There is more or less work

Every furnace demands *some* attention. But there is no reason why the twice-a-day job should be anything but pleasant. And to save a *little* time and a little bother every day means a lot in the course of the winter.

The Sunshine is a furnace any one can look after without spoiling either clothes or temper

The door is large enough for the biggest coal shovel. The grates are strong and turn easily. The ash-pan catches *all the ashes* without the need of shovelling. The water-pan is located so that it can be *filled quickly*.

Ash-dust cannot escape when the Sunshine is

being shaken down. None of that light dust floats about the house or the basement.

The damper and the check draft can be regulated from upstairs—and perfectly too. The close-fitting doors and dampers hold the fire for hours without waste.
