stree's; and it is the opinion of all, had he not been fortunate in getting your valuable Syrup of Hypophosphites, he would now be in his grave. He happened to be in W. H. Thompson's the day your shipment arrived, and took at once four bottles to the Labrador, which he was very anxious to do, but had no use for them himself. No other medicine will he ever prescribe, recommend, or give but yours.

I also recommended it to another consumptive, but have not heard from him since, as he lives in a distant part of the Island. Hoping this will give you some encouragement,  
I remain yours, &c.,  
D. H. BURRIDGE.

### Rev. Dr. Clarke Writes:

"While I was under the process of Erysipelas, the Hon. Dr. ——— called upon me; I told him how much of the Hypophosphites I had used. He said: 'Fellows' Hypophosphites is a good medicine, an excellent tonic, and no doubt had drawn the acidity in my blood to the surface and thus prevented it from attacking some important organ of my system.'"

I have conversed with many who have used it, and all say they were benefitted by it.

For myself, I have much pleasure in saying it improved my general health amazingly. It gives a clear skin and healthy countenance, but to know its virtues, it must be used, and were it within the reach of all classes, I believe it would be used universally: yes, by the well, to renew their age, and by the sick to them well.

It makes an old person look ten years younger. "This witness is true." Would that I could widely make it known for its many virtues. Long may its inventor live to see the happy fruits of its invention,

ALEXANDER CLARKE, D. D., Amherst, N. S.

### Consulting Office of Consumption.

WESTERN MEDICAL INSTITUTE, CLEVELAND, OHIO.

MR. JAMES I. FELLOWS.

DEAR SIR:—We were induced to prescribe your Compound Syrup of Hypophosphites by Dr. McMaster, and its use has been attended with such satisfactory results as to warrant our employing it largely from this time forward.

A. SLEE, Sr., M. D.

Fellows' Hypophosphites is sold by all respectable apothecaries. No other Hypophosphites preparation is adapted to substitute for this.

### Dr. Howe's Testimony.

PITTSFIELD, ME, March, 1872.

MR. JAMES I. FELLOWS.

DEAR SIR:—During the past two years I have given your Compound Syrup of Hypophosphites a fair, though somewhat severe trial in my practice, and am able to speak with confidence of its effects. In restoring persons suffering from emaciation and the debility following diphtheria, it has done wonders. I constantly recommend its use in all affections of the throat and lungs. In several cases considered hopeless it has given relief, and the patients are fast recovering. Among these are consumptive and old bronchial subjects, whose diseases have resisted the other modes of treatment. For impaired digestion, and in fact from debility from any cause, I know of nothing equal to it. Its direct effect in strengthening the nervous system renders it suitable for the majority of diseases.

I am sir, yours truly,

W. S. HOWE, M. D.

### Inflammation of the Lungs.

CUMTOS, N. B., 17th February, 1873.

SIR:—In behalf of my family, I wish to acknowledge a debt of gratitude I owe Mr. James I. Fellows. My daughter had been ill with Inflammation of the Lungs, had raised large quantities of blood and purulent matter, attended with every symptom of Consumption. After obtaining the attendance of two eminent physicians, who afforded her no relief until she was persuaded to try Fellows' Syrup of Hypophosphites. Upon taking two bottles we had every reason to believe she would be cured. Her physicians were surprised to find her improvement so rapid, and advised her to continue its use, which she did until her complete recovery. Two years have elapsed, during which time she has neither taken or required any medicine, enjoying good health, and urges all who are afflicted with any Lung or Chest trouble to use the Hypo. without fail.

My wife also having been in bad health for sometime, and having had Typhoid Fever
