THE COST OF LUBRICATION

Is The Cost of Lubricants Plus The Cost of The Friction Accompanying Their Use.

Friction is always at work, resisting motion, absorbing power, producing wear, even though it may not become excessive. To reduce friction to a minimum, Dixon's Flake Graphite is used, because it is the only successful lubricant that perfects the friction surfaces and actually prevents their contact. That is why the cost of friction is reduced when Dixon's Flake Graphite is used—That is why the cost of lubrication is reduced. Write for free sample No. C-33.

JOSEPH DIXON CRUCIBLE CO., Jersey City, N.J.

WEBSTER FEED-WATER HEATER, PURIFIER AND FILTER

Bulk is not everything. Even the builders who claim to make "the biggest Heater for the money" do not employ the doctor who gives the largest doses.

Webster Heaters will often do far more work than Heaters that fill far more space.

Compare efficiency, not size. Size is what you pay rent for.
