

USE

"Corona" Dry Arsenate of Lead

for
Spraying Orchards and Potato Plants.

"CORONA" dry is not an experiment, it has been used by many of our leading farmers for years.

One pound of "CORONA" will do the work of from two to three pounds of Arsenate Paste, and be more effective because:—

It is a perfect, dry, fine white powder, and does not contain 50 per cent water.

It is pure and contains nothing but Lead Oxide and Arsenate Oxide, the only two chemicals essential of an Arsenate of Lead. It gives an even application, covers more thoroughly, and sticks to foliage longer.

It mixes easily and readily in water, no working up to prepare for the spray tank. No straining. It is only necessary to shake the proportional amount into the spray tank.

By using the same weight each time you spray, your mixture is always the same strength.

No sediment, no lumps, no water, never clogs spray nozzles.

Mobilize Resources of Canada

Hamilton, Ont., June 15.—The
 closing business sessions of the
 Canadian Manufacturers' As-
 sociation were held today on
 board the steamer Corona, on a
 trip to Niagara, where the camp
 was inspected. Among the res-
 olutions passed were:

"That the association would
 approve any scheme for com-
 plete and effectual mobilization
 of the entire resources in Can-
 ada of man and material, which
 should be placed unreservedly
 at the disposal of the country;
 that the government be mem-
 orialized to bring in legislation
 providing for daylight saving,
 with the least possible delay that
 the federal government be re-
 quested to remove the exercise
 duty on alcohol, under suitable
 regulations and restrictions,
 when employed in manufactur-
 ing processes; favoring prefer-
 ential tariffs for closer econom-
 ic union between the Allies;
 the development of inter-im-
 perial trade and placing the
 products of enemy countries
 under such fiscal and other dis-
 abilities as will effectually re-
 strict their sales in these mar-
 kets."

It is also advocated that the
 government liberally encourage
 by subventions or otherwise the
 establishment of a shipbuilding
 industry in Canada on a per-
 manent and profitable basis,
 and that a special committee
 press for action and work out
 details.

The association also recorded
 its belief that scientific and in-
 dustrial research should be de-
 veloped on a scale commensur-
 ate with Canada's resources.
 The following officers were el-
 ected: President, Hon. Colon-
 el Thos. Cantley, president of
 the N.S. Steel Co; first vice-
 president, S. R. Parson, Tor-
 onto; second vice-president, W.
 J. Bulman, Winnipeg; treasur-
 er, George Booth, Toronto.
 An executive committee, cov-
 ering all industrial districts in
 the Dominion, was also ap-
 pointed.

Church Union Passes By A Big Majority

As was generally expected,
 the Presbyterian General As-
 sembly at Winnipeg voted Wed-
 nesday to enter into organic
 union with the Methodist and
 Congregational churches, the
 majority as was also expected,
 being overwhelming.

For the first time in many
 years the assembly voted as
 the roll was called, each com-
 missioner rising in his place
 and answering aye or nay. A
 new paper record of the vote,
 which was not officially an-
 nounced in the afternoon,
 against. The east voted four
 to one for union, and the west
 five to one for union. In the
 east the total for union was 255
 against 92. In the west the total
 was 143 for union and 30
 against. The number absent
 or not voting was 117. There
 was no demonstration of any
 kind when the final decision
 was reached.

FLOUR PRICES RECEDE.

There have been reductions
 in the prices of flour during the
 week. Yesterday Manitoba was
 quoted by jobbers at \$7.35 per
 barrel, as against \$7.55 a week
 ago. Ontario flour dropped
 25c, yesterday, the present quo-
 tation being \$6.60 as compared
 with \$6.85 last week.
