Oldest Town in the World Falls to Allenby's

Forces.

BIBLICAL MEMORIES

bron After Expulsion From Eden.

London, Dec. 7.—General E. H. stine, the British War Office officially announces to-night.

Ancient Hebron, to-day called by the Arabian name El Khulil, is sit-uated about 20 miles south-west of ish forces are nearer to Jerusalem on the west and the north-west, the taking of Hebron is of interest because tradition identifies it as the site of the tombs of Abraham and other patriarchs. It is a hill of shining white houses banked about a noble mosque, all set between hills rich with olive, fig and pome-

ers alike do reverence.
One of the oldest towns in the world, Hebron, in the days of Jose-phus, was believed to have existed for 2,200 years. According to legends of the Jewish and Samaritan writers, the "field of Damascus," near the town, is that stretch of red earth from a handful of which God

Where Adam and Eve Hid.

To The Editor of The Courier

To the Editor Take One To the Brantford Courier: Brantford, Dec. 6, 1917.

Dear Sir,—By resolution of the board of works, I was supplied with a copy of the evidence of the investigation committee, and when reading them over one can hardly blame any alderman for voting for the report of the committee, but are the state-ments made true? No! It is very easy for a man to make a statement Adam and Eye Hid at Hebut not quite so easy to prove them.
I am not at this time going into this at any great length, but just to point out that I have in my possession one sworn statement of a man being approached by Mr. Unger to come to the committee and give evidence Allenby reports that he has occu- that was not true, and also told him pied the town of Hebron, in Pale-what he wanted him to tell. I also have a sworn statement that part of the evidence given by Mr. George Hand, of the fire hall, is false, and who a few days after the report of the committee made application for my position. I have another sworn Jerusalem, with approximately 15,-000 inhabitants. Although the Brit-my first year with the city Mr. Unmy first year with the city, Mr. Unger approached a teamster that I had just hired, and along with other stuff told him to keen his mouth shut and not let me know anything. I believe I would call this a

How could Ald. Jennings believe it to be a true report at this stage. It was only right for Ald. Tullock to granate trees. In the mosque is the reputed tomb of Abraham, Isaac and Jacob, to which the 20,000 Mussulmans and the 2,000 foreignhe wanted me to and recommended a truck, he might not have raised the

frame-up.

Ald. Kelly claims I had a fair hearing with what I have already stated, and if the alderman will go over the questions asked me by that committee, then see how much the evidence there is left, I think they will have a different opinion. Ald. Symons' statement in regards to There is a grotto pointed out as having a letter from Mr. Ward is the place where Adam and Eve hid correct. I also have one from Mr. after their expulsion from Paradise—the spot where they mourned for Abel, murdered by Cain. The Mussulmans even mark the place, three miles to the south-east, where the murder occurred, and have a tomb which they believe to be Cain's.

It was at the tomb of Abraham and his wife. Sara, that the double cave his wife. Sare, that the double cave the barn all day, while three teams had its first use, so says the Old Tes-were hired in the morning, also one tament account in the 23rd chapter extra team for three hours, and one with 19,293 Imp. gals. less, which of Genesis. For 400 shekels of silver team on in the afternoon, costing means a difference of \$1,765.30; althought the cave and the city \$13.80 that day, and the city so \$10.68 less for labor for unloading the field from Enbron when Sara of Genesis. For 400 shekels of silver the patriarch bought the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,65.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and the field from Ephron, when Sara difference of \$1,765.30; although the cave and distributing the oil. The oil and distributing the oil. The oil and distributing the oil. The oil was not being and distributing the oil. The oil was not being and distributing the oil. sary to have more help it was done by livery teams, which cost the city in the year 1914 \$842.27. At the beginning of the year 1915 when I was appointed superintendent, I took over another horse owned by the city, and made a team on the same dray, which team under order system has looked after the work of this department with the excepion of five days' work for one team n the past three years.

Sewer Department
In the city there are about 66 miles of sanitary and storm sewers with 354 flush tanks, which are attached at the end of all the branch sewers. There are over 6,000 house connections in the city, which give trouble, often caused by roots of trees, but mostly from hoppers. The storm sewers give trouble, especially where the streets are not paved, there being so much sand washed streets have been oiled. The oil helps

The sewer department has in the last year had a check system of all tools and materials, coming in and going out, by voucher. This was ooked after by the man who had charge of the yard and stables. When the street oiling is being done, the name of streets and width oiled by each car is kept separate. So any fair-minded person can see that it would take all of one man's time to look after the sewer system, street oiling and flushing, teaming supplies and tools for the different work and the everyday unforseens properly cared for without any serious complaints made in the nast firee years. ly cared for without any serious com-plaints made in the past three years. There are wrong stories circulating in the city about me building one or two houses since I worked for the city; that is false, as I have not built as much as a dog kennel on my premises or any other premises, or done any work of that nature since I have been employed by the city, so I warn those who like to talk about Sutch to be sure of their statements

Sutch to be sure of their statements before they speak.

I consider I have been gagged from having a proper hearing in this matter, but if the ratepayers of Ward Four will send me to represent them next year, I will have a say without being gagged.

WIDE SPACE SLATE SURFACED ASPHALT SHINGLES

For Fine Residences and Public Buildings

Attractively Unique—A good heavy shadow—Real Character in its appearance a different appearance from every angle.

The method of laying any shingles of flexible material wide apart is fully covered by Canadian patent No. 166,571, dated Dec. 14, 1915.

AS TO PRACTIBILITY-"They have been in service, actual service on roofs, for four or five years and have been proven out."

APPEARANCE—Is similar to a tile roof. The lines are clear cut and can be distinguished as far as you can see the roof. The flat appearance usually in evidence is conspicuous by its absence. Architects strongly favor this method.

BLOW UP? Never, because the action of the sun settles each shingle down into the space underneath, forming reverse curves, which be-come stronger as the shingles harden. It is contrary to nature for the shingles to raise up against these curves.

QUALITY? The best that can be made. Full standard weight. Natural Color Crushed Slate— Unfading—Red or Green.

FIRE RESISTING? Absolutely so far as ignition from adjoining building is concerned, and they will blanket a fire from the inside. COST LESS—"With all these wonderful advantages, instead of costing more, Wide Space Shingles actually cost less both in first cost and in cost of application."

Having secured the right to mnufacture Asphalt Shingles to be laid widely spaced by the above patented method, we are now prepared to furnish them on demand. An actual roof of them can be
