

A Free Lecture in Your Locality on "Guarding the Forests"

The Canadian Forestry Association provides free of charge special lecture outfits consisting of 56 photographic lantern slides (many in colors) and a complete manuscript. Can you make use of this in your locality?

These 'forest travelogues' have proved of lively interest wherever shown. The Manuscript discusses entertainingly the subject of forests, forest industries, fire rangers, lessons from home and abroad, the trail of the Fire Demon, etc. For each lantern slide a descriptive paragraph is provided.

Anyone having a stereopticon can give the lecture effectively and there is no dull material in it. A 'forest travelogue' in French will presently be available.

Arrangements have been made for the purchase and circuiting of motion picture reels showing forests in flames, and old and new methods of fire prevention.

An Ontario school principal said of our lecture outfit: "We all enjoyed the scenes, and ideas expressed in the lecture were timely and instructive."

From a Quebec user: "We gave the lecture at two points and everybody was much pleased."

From a Western clergyman: "I gave the lecture before the Boy Scouts and again before my congregation. They all liked it greatly and I congratulate the Association for taking this excellent means of awakening the public."
