

therefor. My wife + myself are always anxious about your mother's condition. We sincerely hope and pray that our more that juvenile and cheerful mother of yours, <sup>be</sup> restored to you <sup>in her full</sup> <sup>health.</sup> The Canadian politics lately seems very active and lively, + I am observing that the time ~~will~~ may come any moment that you will be required to form a new cabinet, whether coalition or independent. My wife intends to visit Ottawa some time this summer. It seems too hard for her to stand any longer not to meet our old dear friends in the Canadian capital.

I wish I could also visit Ottawa but I am not certain if I could have time. Fred Cook, my old friend and a rival in Golfing, stopped in my office day before yesterday. It was quite surprise to me although it was very pleasant one, and I met also Mr. Samuel at Langens' Club on that day. It always gives me inexpressible pleasure when I meet here our Ottawa friends. Well, dear Mr. King, I will stop here. As matters are working in the West I hope  
With sincere regards to you + your  
ever beloved mother,  
I remain,  
Yours truly,  
W. L. Mackenzie King
