Made in Canada by **Canadian National Carbon Co., Limited, Toronto, Ontario**

Faltnstock convenient spring clip binding posts—no extra charge.

Puts the Seed Right at the Bottom of the Furrow!

Find the disc. There are many other points of excellence in the construction of the

In the 'LEADER' Disc Drill, the shields go well down to the bottom of the disc and deposit the seed right down in the furrow instead of simply dropping it anywhere be-

"Leader" Disc Drill

Disc castings of grey iron have to be made too heavy for the strength desired. Using malleable castings we get greater strength and durability without excessive weight. Discs run on chilled bearings, lubricated from dust-proof hard oil compression cups. Booklet free.

Sold by all John Deere Plow Co. Dealers.

Better Work Guaranteed

Fire-Proof

PEDLARIZE your Barns and Dwellings now. Pedlar's "George" and "Oshawa" Metal Shingles typify the highest development in metal roofing. A "Pedlarized" Roof is safe and inexpensive—proof against fire from lightning or sparks from the threshing engine.

Pedlar's "GEORGE" Shingle

It is 24 in. by 24 in., and it requires only 25 shingles to cover a roofer's square of 100 square ft. (10 ft. x 10 ft.). You can lay "George" Shingles yourself with the aid of a hammer, nails and a pair of snips. The nailing flange of each "George" Shingle has nail holes placed at regular intervals which act as a guide and make laying easy. The side lock is very tight-fitting, and when one shingle is nailed in place, the nailing flange is completely covered by the next shingle which effectually seals it against rain, snow or moisture. "George" Shingles interlock on all four sides, providing a roof that is practically one solid sheet of galvanized steel, fire-proof, weather-proof, wind-proof and rust-proof.

The "Oshawa" (16 in. x 20 in.) steel shingle, for dwellings and small buildings, is of the same high quality as the "George" Shingle, and has all its special features, excepting size.

MADE IN CANADA

Write To-day for Free Booklet, also get our quotations on Galvanized Corrugated Iron Siding or Roofing, Corro Crimp Roofing, Silo Covers, Culverts, Riveted and Nestable, Eaves Trough and Conductor Pipe, Finales and Ornaments, Metal Ceilings—in fact, anything and everything in metal products.
