

Built on the Ground

THAT'S THE REASON FENCES BUILT WITH

LONDON FIELD-WEAVING MACHINES

ARE SUPERIOR TO OTHERS.

Men of long experience with wire fences say they would not pay as much per pound for roll fence as for the same quality of wire with which to weave their own fence on the ground. Why? Because it's built so much better that it pays. Yes, it pays several times over for the work. Buy London Coiled Wire with London tin tags. Build it in the field with a London, and get the best results for the least money.

MELOTTE ...CREAM SEPARATORS

Are the popular farm cream separators for several reasons. One of them is illustrated here. The Bowl hangs on a hardened steel spindle which revolves in a socket fitted with ball bearings. Friction is thus reduced to a minimum, and the machine runs so smoothly as to necessitate the use of a brake, which is a feature of all the "1903" Melottes. An equally important feature of this beautiful arrangement is that the bowl is self-balancing, and thus all the annoyance and expense involved in a bowl getting out of balance is avoided. These invaluable features are possessed by no other Cream Separator. Ask our agents to let you have a machine for eight days' free trial, or write us for Illustrated Booklet.
