Royal Purple Stock and Poultry Specifics and Foods

FREE—To any farmer, stock or poultry raiser our new booklet, which tells how to balance rations for stock and poultry. Deals with the common diseases of stock and poultry, their symptoms and treatment. Tells how to build poultry houses, how to raise calves without milk.

The Great Animal Conditioner and Fattener

An Egg Producer and Poultry Conditioner

Animals are just like human beings. If you give them more strong feeds than they can possibly digest they become stall-fed or bilious, and require a tonic or a digester to make their digestive organs active, to take the proper amount of the nourishment of the food you give them, otherwise they waste a large quantity of it. Our ROYAL PURPLE STOCK SPECIFIC is made up of roots, barks and minerals which act as an invigorator. It is a pure condition powder, and we do not use any cheap filler to make a large package. It will make your animals take out all the good in the material you feed, whereas, under ordinary conditions, 50 to 65% is all they take out of the food. It is not a "dope". It can be used constantly in feeding your animals without doing them any harm, and must do good.

After moulting, hens are very slow to commence laying. The time you want eggs is when they are a high price, and the reason the price is high is the small supply. Hens usually commence laying about ten days after you commence using our ROYAL PURPLE POULTRY SPECIFIC. All healthy hens usually have a supply of eggs in process of development. From the small beginning, like a pin-head to the large egg, almost fully developed, and yet the process of laying will not commence because the hen physically is not in condition to carry on the laying process. Our Royal Purple Poultry Specific works on their digestion, makes nature act as it should, and very often hens will commence laying in three to five days if they are being properly fed.

In changing from grass feeds to hard winter feeds, animals invariably go back, as the grains, hay, etc., given them, upset their digestion. This trouble can be entirely overcome by using this Stock Specific.

More Eggs When Prices are High
This ROYAL PURPLE POULTRY SPECIFIC is something that should be fed to them constantly during the winter months, and the cost is insignificant. A sixty-cent package will last twenty-five hens seventy days. A \$1.75 tin will last 100 hens seventy days. It will pay for itself many times over in results.

Gentlemen—After experimenting with a great many stock foods, I was about convinced that there was very little virtue in any of it, but your dealer insisted on me trying "Royal Purple" Stock Specific, saying it was different from all others. I have since used a great lot of it, as I keep from ten to twenty horses and about the same of cattle. This Specific, in my opinion, is certainly in a class by itself as a conditioner, and is the best I have ever used.
GEORGE MAPES.

It is Put up in 30c. and 60c. Packages, \$1.75 and \$6.00 Tins.

Dear Sirs.—We have been using "Royal Purple" calf meal for some time. We tested it on one of our November calves, and that calf is as large as our yearling heifers. I cannot recommend your Calf Meal too highly.
Yours truly,
DOUGLAS MCLEOD,
Box 149, Prince Albert, Sask.

Veal Your Calves Without Milk

The W. A. Jenkins Mfg. Co., Ltd., London, Ont.
Gentlemen.—I have been using your Royal Purple Calf Meal for some time, and find it gives excellent results. Will you kindly forward me one of your books free, as per enclosed and oblige.
Yours truly,
JAS. GARBUE,

ROYAL PURPLE CALF MEAL has become a standard feed throughout Canada for raising calves without milk. After a calf is born and has been given the mother's milk for five days, it can be taken away and can be raised entirely on this meal without using any milk if necessary at a cost of not more than 30% the price of new milk.

W. A. Jenkins Mfg. Co., Ltd., London, Ont.
Gentlemen.—Will you kindly send me your booklet on stock and poultry? I am a constant user of your Royal Purple Specific, and wouldn't be without it.
Yours truly,
L. R. HESS,
Waterloo, Ont., Feb. 18, 1918.

We will be glad to send you a printed sheet showing the value of this meal and that of other meals on the Canadian market during this past year, taken from Bulletin No. 388, published by our Dominion Government. It is simply a waste of money to use new milk for calves where you can obtain this meal.
