GROUPING ALLOWED

Claims May Be Worked in Partnership

Joe Barrette May Represent 165 Claims at Once—Late Order in Council.

In the mail which arrived yesterday was received a new order in council by which a tremendous saving in the development and representation of a large group of claims on Barlow creek owned by Joe Barrette will be effected. Heretofore, claims could be grouped for purposes of representation only in blocks of ten, but by the new order Mr. Barrette is given permission to group them all and do the necessary work upon any one or more of the claims. He and his associates own 165 claims on Barlow creek, practically the entire creek, which were bought at public auction two years ago by Stauf & Bannerman who in turn sold them to the present owners. To record the claims required the expenditure of \$2475 and as Mr. Barrette has renewed them once since coming into their possession a like sum was paid into the government's coffers a second time. Representation the first year was remitted on account of the ground not having been surveyed but this year the work will have to be done. It is understood to be the intention of Mr. Barrette to work the entire creek by hydraulics, beginning at the lower end and working up. The order in council referred to is as follows:

"On a report dated the 18th of March, 1901, from the minister of the interior submitting that sub-clause (d) of section 41 of the regulations governing placer mining in the Yukon territory established by order in council dated the 13th of March, 1901 provides that any free miner or company of free miners holding adjoining claims not exceeding 10 in number may work the same in partnership under the provisions of the regulations upon filing a notice of their intention with the mining recorder and obtaining from him a certificate and paying a fee of \$2, which certificate will entitle the holders thereof to the work required to entitle him or them to a certificate of work for each claim so held by him or them. "The minister states that representations have been made to the department of the interior that Mr. Joseph Barrette and associates are the owners of 165 placer mining claims situated on Barlow creek, a tributary of the Stewart river in the Yukon territory, being practically the whole of the creek, which claims were purchased from the crown at public auction; that the owners of these claims propose to open up by means of dredging or by hydraulic mining methods the whole creek be-

ginning at the mouth; that if they were required to perform on each claim or on each group of ten claims the amount of work necessary to entitle them to a renewal for each of the claims, the operation would be so divided that the best results could not be obtained; that the amount expended in actual mining operations on these claims required by the regulations is \$33,000 and the renewal fees \$2,475 and Mr. Barrette and his associates ask for permission to work the entire 165 claims in partnership, so that they may consolidate their expenditure. "The minister seeing no objection to this request being granted, recommends that he be authorized to permit Mr. Barrette and his associates to work in partnership the 165 placer mining claims referred to in the previous paragraph, upon their otherwise complying with the provisions of sub-clause (d) of section 41 of the regulations above referred to."

A similar order has also been received by C. G. Johanssen who owns a group of 23 claims on Hunker.

Free of Debt.

Rev. J. J. Wright, of the Presbyterian congregation, now wears an especially benevolent and contented expression on his countenance, the cause thereof being the action of the congregation at last Sabbath's services. Mr. Wright stated through the columns of the Star Saturday that \$150 was still due on the building and asked for contributions to liquidate the same. His expectations were more than realized as the collections at the two services amounted to \$155.50.

There still remains a payment of \$125 to be made on the lot on which the church is located, and when this is met the Presbyterian church will be free from debt and in possession of a very valuable piece of property. —Whitehorse Star.

Post Office Thronged

Not for many long weeks has the post office been so thronged as it has been all of today. The mail which arrived yesterday evening was nearly all distributed last night and lock box patrons carried letters away by the dozens. The general delivery windows were not opened until this morning, since which time they have been thronged. From now on for several months the arrival of mail will be a common occurrence. The consignments of yesterday were the first since the 3rd of the present month.

Died at Whitehorse.

George Miller Allan, a well known and respected citizen of Whitehorse, died there on the 3rd instant of heart disease with which he had been afflicted for some time. In the hope of prolonging his life his wife was preparing to leave for the outside with him, and they intended to have started the morning he died, but during the previous night a change for the worse occurred and he never rallied. Mr. Allan was from Edinburgh, Scotland, and was 42 years of age. Ice cream and cake served at Gandolfo's. 17th

The Nugget's stock of job printing materials is the best that ever came to Dawson.

WHITEHORSE NEWS NOTES

Happenings Where Rail and Water Meet

Good Reports From Copper Properties—Many Improvements Being Made.

(From the Whitehorse Star.) Miss Kate Ryan is now visiting with her parents in New Brunswick. Mr. Spencer Coates is again on the streets after several days spent in the hospital. The main office of the W. P. & Y. depot is being enlarged by removing the partition between it and the room formerly occupied by the N. W. M. P. as a town station. It will be a big improvement over the present cramped quarters. Supt. Haman of the Grafton mine is in town. He reports the shaft down sixty feet and still in a body of high grade ore. Customs Inspector E. S. Busby's handsome and commodious dwelling house on Main street, opposite Star office, is receiving the finishing touches and will go into the hands of the painter in a few days. The dog catcher is in evidence again and several owners of canines have had to walk up to the "captain's office" this week and settle in order to save their four footed property from ignominious death. Ping-Pong has hit the camp. There is no preventative known to the medical or scientific profession. The best way to take it is with sleeves rolled up, shirt waist open, hair bedraggled and a ding ping-pong sense of being clubbed with a goose feather, or playing hand-ball with a soap bubble. Judge Taylor received a wire Saturday from Gov. Ross at Ottawa informing him of the appointment of Sergt. John A. MacDonald of the N. W. M. P. as clerk of the court for Whitehorse.

Mr. Jas. King, a brother of Manager Mike King of the U. Y. C. Co., died at Van And on the 10th inst. The cause of death was peritonitis. The remains were taken to Victoria for interment. A number of scows have been loaded during the past few days at the B. Y. N. docks with hay, grain, potatoes and machinery for down river points. The scows and their loads will have to be transported by teams over Lake Lebarge. Mr. R. Unsworth is again around after being confined to the house for several days with a severe attack of stomach trouble to which disease he has been subject for several years. On Monday evening, April 28, at Christ Church, Whitehorse, by Rev. R. J. Bowen, Thomas Wm. Maguire of County Tyrone, Ireland, to Fanny Louisa Banton, youngest daughter of John Banton of London, England. The wedding was quiet a few friends being present, Mr. J. P. Champagne being best man, and Miss Nellie Bawn bridesmaid.

Mrs. Bowen, wife of Rev. R. J. Bowen of Christ's church, Whitehorse, left this morning, accompanied by Miss Bawn, for Vancouver, B. C. Mrs. Bowen has been in ill health for some time past, but it is thought by her physician that a few months spent in a different climate will have the effect of entirely restoring her. The friends of Rev. and Mrs. Bowen, of whom there are very many in Whitehorse, join in the wish for the estimable lady's complete restoration to health and speedy and safe return. Mr. Robt. Grainger of the Copper King property is in town. He is much pleased with the outlook on his mine. In the crosscut that was started a few days ago the miners have run into a large and solid deposit of very rich ore, the extent of which will require a great deal of work to determine. As soon as the roads get in good condition it is our intention to pay a visit to the Copper King and Corvete mines, at which time we will give them the notice that their importance deserves. For the past ten days extensive improvements have been under way in the W. P. & Y. depot. The internal arrangements have been completely changed and greatly added to in both convenience and looks. The room in the south end of the building formerly used by the Royal Mail service has been changed into a waiting room, and the room until recently occupied by the town force of the N. W. M. P. has been turned into a ticket office. What was formerly the main office will now be used for clerical and telegraph departments. The old waiting room has had a partition put through the centre and one-half of it added to the baggage department, while the other half will be used as a private office. The pen in the baggage room for the storage of duitable goods will also be enlarged and put in better shape for the handling of goods and baggage.

Appropriation Exhausted.

For the months of April, May and June employees of the government in the Yukon, or at least those in the civil department of the government, will not receive their salaries until the first of July, when they will be paid for April, May and June. This condition of affairs is due to the fact that appropriation for the current year is exhausted and the new appropriation is not available before June 30th. To many of the government employees this delay in the payment of salaries will be of little consequence, while to others, many of the young men who live closely up to their salaries, it will very greatly inconvenience. It is good money when it comes, and its coming is sure, but in the meantime there will be some rustling to get money to keep some new pumps going around the city.

Boy Flends.

Manila, April 29.—When the trial by court martial of Gen. Jacob H. Smith was resumed today, Pedro Bolla, a boy "mascot" of Company E, of the Ninth infantry, commanded by Capt. Thomas W. Connell, who was massacred by the Samar natives at Balangiga, testified that he saw Capt. Connell's death wound given by a boy of 15. The witness saw several other boys of the same age among the natives who took part in the massacre, and thought he himself could use a bolo against a soldier.

Fairview Hotel

Kammuller & Holte, Props.

First-Class Dining Room—Thos. Aarven, the Well Known Caterer, in Charge.

EUROPEAN PLAN. Refined, Remodeled, Strictly Modern

Capt. Waldo E. Ayer, Gen. Smith's adjutant general, said he had been closely in touch with all the movements and knew Gen. Smith's plans, purposes and feeling at every place. He added that on the general's arrival the coast was deserted, and he saw the same towns filled with people when he left. But so far as the people of Samar were concerned, he met only one man worthy of respect, who was sincere, patriotic and honorable. He admit, however, that the man with this qualification was born at Marin Duque, of Tagalog ancestry. First Lieut. Van Deman, of the Twenty-first infantry, who had charge of the military information bureau, described, from the records, the treachery of the natives of Samar.

Something Wrong.

The absence of telegraphic news in this paper is due to the fact that the wire is working so badly today that relays are necessary between Vancouver and Dawson and that practically bars press matter owing to the time consumed in re-forwarding the long despatches. A small amount of commercial matter has been handled during the day but no press matter had been gotten through at a late hour this afternoon.
