

3. Third Motion of Mr. Duff, H. of C. Debates, Jan. 30, 1935:

"Mr. Duff reintroduced his Motion of 1933 and 1934 but did not continue the discussion because of the Government's announcement that they were proceeding with negotiations and also in order to expedite the Government's social reform programs."

4. The Honourable Mr. Stewart's motion re reduction of duties on agricultural implements of production, February 13, 1935:

"That in the opinion of this House, the best interests of Canada demand that the burden of customs taxation be lessened on the instruments of production in the agricultural industry and to this end farm implements and machinery should be free from customs duties."

Mr. Rhodes moved the following amendment:

"In view of the negotiations now in progress between Canada and the United States with the object of effecting a trade agreement between the two countries, this House is of opinion that public discussion of the rates of duties on the instruments of production in the agricultural industry is untimely and inadvisable."
