In preparation for the coming contest on the question of prohibition of the liquor traffic for the Province of Ontario, next January, Mr. P. Orser, Deputy Grand Coullonier of the R. Girls in this part of the world who feel aggrieved that no one comes wooing, should grasp their destiny and start a trip to Manitoba. The Pilot Mound Sentinel makes a pathetic appeal for a few car loads of marriageable maids who can scrub, wash, sew, cook and fill the vacant places in lonely bachelor hearts. It is a sad and solemn thing to think of the well-to-do farmers of Manitoba singing love ditties to the amber moon and lighting out their bunched heads in sentimental poetry. They have no one to love them, none to care for, and their yearning for female companionship is wild and uncontrolable. Somebody ought to organize a party of marriageable girls and take them on a tour through Manitoba. The conductor would return alone.

The Masons will hold their next meeting in their new hall, over Phil. Wilcox and Co's store, on the first Thursday evening before the full moon in October.

Mrs. McManis appeared in the Brookville police court last week on a charge of drunkenness, and registered as coming from Athens. She does not reside here but occasionally visits this section and has always passed as poor but honest.

We are gradually getting sobered up in Canada. Twenty-four years ago the country consumed a gallon and a half of old rye and other strong stuff per head per year, and now we are only getting away with half a gallon. Who says temperance sentiment is not on the increase?

Patrons of the Elbe mills will be pleased to learn that they have been selected for a term of years by Messrs. Wm. Merrick and Alex. Compo, of Athens. Both these men are excellent practical mechanics of wide experience, the former exclusively in grist and flour mill work, and the latter more particularly in custom sawing and wood-working machinery generally.

The operations of the Elbe mills will receive their close personal attention, as they regard perfect satisfaction to their customers as one of the prime factors that will make towards the success they hope to achieve.

Interesting to Appear.

A short time ago we published an article on the apary of Mrs. Jennie Athley, of Greenville, Texas. Her chief business is the breeding of fine Italian guinea. It is worthy of note that Mrs. Athley uses the low 8 frame simplicity Langenshank, which is now identical in form and size with Hough's Improved Langenshank. The amount of extracted honey will be reported at the end of the season. Under date of Aug. 22, Mrs. Athley writes Mr. W. S. Hough as follows:—

"Your card of 18th at hand, also your paper. I have read with pride the compliment you give us in your valuable paper. You ask me to give you a statement of our business up to date this year. Now, we have not had the time to count up since we began in February, but we had with us last week Mr. J. W. Taylor, of Ozan, Ark., on a visit, and he was anxious to know how much we had done, and we handed him our books and he footed up 4666 queens sold to date and nearly two car loads of bees in weight. We will likely reach the 6000 mark before the season closes. We will move to Leeville, Texas, this fall, where the winter is more favorable than here in north Texas. There we can raise queens all the year, as we will then be just about as far south as one can get in the United States. May God's richest blessings attend you in your far-away home in the wishes of a friend."

Lyndhurst Fair.

Lyndhurst fair this year was an unqualified success. Thursday, the first day, was all that could be desired, and as a consequence the number of exhibits was larger than ever before, the entry totaling up to 1237.

The show of cattle, sheep, swine and poultry was fully up to the average both in quantity and quality. In the hall the display of fancy goods and domestic was larger than on former occasions. A noticeable increase in the fine art department was due to the large display made of pictures in oil, pencil and water colors by Miss Adda Barlow, of Addison. The display of vegetables was without doubt the largest and best yet shown in Leeds County this year, there being on exhibition over twenty baskets of as fine potatoes as we ever saw at any fair. Thursday, the second day, opened rather inauspiciously, and rain fell at intervals until about 10 a.m., when the rain stopped and the clouds took on a brighter hue. It was nearly one o'clock before the crowd began to arrive, and the grounds and buildings were soon filled with a large crowd of expectant and delighted citizens of the adjoining country.

The show of acres, colts and carriage, draught and general purpose horses, was good. The race for the liberal purse offered by the committee on sports was keenly contested. Dr. F. North took first money, A. Van Asseltine, second, and Dr. Brown, third. The gate receipts were good, footing up to nearly \$250. The prize list in full will be printed in these columns as soon as prepared by the secretary.

Explanation of column headings: W.—Total weight. H.—Total honey. P.—Pure honey. S.—Standard for winter. W. A.—Wagon Standard for winter. B.—Number of Swarms. N. S.—Number of bees in Queen. Y. Q. V. B.—Comparative Value of Bees.

I hope the above form will prove an incentive and help to beginners in bee culture to analyze the state of their colonies and to determine and act on the case may require. Suppose you had weighed an average stock of bees on the 20th of July, then on the first of Aug., and found in each of two colonies which a party was about to brimstone, then it stored from my big feeder, 3 lbs in 20 hours, forming a powerful first-class stock. In feeding, count a twelve by twenty inch comb, it includes brood chamber, bees, combs, bee bread, cloth, three moth-combs, bottom board and unattached brood.—W. S. Houghton.

Harlem vs. Seely's Bay.

An exciting football match took place at Lyndhurst on Saturday, 16th inst., between the Harlem and Seely's Bay teams. The match had been arranged for some time, but not until Saturday did the teams get "after the ball," and they got after it in real earnest. The ball was kicked off at about 4.45 p.m., and the fun began. The players and positions of the Harlem team were as follows:— Goal, H. Emerson. Full Back, W. A. Andland, G. Curtis, Half Backs, S. S. Myers, A. Elliott, Right Wing, C. Lillie, B. Leader, Centre, S. H. Sharnam. Left Wing, R. Trotter, A. Austin. In front of the Harlem team, the Seely's Bay team had all their own way, although kicking against a strong wind for the greater part of the game. Lillie got kicked on the ankle in the first half, but he was up in a few minutes, but he got there just the same.

Shot after shot was rained on the Seely's Bay goal, but owing to the strong wind, it was difficult to get a ball into the goal.
