew the defendant, but had never seen him at the house. She knew there was liquor in the house.

George Allingham said he bought two cases of Black and White whiskey from the defendant and another man and paid them $30 each for it. Tobias called on him about the liquor. To Sergt. Detective Power he said he had passed the stuff on to another man. The case was further postponed till Friday at 10.30. E. J. Henneberry for the defense.

Samuel Lean, charged with keeping intoxicating liquor in his premises at 132 Prince Edward street on January 10, was before the magistrate yesterday afternoon. Inspector Killen testified that he went to the defendant's beer shop on the night in question and, on going behind the counter, noticed something in the man's pocket. The witness searched him and found a bottle containing a fluid, which upon being analyzed, was found to contain seven per cent. proof spirits.

The case was postponed until Friday afternoon and the defendant was allowed to go on putting up a deposit of $60 for his appearance. W. M. Ryan appeared for the prosecution and E. S. Ritchie for the defendant.

The case against Hum Sek and Lum Woo, charged with violating the opium narcotic act, was further postponed until today at 12 o'clock.

The annual meeting of the Victorian Order of Nurses was held yesterday afternoon at the home of the nurses, 55 Carleton street. The superintendent of the nurses reported that during the year there had been nursed 1,517 cases, of which 525 were maternity cases. There had been 11,630 bedside nursing visits; 4,317 child welfare visits, and 4,254 free visits, and the grand total of visits made, including child welfare and schools, was 18,094. There had been made for the Metropolitan 3,217 visits.

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare and really there is nothing better for coughs.

Into a 16-oz. bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, this mixture saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.
