

GILSON SILO FILLER

Get your silage in at the proper time. Get the greatest food value from your corn. You can do it with your own cutter. There are three sizes of the Wonderful Gilson Cutter—one specially adapted to your needs. Made to run with light power—4 to 12 h.p. gas engine. The Gilson pours a steady stream of uniformly cut ensilage into a high silo at the rate of 3 to 50 tons per hour, according to size.

The Lightest Running Blower Cutter Made

Built for many years of service. Steel and iron construction, all but the feed table. All five main bearings are a part of the one-piece, semi-steel frame. This secures perfect alignment of cutting mechanism at all times. Direct drive by heavy gears. No chains. Patented safety reverse prevents accidents. Every Gilson Cutter has six fans in place of the usual four. This is why the GILSON elevates in a more constant stream. It throws as well as blows.

Well Fed

Plants get the greatest part of their feed, and their growth, from the soil. If you give the crop you sow the exact Plant-Food it requires to grow and ripen, you can count on a strong stand and a rich harvest.

Nothing can be more exact in its results than the use of the right quantity and the right brand of

Gunns Shur-Gain Fertilizer

GUNNS LIMITED, Gunns Limited West Toronto.

I am interested in GUNNS Shur-Gain Fertilizer.

Starved

If years of cropping have used up the Plant-Food in the soil, you must supply commercial Fertilizers to replace it.

Do you understand how to do this profitably?

"Bumper Crops" is just the book to show what Plant-Foods to use for each crop and how to use them, to get the best returns.

For Maple Syrup and Sugar

Every maker of Maple goods in Eastern Canada should be interested in this remarkable contest. Our last competition before the war showed us how to arrange the prize money so that more competitors will be sure of being in the winning class. This spring will offer an unprecedented opportunity in the development of the Maple industry, and this contest will help to classify and arrange the various grades and qualities of Syrups and Sugars produced in Canada. Why not equip your grove and enter this contest? For full particulars, write to

A Real Oil Engine NOT AN EXPERIMENT

Uses no Gasoline, not even to start with. Starts easily in the coldest weather on the fuel it runs on. Coal Oil or Fuel Oil, and only uses half the amount required by other so-called Oil Engines. The saving in fuel will pay for this engine in a few months. The

Hoag Oil Engine

has no electric devices whatever, the burning of the oil is obtained by mechanical means alone, and the usual time and trouble, forever fixing electrical ignition, is entirely done away with, making this engine the Farmers' Friend. Get circulars and price of size you are interested in.
