

An Armco Roof is Lightning Proof

Armco (American Ingot) Iron is a wonderful conductor. An Armco Roof, with drain-pipes properly grounded, absolutely safeguards against lightning.

You can get an Armco roof in many styles — roll, corrugated, V-crimp, Standing Seam, shingle or terne plate, the highest grade roofing made.

Remember, an Armco Roof is the most durable roof, for

ARMCO IRON Resists Rust

as no ordinary sheet metal can, because it is not only the purest iron, but the most carefully made with respect to evenness and other qualities that are the basis of rust-resistance.

Iron Roofs that Resist Rust

shows and describes all styles of Armco Roofing. You can get Armco Roofing from your tinner or hardware dealer. But don't let that keep you from writing for our book. Let us send it to you now. Write today.

The trade mark ARMCO carries with it the assurance that iron bearing that mark is manufactured by The American Rolling Mill Company with the skill, intelligence and fidelity associated with its products, and hence can be depended upon to possess in the highest degree the merit claimed for it.

SEEING the Difference BETWEEN THE **DE LAVAL** AND OTHER Cream Separators

IT DOESN'T TAKE AN EXPERT knowledge of mechanics or a long working test to tell the difference between the De Laval and other cream separators.

ON THE CONTRARY, WITH A 1915 De Laval machine placed beside any other separator the difference is apparent at first sight to the man who never saw a separator before.

IF HE WILL THEN TAKE FIVE minutes to compare the separating bowl construction: the size, material and finish of the working parts, particularly those subject to wear and requiring to be occasionally taken apart and put together; the manner of oiling, and everything which enters into the design and construction of a separator as a simple, durable machine, he will still further see the difference.

IF HE WILL GO A STEP farther and turn the cranks of the two machines side by side for half an hour, particularly running milk or water through the bowl, he will see still more difference.

AND IF HE WILL TAKE THE two machines home, as every De Laval agent will be glad to have him do, and run them side by side in practical use, the De Laval one day and the other machine the next, for a couple of weeks he will see still greater difference in everything that enters into cream separator practicability and usefulness.

THE MAN WHO TAKES EVEN the first step indicated in seeing for himself the difference between the De Laval and other cream separators doesn't put his money into any other machine one time in a thousand.

THE COMPARATIVELY FEW buyers of other separators are those who merely read printed matter claims or listen to the argument of some dealer working for a commission, and who do not think it worth while to see the difference for themselves.

THE WISE BUYER OF A cream separator to-day does see this difference when buying his first separator, while the unwise or careless one usually finds it worth while to do so when he comes to buy a second cream separator a year or two later.

EVERY DE LAVAL AGENT considers it a privilege to show the difference between the De Laval and other separators, and to afford every prospective buyer the opportunity to try out and prove the difference to his own satisfaction, if on first examination he feels the slightest doubt about it.

THAT'S THE REASON WHY FOUR buyers out of five are buying De Laval Cream Separators in 1915, and why the use of De Laval machines will, before long, be nearly as universal on the farm as already is the creamery and milk plant use of power or factory separators.

DE LAVAL DAIRY SUPPLY CO., LTD.

LARGEST MANUFACTURERS OF DAIRY SUPPLIES IN CANADA.
Sole distributors in Canada of the famous De Laval Cream Separators and Alpha Gas Engines. Manufacturers of Ideal Green Feed Silos. Catalogues of any of our lines mailed upon request. 50,000 BRANCHES AND LOCAL AGENCIES THE WORLD OVER.

Pure Copper Lightning Rod Company

— HAMILTON, ONTARIO —

MANUFACTURERS AND DEALERS IN

**High-grade Pure Copper Strand Lightning Rod Cables,
Copper Tubes for Uprights, Galvanized Standards,
Copper Cone Points Nickelled, Ornamental Balls,
Copper Straps, Malleable Galvanized Dispersers, Ornamental Vanes.**

Our cable is a woven strand cable of 36 pure copper wires, 1,000 feet on a solid wooden spool, doing away with all waste ends and faulty connections. Government Bulletin 220 from the Department of Agriculture, Toronto, Ont., will give you full information on the heavy losses by lightning, and showing what the Government thinks of lightning rods as practically absolute protection.

Our cable being pure copper and weighing over three oz. to the foot passes Government regulations.

Our dealers and their erectors are experienced men on installing rods, and by specifying our Company's cable it insures absolute pure copper cable and the proper installation of the rods.
