NOTHERN PACIFIC RAILROAD. - Mr. W. Milner Roberts, Chief Engineer of the North- of this Connexional year to extend the circulaern Pacific Railroad, in a letter dated February 27, 1873, makes the following statement: On the finished line across Minnesota, from Duluth to Fargo, the road has been run all winter with remarkable regularity and freedom from snow difficulties. There has been less from snow difficulties. There has been less necessary delay on the Northern Pacific Road this winter than on the roads east of it to Chicago and New York. Considerable snow has tallen in eastern Minnesota this winter, but there has not been an unusual amount in thy western part of the State and across Dakota. The occasional snow tences opposite the excavations have served their purpose well In common with the rest of the country and with Europe, Minnesota, Wisconsin, and the entire Northwest have had a most unusua winter season. There have been some days of very severe wheather, but it was quite as cold about the same period to most of the

Eastern States. On the western slope of the Rocky Moun tains in Eastern Washington Territory, the local papers state that the farmers of Walla Walla Valley were ploughing their fields or the 26th of January, though the early part of winter had been, as elsewhere, unusually colfor the region.

The winter climate along the Pacific Division of our road, between the the Columbia River and Puget Sound, which is in regular daily on, maybe inferred from the fact that at ortland Oregon, the average temperature for January was 45 degrees above zero; the highest was 53 degrees, and the lowest 34 degrees above. FOR EVER: an Essay on Eternal Punishment. By the Rev. Marshall Randles.

'The speedy call for a second edition of this valuable work is a most encouraging event. It is quite refreshing that among the heaps of light and trashy productions of the present age, a book like this can make its way to the front, and secure thoughtful attention. We have nothing to retract of our former testimony to its worth. Indeed, it is rendered far more valuable by the Additional matter introduced, and especially by the Appendix, which deals vigorously and successfully with Mr. Gillespie's arguments in favor of 'Destructionism.' We offer our hearty thanks and congratulations to Mr. Randles.'

Messes. R. C. Margeson & Co.— MESSRS. R. C. MARGESON & Co.—

Dear Sirs—Plesse accept this testimony from one who has been suffering for upwards of five years from Gravel and Stone in the Bladder, and was advised by my friends to try your "Calculifuge." I did so, and am happy to-say that after using two bottles last summer, it entirely cured me. I passed five stones the size of small peas, and upwards of a wine glass full of smaller ones and gravel, and will send them to you by the first chance, and would say to all that is suffering with the same complains,—

"secure your valuable medicine at once," as it has been the sole means of curing me.

And I take great pleasure in giving all the information I can to all that will call to see me.

I remain, yours truly.

Messes. R. C. Margeson & Co.—Dear Sirs,—A friend of mine having advised me, about four months ago, to try your Calcula/ince for the Gravel, from which cisease I had suffered for upwards of three years, I did so, obtaining it at Messes. Avery and Brown's and after taking it three days I felt myself much relieved. I could scarcely credit the change in my feelings. I continued to use the contents of the Bottle, and on finishing it found myself cured.

Therefore I believe it to be my duty, on account of the inestimable blessing conferred on me, to render you this testimonial entirely unsolicited, in order that any fellow-sufferer may be put in the way of obtaining immediate relief from one of the most distressing complaints to which man is subject.

I remain, your humble servt.
