Rditorial concluded from Page 4.) FAVOR AN ABLE MAN.

The Independent Government meeting last night was characterized by harmony, good feeling and intense enthus-The dominant sentiment expressed was in favor of the election of an able man who would represent the riding in such a manner that interests would receive that meed of consideration which its importance justifies. and at the same 'time would be a credit to his constituents. It was suggested that the next few years would be momentuous ones in the history of this riding and therefore it is all important that it be ably and properly represented in the provincial legislature. It is felt that the responsible office of M. P. P. should not be handed over to the keeping of a dullard or a second class man, who would only misrepresent the people and the district.

increase reciprocal trade among them;

tions of mutual interest could be

HE WOULD BE WELCOMED.

Another feature of the meeting was that the government came in for a large share of praise for the very generous able to profit from their metallurgical manner in which it has behaved toward this section in the way of appropriations for schools, trails and roads, and court facilities. It was alleged by the several speakers that the government could not have been just to the other sections of British Columbia by being more generous to this riding than it has. It was no hap hazard generosity or giving without influential a body as this, would go a reason. The needs of the riding were long way toward inducing congress to first carefully inquired into and when it abrogate or lessen the duty on this was ascertained just what was wanted it metal. In addition to this, other queswas given and with a free hand.

The government was also praised for its wise legislation in regard to the mines, and its vigilance in looking after the interests of the working miners, as ex-

It was, therefore, felt that it would never do to turn out such a government and turn public affairs over to the control of so inefficient and weak a lot of men as make up the Opposition. The presence of so large a throng of representative men from all classes and the harmony and earnestness of purpose which characterized the entire proceedings, reveals that Rossland is one of the Independent Government party's strongholds.

The attempt of certain of the Oppositionists to make capital out of the manner in which the executive committee selected the delegates to the nominating convention proved abortive, for the meeting indorsed the selection without a dissenting voice. The Opposition Cæsarian policy of dividing and conquering will not prevail where the Independent Government party is so united as it Judging from the perfect unanimity of sentiment and the spirit of harmony that prevails among the Independent Government supporters here, it is evident that their candidate will have a walkover.

occurred that there is something more Osceola at \$52.50. than lip service in the friendly relations | These seems to be extraordinary values between the United States and Great for the shares of mines. Just think of Britain and her dependencies. It is a stock of selling for twenty-three times its change for the better that is certain to par value and yet the Calumet & Hecla be fruitful of good results to both na- pays 81/2 per cent dividends on this enormous valuation.

These facts show that giltedge copper propositions are even better than gold mines so far as dividends are concerned. and mines are not run to for the simple eason that they give employment to large bodies of men, but rather that they may dividends to their stockholders.

It is evident, therefore, that one of the easons why there has been an advance in the price of local shares is because the mines here produces copper as well as

That is the end and aim of their exis-

In this connection it will be interestng to note the effect that will follow the development of the large copper area of Rossland. It is claimed, and the surface indications and development work so far carries out the assertion, that this will be among the phenomenal copper producing sections of the world. If this be true it will not be long before the copper shares of this section will, perhaps, be quoted as high as some of those above mentioned, and some stocks will be selling for one or two score times their par value.

EDITORIAL NOTES

IF MARTIN is unable to enlist the sympathies of the electors before his rival nominated, how can he expect to do so

So FAR as can be ascertained Mr Martin's chief henchman, Clabon, has no intention of changing his name to Rubber, Chairman Houghton of Trail to the contrary notwithstanding.

If the Independent Government men of Rossland wish to preserve there reputation as good fellows they should lose no time in hiring a hall for Jim Martin. Help him out a little. Besides, look at and to buy, sell, and deal in the same: the fun you would have.
