

LOSS BY FLOOD WILL REACH MILLIONS

Five Dead in New Orleans

TOURISTS SUFFER
Fear Expressed That Many Lives Have Been Lost

Central last night in Mississippi and sweeping north at the rate of 200 miles a day, the hurricane which devastated the Gulf coast and left a trail of wreckage and ruin through four states continues on its course with unabated fury.

Of the ruin that it has wrought no one can give estimate. In New Orleans alone five are known to be dead and a million dollars will not repair the damage done to the city. It is said that plate glass alone will cost \$100,000 to replace.

From the little aristocratic summer colonies on the Louisiana and Mississippi Gulf coast came vague tales of devastation and fear that many lives have been lost. The wealthy summer tourists who own pleasure craft are wont to spend much of the time upon them and it is possible that many have been lost. Beloit, the Mecca of the wealthy, is still isolated and its fate unknown. Jackson, Miss., the capital of the state, is still cut off from the coast points. The dome of the new capitol there was wrecked and the old capitol unroofed. The streets were a tangle of live wires and the fallen trees and debris made the highways impassable.

At Vicksburg two vessels were sunk and a third was driven ashore. Their passengers were rescued. One vessel lies across the channel and has blocked navigation. The property damage in Mobile and vicinity will not be large. Some loss of life is reported in the vicinity of Chef Menteur, La.

WAITING FOR THE END OF THE WORLD TO COME

PROVIDENCE, R.I., Sept. 22.—True to their belief that a great upheaval is about to occur whereby the top crust of the earth will peel off, carrying the wicked to destruction and leaving the "elect" in undisputed possession of the world, several Rhode Island families belonging to the sect known as the Latter Rain of the Apostle Church have gone to Duxbury Mass., an appointed place to await for the cataclysm. The time set for the triumph of the faithful is Friday next at 10 a.m. Leaders of the sect from Rhode Island and elsewhere are now at Duxbury, and it is said that many of them have disposed of all their worldly goods.

NORTH SHORE WEDDING

NEW CASTLE, N. B., Sept. 21.—The marriage of Rowland Waldo Crocker and Miss Helen May Sinclair, daughter of the late Walter W. Elliot, was solemnized tonight at 8.30 o'clock. Rev. Dr. Cousins performed the ceremony at the bride's home. The couple were unattended. The bride was escorted by her brother-in-law, John Robinson, Jr. The marriage took place under a bell of white chrysanthemums. The bride was dressed in white, with a Messaline satin trimmed with hand-embroidered net silk trim and train. She carried a bouquet of bride's roses, sweet peas and maiden hair fern. The bride's niece, little Rita Atkinson dressed in white silk, trimmed with insertion and lace, carried a basket of sweet peas. Owing to recent deaths in both families, the wedding was quiet. The couple left on the Maritime express for a honeymoon in "Tropic Canada." The bride's going-away dress was of wisteria serge. Among the gifts were cheques from nearest relatives.

THE DOCTOR'S WIFE

Agrees With Him About Food

A trained nurse says: "In the practice of my profession I have found so many points in favor of Grape-Nuts food that I unhesitatingly recommend it to all my patients."

"It is delicate and pleasing to the palate (an essential in food for the sick) and can be adapted to all ages, being softened with milk or cream for babies or the aged when deficiency of teeth renders mastication impossible. For fever patients or those on liquid diet I find Grape-Nuts and albumen water very nourishing and refreshing."

"This recipe is my own idea and is made as follows: Soak a teaspoonful of Grape-Nuts in a glass of water for an hour, strain and serve with the beaten white of an egg and a spoonful of fruit juice for flavoring. This affords a great deal of nourishment that even the weakest can assimilate without any distress."

"My husband is a physician and he uses Grape-Nuts himself and orders it many times for his patients."

"Personally I regard a dish of Grape-Nuts with fresh or stewed fruit as the ideal breakfast for anyone—well or sick."

In any case of stomach trouble, nervous prostration or brain fog, a 10 day trial of Grape-Nuts will work wonders toward nourishing and rebuilding and in this way ending the trouble.

"There's a Reason," and trial proves. Look in papers for the famous little book, "The Road to Well-being."

Never read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

LONDON NEWS AND GOSSIP BY LETTER

Authors' Earnings
Lead to Ruin

TIPS RUIN TAILORS

Aviation Craze is Succeeded
by Eskimo Craze

LONDON, Sept. 10.—The case of Stephen Phillips, the poet and playwright, who is in very straitened circumstances has opened the question as to whether English writers can, on the whole, be called successful financially. Mr. Phillips has had many plays produced in England and America, yet he is now in actual poverty, which he attributes to the failure of his last two plays, "The Lost Hero" and "Faust," both of which were failures in London.

The very recent death of John Davidson because he was tired of struggling to make a living from his poetry; the death of Francis Thompson, also without means; the case of Matthew Arnold, who left all his years of such things, after but \$5,000; the case of Charles Godfrey Leland, author of "Hans Breitman's Ballads," whose estate was valued at about \$20,000, but the case of Lord Penrhyn, who left nearly \$300,000, and of Robert Browning, who left some \$60,000.

As to authors of successful books, many have amassed considerable fortunes. Henry Seton Merriman, Edna Lyall, John Oliver Hobbes, Mrs. J. Estlin, Lucy Bishop and George Meredith, all left estates of value; but Florence Murray, Mary Kingsley and even Louis Carroll left such small sums as \$7,355, \$17,055 and \$18,000.

Publishers in many cases left very large fortunes, the chief among them being G. Smith of Smith, Elder and Co., \$3,800,000; Thomas Nelson of T. Nelson and Sons, \$3,154,235; George William Pettit of Cassell, Petter and Galpin, \$2,602,805; Alexander Macmillan of Macmillan and Co., \$386,055; Adam Black of A. and C. Black, \$436,305; George Lock of Ward, Lock, & Co., \$595,000.

London tailors have been appearing in the bankruptcy court lately with great frequency, and in reply to some questions, they have said that they have told very fully the story of their difficulties. They declare that not one tailor in a hundred in London makes a comfortable living, because the more fashionable customers are the more difficult it is to get them to pay for their clothes. They say that there are many well-known men about town who stoop to any expedient to avoid settling their tailors' accounts.

Their case is a sad one, much of their profit is swallowed up in secret commissions. Valets must be well paid for recommendations, for it is every easy for them to secure the masters that they can do better service elsewhere. The tailor who supplies these liveries at a comfortable price, but a regular income to keep the patronage of the household.

So the tailor considers himself an aggrieved and long-suffering person. He rarely brings a suit of any kind against his recent customers, for he knows that the big houses have large numbers of liveried servants and the tailor who supplies these liveries at a comfortable price, but a regular income to keep the patronage of the household.

The aviation craze in London and in Paris has been succeeded by the Eskimo craze. Last week there was a moral certainty that blouses with large, in fact, larger than ever before. Milliners were drawing inspiration from the wings of the aeroplanes, and the aero hair form, a feature of winter headgear. Now comes all the North Pole excitement, and who can blame them?

The very latest of everything, Eskimo. There are Eskimo caps and Eskimo gloves and before long shop windows will have goods labeled, "Arctic Eskimo coats," etc. At one hotel the day after the news of Peary's achievement arrived an Eskimo luncheon was served. The menu was as follows:

Hors d'oeuvres.
Omelette de penguin à l'Eskimo.
Poulette de casserole Nubif.
Cuisson d'ourin à la Nansen.
Haricots sautés. Pommes croquantes.
Grouse à la polaire.
Salade Alaska.
Coke's mer de glace.
Fruits du nord.

The great shipyard at Wornwood, Scunthorpe, is now completed and ready for the reception of the Clement-Bayard II, which Mr. Clement is to sail from Paris to London to be tested by the British military authorities with a view to its possible purchase by the British government.

The shipyard is now rapidly approaching completion and it is hoped that it will be ready to make its first trial in the neighborhood of Paris about the middle of October. Mr. Clement's ambition is that his new ship shall, if possible, complete the 380 miles between Paris and London in a non-stop run of ten hours.

It is expected that the Clement-Bayard will be ready to undertake its flight to London before the end of October, and may thus arrive in the English capital well in time to be carried out on evolutions above the houses of parliament. Mr. Clement and Mr. Du Cros, M. P., chairman of the par-

GOV. JOHNSON SUGGUMBS TO ILLNESS

Makes Brave Fight
to Last

THRICE GOVERNOR

Might Have Been Democratic
President in 1912

ROCHESTER, Minn., Sept. 21.—Governor Johnson, three times elected Governor of Minnesota, a candidate for the Democratic nomination for President in 1908, and looked upon by many throughout the country as a probable Democratic standard bearer in 1912, died at St. Mary's Hospital at 3.55 o'clock this morning following an operation last Wednesday. Governor Johnson's life hung continually in the balance until the end. So frequently

the executive of the St. John association for the Prevention of Tuberculosis at its regular meeting in the Board of Health rooms yesterday afternoon decided to have Dr. Porter of Toronto lecturer for the Canadian Association, lecture in St. John during the first week in October. The exact date on which the lecture will be given and the building in which it will be given have not yet been decided upon, but will be at an early date.

The executive also decided to issue a circular which will be distributed among the citizens of St. John for the purpose of making them acquainted with the aims of the association and inviting co-operation. It will be pointed out that the association is a popular body and not an exclusively medical society. Attention will be called to the fact that the association, when it becomes sufficiently wealthy, to maintain a district nurse and finally to establish a dispensary.

At the present time the association is represented at yesterday's meeting were: Dr. Daniel, chairman; Dr. Melvin, secretary; Miss Grace Lavitt, Dr. McLean, Thos. Gorman, Dr. Skinner, Dr. Kearney and Dr. McAvaney.

RE. DR. SHEARER URGES CLOSER CONTACT IN

QUERBEC, Sept. 21.—The delegates of the Labor Congress met right down to work this morning at the various standing committees for the convention. Much interest was evinced in the reading of the report of Mr. R. Trotter, British agent with regard to misrepresentation in Great Britain. Mr. Trotter quoted statistics showing the great condition of the island, migration, and said that the work and efforts of the Dominion Congress were misconstrued in the British press.

At the termination of Dr. Trotter's report the Rev. Dr. Shearer, secretary of the Social and Moral Reform Association of Canada, was called upon to speak. He congratulated the delegates on having in their midst a minister of labor, and in the course of his speech emphasized the fact that there should be a closer connection between labor organizations and the church.

Dr. W. J. Mayo stated that there were no traces of blood poisoning and that the immediate cause of death was exhaustion and heart failure.

Dr. Charles H. Mayo, coming from the Governor's room at 1.30 o'clock yesterday afternoon, said that the patient's wonderful resistance indicated an almost total absence from disease in any form. "His vitality is almost that of a child," said the doctor, "and this has been the greatest factor in prolonging his existence."

When the Governor had breathed his last Mrs. Johnson, who had been in almost hourly attendance, and who bravely under the ordeal, totally collapsed and was taken to the Sullivan home.

Governor Johnson was in a lethargic state during the greater part of the night but occasionally was aroused, especially after coughing, and would murmur a few words to Mrs. Johnson. At times he seemed to wish to see her, and on one occasion he said: "My dear, I am so uncomfortable."

The Governor lapsed into unconsciousness at one o'clock. Toward the end he revived and raised himself several times to pat his wife on the cheek. His last words were: "Well, Nora, I am going," we have made a brave fight."

Before Chief Justice Macdonald of the council chamber of the Town Hall, Amherst. Among those present were Hon. H. R. Emerson, Dorchester; W. C. Milner, Halifax; H. J. Logan, Exeter, N. S.

Rev. Dr. D. A. Steele was called to the chair and asked Mr. Milner to state to those present the object of the meeting. Mr. Milner said the object of the meeting was to preserve the history of the province and to preserve the records, manuscripts and relics of the past as well as to prevent the loss of the history of the province.

On Friday evening last a meeting of the council chamber of the Town Hall, Amherst. Among those present were Hon. H. R. Emerson, Dorchester; W. C. Milner, Halifax; H. J. Logan, Exeter, N. S.

CREATING THE GREAT WHITE PLAQUE

THE EXECUTIVE OF THE ST. JOHN ASSOCIATION FOR THE PREVENTION OF TUBERCULOSIS AT ITS REGULAR MEETING IN THE BOARD OF HEALTH ROOMS YESTERDAY AFTERNOON DECIDED TO HAVE DR. PORTER OF TORONTO LECTURE FOR THE CANADIAN ASSOCIATION, LECTURE IN ST. JOHN DURING THE FIRST WEEK IN OCTOBER.

The exact date on which the lecture will be given and the building in which it will be given have not yet been decided upon, but will be at an early date.

The executive also decided to issue a circular which will be distributed among the citizens of St. John for the purpose of making them acquainted with the aims of the association and inviting co-operation. BIG GAME IN SPAIN TO RENEW NEIGHBORHOOD OF MOCTON

Remarkable Luck of
Railway Men

UNEXPECTED HAUL

Moose, Deer and Partridges
All in One
Day

MOCTON, Sept. 21.—It has been said that some of the best hunting districts of New Brunswick are those not the most widely advertised. The possibility of the Miramichi woods are well known because many noted hunters of big game have visited there, and because the guides who pilot non-resident sportsmen into the haunts of moose, caribou and deer are enterprising fellows who have assisted the Tourist Associations and the International Railway in giving wide publicity to the excellence of the hunting.

The attractions of the forests of Northern New Brunswick are widely advertised in the haunts of the Tourist Associations and the International Railway in giving wide publicity to the excellence of the hunting. The attractions of the forests of Northern New Brunswick are widely advertised in the haunts of the Tourist Associations and the International Railway in giving wide publicity to the excellence of the hunting.

The story of two inexperienced hunters going into the woods at Coal Branch station, only twenty-seven miles from Moncton, in the Northern Division, and in a few hours securing a moose and a deer, besides some partridges, reads almost like fiction, but such was the experience of two hunters who went to Coal Branch for a day's hunting. They were not out for big game particularly, in fact had so little thought of moose that they were by no means equipped, except that besides a rifle gun Mr. Parham had also taken a shot gun and had taken the precaution of carrying a reserver and game bag in his pocket. Striking into the woods from Coal Branch station, they followed a trail a few miles in search of partridges. It was early in the afternoon when they heard the crashing of branches that announced the presence of a moose not far away. Hastily taking cover they waited cautiously and their patience was rewarded when a fine bull emerged from the brush onto a small clearing. Almost immediately the animal caught the scent of danger and turned in their direction to sniff the air. As he did so Mr. Parham fired and the animal fell. Mr. Parham then staggered, dropped on his knees and then rose again, but receiving another bullet through the body he fell to the earth and lay dying. His struggles soon ceased, and leaving Mr. Parham on guard, Mr. Myers hastened back to Coal Branch for assistance to get out the carcass. While waiting for the return of his friend with a team, Mr. Parham got a shot at a fine bull deer that happened to wander within range and was successful in bringing it down also. "It was the first experience of these hunters at big game, and their luck is considered phenomenal. But it proves clearly that in parts of New Brunswick not widely advertised the game is plentiful. In fact it demonstrates clearly that this province is the greatest big game district in the world."

There were eight starters in the three-year-old class, which was won by Orville Bell, owned by John Trotter, of the St. John's. The other runners were: H. J. Logan, second; H. J. Logan, third; H. J. Logan, fourth; H. J. Logan, fifth; H. J. Logan, sixth; H. J. Logan, seventh; H. J. Logan, eighth; H. J. Logan, ninth; H. J. Logan, tenth; H. J. Logan, eleventh; H. J. Logan, twelfth; H. J. Logan, thirteenth; H. J. Logan, fourteenth; H. J. Logan, fifteenth; H. J. Logan, sixteenth; H. J. Logan, seventeenth; H. J. Logan, eighteenth; H. J. Logan, nineteenth; H. J. Logan, twentieth; H. J. Logan, twenty-first; H. J. Logan, twenty-second; H. J. Logan, twenty-third; H. J. Logan, twenty-fourth; H. J. Logan, twenty-fifth; H. J. Logan, twenty-sixth; H. J. Logan, twenty-seventh; H. J. Logan, twenty-eighth; H. J. Logan, twenty-ninth; H. J. Logan, thirtieth; H. J. Logan, thirty-first; H. J. Logan, thirty-second; H. J. Logan, thirty-third; H. J. Logan, thirty-fourth; H. J. Logan, thirty-fifth; H. J. Logan, thirty-sixth; H. J. Logan, thirty-seventh; H. J. Logan, thirty-eighth; H. J. Logan, thirty-ninth; H. J. Logan, fortieth; H. J. Logan, forty-first; H. J. Logan, forty-second; H. J. Logan, forty-third; H. J. Logan, forty-fourth; H. J. Logan, forty-fifth; H. J. Logan, forty-sixth; H. J. Logan, forty-seventh; H. J. Logan, forty-eighth; H. J.
