THE JOURNAL TO THE RESCUE.

The Chatham Planet is greatly worried over Sir Wilfrid Laurier. It claims that he is losing prestige and is no longer the leader he was. The poor old Planet! Wonder what its opinion (not necessarily for publication) is of the Hon. Mr. Borden? However, we thank the Chatham organ for pointing out the danger that confronts us. We have had our attention taken from Sir Wilfrid to a certain extent of late, is our efforts to keep tab on the many Liberal victories in all parts of the Dominion. Had it not been for this we might have noticed that the Canadian people were tiring of their premier.—St. Thomas Journal.

Now we understand why things at Ottawa have been managed so loosely of late. The Journal's "attention" has been taken away from Sir Wilfrid. No doubt that eminent personage, feeling that the critical, eagle eye of the Journal was not focused upon him, thought he could do about as he wished. The Journal man should realize the great responsibility which rests upon him and should not allow these great dangers to threaten the whole Liberal party solely through his neglect to look after the premier. Now that the Journal has been waked from its Rip Van Winkle slumber, no doubt Premier Laurier's stock will go up again. We presume the Stinty Journalist will commence by finding those important papers pertaining to the immigration scandal that W. T. R. Preston alleges were stolen. He may be able also to find some of those missing invoices, which are so peculiarly essential in connection with the Marine and Fisheries investigation.

FUTURE IN POLITICS.

The outlook for the Conservative party was never brighter, both in Dominion and provincial politics. The people are well satisfied with the Whitney Government. They feel that it is a capable and honest one. Not so, however, with the Laurier administration. The appalling scandals which are being unearthed at Ottawa do not place Premier Laurier and his Government in a very favorable light before the electors. The people will not stand for graft in public life and those who uphold and encourage it will eventually receive their fitting reward.

The future of the Conservative party appears bright, commented the Woodstock Express in a recent editorial on the same question, but the future of the Liberal party is not, on the face of it, such as can bring joy to the supporters of Sir Wilfrid Laurier and Hon. G. W. Ross. Many years ago the Liberal leaders in Ontario formed a strong Government but the party's leading men have either died or been discredited and, considering the overwhelming defeat when the whole province turned against it, the Liberal party in Ontario will require many years to recover its power.

The outlook in Dominion affairs gives Liberals but little more encouragement than that in Ontario. In this banner province a Liberal Government was condemned because it resorted to many unjustifiable schemes and now the Dominion Government stands discredited by the discovery of several acts which were not in the interests of the country but which were profitable for the friends of the party.

The Conservative Government in Ontario has the confidence of the great majority of the people and its record this session speaks volumes for its ability and courage. There are many who assert that the Dominion Opposition is not strong and will not be trusted with the governing of the country. The answer to such an assertion is that a similar statement was made concerning the Ontario Opposition when Mr. Ross in power. The Liberal Government in the Dominion House went into power with many promises, among which was working wonders in regard to tariff; its promises were but poorly kept and in the matter of tariff it followed in the footsteps of the Conservative party. Revelations now being made at Ottawa go

to show that the Government of Sir Wilfrid Laurier has played false with the people of Canada, and many people are turning to the Conservative party for relief from the condition of affairs under the Liberal Government.

The Woodstock Sentinel-Review says if you ask any school child in Canada who won the Marathon race he will probably answer promptly. Ask the same school boy who is the greatest scientist of the age and he will probably tell you that he hasn't advanced that far yet in his studies. The death in Paris a few days ago of M. Curie, the discoverer of radium, was scarcely noticed by the papers of this continent. Had he been a prize fighter or the winner of a road race, or even a good ball player, his death would have attracted more attention.

Galveston, Texas, says a contemporary, has set a bright and shining light to other municipalities in the way of reform. It has abolished its city council and appointed a commission of five men to look after its affairs. These five men managed the affairs of the city expertly, as the directors of a business manage its affairs, and they are not under the necessity of catering to the politicians or grafters. The city's business is transacted on business principles, instead of with a due regard to its effect on the political party they may belong to.

A DIFFERENCE

IN LUNGS.

In the Edinburgh University three human lungs lie side by side. One is of an Eskimo and is snow white. In life, this would be ruddy with rich blood. Another is that of a coal-miner and is black. The other is of a town dweller and is a dirty slate gray, as are the lungs of most city residents. That's why consumption thrives in cities.

One reason why Scott's Emulsion does so much to keep down consumption is because it helps to keep the lungs clean and supplies them with rich, red blood. It makes the lungs germ-resisting. If the body is run down and health is at a low ebb Scott's Emulsion will build it up quickly and permanently.

GOOD CHEER AT MEALS.

The Value of Laughter as an Aid to Digestion.

Nothing else will take the place of good cheer and laughter at meals or any other time in the home. There is a vital connection between amiability and digestion—between good cheer and assimilation. Laughter is the best friend the liver has and depression or melancholia its worst enemy. Numerous experiments have shown that mirth and cheerfulness stimulate the secretion of the gastric juices and are powerful aids to digestion. Yet, knowing this, many of us sit as gloomy and absorbed at the table as at a funeral. In many homes scarcely a word is spoken at meals outside of requests for an article of food.

The meal hour ought to mean something besides supplying a mere animal function. The bell which calls the family to the table ought to be the signal for a good time generally, when all cares should be thrown off and everybody appear at his best. It ought to signalize the time for mirth and laughter. It ought to be looked forward to by the members of the family as the recess or nooning is looked forward to by pupils in school as a let-up from the strenuous life.—Orison Sweet Marden in Success Magazine.

Good deeds ring clear through the heavens like a bell.

A PRETTY RUSSIAN SUIT.

Among Russian suit models the one portrayed is one of the most attractive as well as the most easily made. The broad collar is a chief adornment, while the small tucks at the wrists are a pretty substitute for a cuff. The old reliable serge is the best for a suit of this kind, and the contrast may be offered by a chemise and belt of another color. The embroidered emblems in blue, red and white, or gold, are a medium size. Two and a half yards of 26-inch material are needed to develop the pattern.

No. 4795—sizes 2 to 6 years.

Up to her chamber window
A slight wire trellis goes,
And up this Romeo's ladder
Clambers a bold white rose.

I lounge in the lex shadow;
I see the lady lean,
Unclasping her silken girdle,
The curtain folds between.

She smiles on her white rose lover;
She reaches out her hand
And helps him in at the window—
I see it where I stand!

To her scarlet lip she holds him—
And kisses him many a time—
Ah, me, it was he that won her
Because he dared to climb!

ENGLISH TRAVELING SALESMEN.

How Their Comfort is Looked After at the Hotels.

"Traveling men in England have special dining rooms, special rates and a special lot of things," said E. K. Simmons, of Manchester, England.

"When you go into the lobby of an English hotel you may be surprised to find a great open fire burning in one end of the room. Great comfortable chairs will be found about the lobby and you need not exclaim if you see several salesmen smoking long pipes and reposing their stockinged feet upon large footstools. Empty shoes can be found in many portions of the room.

"The English lobby is a parlor or sitting room, a place of comfort, and in no instance bears the stiff, varnished, embazoned appearance of your Canadian hosteleries. When you go to the dining-room you may be surprised to hear the clerk ask you and your traveling man. If you are ushered into a simply but homely furnished room containing one long table. The apartment is more like a private dining-room, and everybody is everybody else's friend.

"The meal is especially served, the waiters show especial deference, and everything bears a tone of home life. As each man leaves the table he is seen to drop a halfpenny in a little box. This is an unwritten law of the land, and the money thus collected goes to pay for schools and orphanages for the children of traveling salesmen who die without leaving sufficient means for their support. Several of these schools and orphanages are maintained throughout England.

"English traveling salesmen take life easier than do the men following a similar occupation in Canada. They never think of entering a man's store with a lighted cigar, and they would as soon forget to wear a collar or coat as to expect to do business with a man without having their shoes carefully polished. All hotels look to this and a 'boots' gets your shoes each night, marks them with chalk, polishes them and returns them before you are awake the next day."

An orange tree in full bearing has been known to produce fifteen thousand oranges; a lemon tree six thousand fruit.

Mainspring of Life

No One Can Be Strong With a Weak Stomach.

The stomach is the mainspring of life. When it is strong and acts perfectly, then the whole system is right, assimilation is perfect, and body and brain are thoroughly nourished.

One may perhaps get temporary relief from stomach troubles by using pepsin, or some other digestant, but this treatment has no curative effect. It does not reach the seat of the trouble and remove the cause. How much better to use Mi-o-na, which restores lost functions of the whole digestive system, revives flagging nutrition, and aids in the assimilation of food.

Mi-o-na is a pleasant remedy to use, and benefit is seen from almost the first day's treatment. It restores the torpid glands and stimulates the natural digestive secretions. It checks fermentation, stops germ growth, soothes inflammation and cures all troubles, such as headaches, backaches, rheumatic pains, furred tongue, sleeplessness, nervousness, and general debility, which are caused by imperfect digestion.

Mi-o-na costs but 50 cents a box. If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

Respectful consideration produces a like feeling in those upon whom it is bestowed.

Often-times in the sudden illness of children if a reliable remedy is available fatal consequences can be avoided. For these emergencies parents are urged to have at hand ready for immediate use Dr. Shoop's Diphtheria Cure, Dr. Shoop's Croup Cure, Dr. Shoop's Worm Cure and Dr. Shoop's Pain Panacea. Children's ailments demand promptness above all else. There is nothing harsh or that can possibly harm in any of these excellent household medicines. Sold by C. H. Gunn & Co.
