

Dr. W. S. Tigges

(Continued From Page One)
ing the tremendous heat and light released by smashing the uranium atom. He explained that the Christian must allow the penetrating rays of the Holy Spirit to smash his ego atom if he is to possess spiritual power. To smash the ego atom, he recommended obedience to God, Bible study and personal contact with Christ.

N. F. C. U. S.

(Continued From Page One)
The last national meeting of the N. F. C. U. S. was held at the outbreak of the war. During the war the organization lapsed into a bad case of "rigor mortis." Now the organization is once more moving ahead. A full time secretary has been hired and his office is located at McMaster's University. Every two weeks a bulletin is issued from this office telling of points of interest in other universities. In the last issue, three-fourths of the contents are on the subject of U.N.B.'s Flying Club. Questionnaires have been received from many universities on a wide variety of subjects. U. N. B. has issued one on the prospects of a Canadian Championship Basketball play-off this year.

Campus Police

(Continued From Page One.)
Article 3 Members—Section 1—The control and organization of the constables shall be vested in a Chief of Campus Police. The Chief shall be selected from applications by the S. R. C. and shall be responsible to the S. R. C. for the efficient management of the Campus Police. Section 2—Constables shall be chosen from applications submitted to the Chief, after he has notified the student body that applications for the position of Campus Police (constables) are called for. Campus Police shall be selected by the criteria of intelligence, physical fitness, personality and other qualifications. Campus Police must be approved by the S. R. C. before being recognized as such.

Formal Protest

(Continued From Page One)
pamphlet describing all activities in the university open to new students. 2. That all campus elections henceforth be based on a Preferential Vote. (This changes the present system which requires a re-vote if a candidate for office does not have a 50% majority. Pat Byrne's Political Club got another lease on life when he stated a definite program for the club during the next month. The club's past inactivity was criticized but most of the council felt that there was sufficient need for such a club on the campus as a place "to blow off steam" which might get too active elsewhere.

CANADA'S FASTEST SELLING CIGARETTE TOBACCO

Industrial Acetylene

(Continued From Page One)
and involves great expense and inconvenience. "By heating methane to 3000 degrees centigrade and rapidly cooling the products the Germans have succeeded in producing acetylene directly from methane without any intermediate steps. This method, however, requires an electric arc to produce the high temperatures and the product is not pure." A certain type of carbon black is produced as a by-product in acetylene manufacture and when used as a binder in rubber, the rubber becomes a conductor of electricity. Dr. Benson demonstrated this with a sample of the rubber and an electric light bulb. Other demonstrations included samples of plastic materials produced indirectly from acetylene. A short discussion followed the talk.

MAIL CALL

Toronto — The University of Toronto Symphony Orchestra has planned this year the most ambitious season in its 12-year-history. Directed by the Hans Gruber (a Toronto undergraduate who came to the University via Vienna, Czechoslovakia and France) the orchestra has planned eight concerts this year including performances at Ontario Agriculture College, Guelph; the University of Western Ontario, London, and McMaster University, Hamilton.

Interclass is at

hart and Art Plummer, lead the Juniors all the way. The game was low scoring but carefully and smoothly played. It was the defensive mechanisms set up by both teams that caused this lack of markers in the scoring column. Felton and Martin proved to be almost insurmountable at times. If these boys worked together they would unquestionably be the best guard line in the league. The Sophies were up front of the 20-16 score. Scoring: Seniors: J. Baxter 4, G. Atyeo 12, Jacobson 6, Morgan, Bewick, Rideout 2, Dohaney, Crofoot, Scovill, Lipshetz, Haines 2. (26). Freshmen: Murchison 6, Kelcher 3, McIntyre 8, Podbere, Gagnon 4, Johnson 4, Duval, Gale 2, Schofield, (27). Sophomores: Cooke 2, Plummer 4, Lockhart 2, Alley 3, Buchanan, Barbour 4, Goldberg, Jones, Kestner 2, Hastings, Rutland. Juniors: Barnett 12, Fulton, McKinnley, Mellizer 2, Martin 2, Baird, Scovmand, Holme, Frander. Referees: Goldberg, Jacobson. Timer: Taylor.

Tells of Distress

(Continued From Page One)
"Fear is but one. There are many like him, but all are determined to go on. It is truly difficult to work when one is hungry and suffering from the cold. In spite of these difficult conditions, our students are full of enthusiasm for their studies and cooperation for their professors and their colleagues."

Weir Wins VanDine

aggregation. In Football he plays center-lock in the scrum or left forward. At either position he has plenty of that fight and drive that contributes to the making of good teams. Bob takes up boxing during the winter months but in this sport he doesn't show up, as well as in football or track. To the first winner of a VanDine Trophy we extend our congratulations. Nice going Bob.
