RED SOX AND HIGH SCHOOL PLAY TO TIE

Interesting Game in Town League Last Evening—Darkness Prevented a Decision

The Red Sox and High School met last evening in their second contest in the Town Baseball League, and as in their previous game the outcome was in doubt up to the very last inning. Both teams were somewhat weakened, and the High School played with only seven men, but nevertheless the game was full of interest, especially after the first two innings.

The High School took the lead in the first innings when they scored two runs as the result of hits by Regan and Cohen, coupled with a few errors. In the second inning, with two out, the Red Sox began to throw the ball around, and the High School scored three more, giving them a big lead. The Red Sox were unable to score in the first two innings and their chances looked slim in the third when Smith and Farris struck out. McLeod, however, reached on an error, Kenzie and Dick secured hits, and before the third man was out they had scored two runs. The Red Sox then tightened up and held the High School to no score in the third and fourth innings.

The fifth and last inning was the most exciting. With the score 5 to 2 against them, the Red Sox's chances did not look very good. Farris, however, reached first on a single. McLeod struck out and Kenzie was out at first. By this time it was getting pretty dark and it was hard to see the ball. Rudolph hit the ball into the grass in front field and before it could be found he had circled the base bringing in Farris with him. Dick then hit one over Cohen's head and before the ball was found he had scored the tying run. It remained for Saunders to put his team in the lead when he reached first on an error and scored on more errors before Bartsch was retired. The High School went to bat determined to overcome the one run lead against them. Prescott struck out, but Cohen got a nice hit and was able to score the tying run before two more were out. The game was then called on account of darkness, and will have to be replayed at a later date.

Dick pitched a good game for the Red Sox, striking out six, allowing only three hits and walking one. Prescott also struck out six, but allowed five hits and walked two. The teams were as follows:

Red Sox—Kenzie, c; Rudolph, ss; Dick, p; Saunders, 2b; McDonald, 3b; Bartsch, rf; L. Smith, lf; Farris, 1b; McLeod, cf.

High School—Johnson, c; Williams, 1b; Regan, ss; Prescott, p; Cohen, 2b; Gould, 3b; Spencer, cf.

If all goes well the Braves and High School will play their final game on Friday evening, and will be determined to overcome the one run lead against them on Monday evening. These should both be good games.

ACADIA PRESIDENT ON BUSINESS ETHICS

Dr. Patterson Addresses Rotarians and Guests at Kentville Club Dinner

KENTVILLE, July 27.—President F. H. Patterson, of Acadia University, was the principal speaker at the Rotarian Club Dinner held at the Cornwallis Inn today. Rotarian K. Kelly presided and introduced the following visitors, President Patterson, Mr. Elliott, Inspector of the Bank of Nova Scotia, James Brydon, F. L. Jennings, and the following members from the Kentville Board of Trade, H. M. Chase, President; W. E. Porter, Secretary; J. W. Cross, K. L. Pineo, and H. G. Harris.

Rotarian James Webster reported for the Boys' Work Committee, and made reference to the action taken by the Board of Trade in providing a swimming pool in town. The Club endorsed the work as in progress and requested the committee appointed to continue their activities. A. E. McMahon and H. M. Chase spoke on the subject.

The Rotarian picnic will be held on Wednesday, July 29th. The route is to be to Morden and from there to Kingsport. The members of the Council of the Board of Trade and their wives were invited to attend.

Dr. Patterson took for his subject "Business Ethics". It seemed, he said, that people thought that business must be conducted on business principles, and, therefore, ethics had nothing to do with it. Some men resent it, when ethical principles impinge upon the conduct of their business. Some kinds of business were not ethical, no matter how conducted—for instance, gambling and the open bar.

What was ethical business President Patterson said, was a broad question. The speaker expressed the opinion that business, on the whole, was honest. Trade was conducted on credit, which meant mutual confidence. He spoke of Kant's principles of ethics, and how they applied. The world was divided into two classes—the producer and the grafter; if they were universal, property or production would become of little value; if food adulteration and false advertising were general, it would break the best in business.

A vote of thanks was extended Dr. Patterson.

Minard's Liniment for Corns and Warts.

THREE STORES BROKEN INTO AT CANNING

CANNING, July 29.—While returning to his home late last evening Mr. Bowden of the staff of the Bank of Nova Scotia, noticed the electric light burning in the store of A. D. Payzant, dry goods merchant of Canning, and the door open. Mr. Bowden immediately telephoned Mr. Payzant, who in company with his son William and H. K. Bain, of Caldwell-Yerxa Ltd., went down and discovered that a stone thrown through the glass in the door had made possible the opening of the lock. The thieves had gotten away with clothing, etc., some of the smaller goods, including golf stockings and gloves being found on the street this morning.

The same thing occurred in the store of L. M. Ward, merchant, where considerable goods were taken, including jewellery and silverware, money in the cash register was untouched.

The door of the Red Cross Pharmacy was opened in the same way. Cigars and other articles were taken. The thieves attempted to open the door of the millinery store of Miss Bessie Henning, but owing to the lock being of an old-fashioned type were unable to gain an entrance. The stores entered were within a few yards of one another on the Main street.

MAY DESTROY CROP

Fire-blight Threatens Apple Orchards in Eastern Townships in Quebec

MONTREAL, July 27.—Fire-blight is threatening to destroy the apple orchards of the eastern townships and inspectors of the Department of Agriculture have been summoned by the apple growers to help check the spread of the disease which will in all probability seriously affect this year's crop and kill innumerable trees.

Six miles a day on foot is better for you than two hundred in a car.

LOCAL TENNIS PLAYERS WIN FROM WINDSOR

Take Seven out of Eight Events Played at Windsor on Saturday

Members of the Wolfville Tennis Club went to Windsor on Saturday for a regular league tournament and won seven events to one for Windsor. The locals must now win their remaining tournament with Kentville in order to be tied with that club. Some splendid tennis was witnessed at Windsor on Saturday and some of the matches were very keenly contested. The results were as follows:

Ladies' Singles—Miss Hemmon, Wolfville, defeated Miss M. Doran, Windsor, 6-3, 6-2.

Ladies' Doubles—Miss E. Eaton and G. Phinney, Wolfville, defeated Miss A. Christie and M. Wilcox, Windsor, 6-1, 6-3.

Men's Singles—L. Eaton, Wolfville, defeated K. Tremain, Windsor, 6-3, 6-0.

Men's Doubles—Balcom and Eaton, Wolfville, defeated Brown and Duncan, Windsor, 6-4, 6-2.

Mixed Doubles—Mr. and Mrs. Chute, Wolfville, defeated Miss L. Clift and Harry Smith, Windsor, 4-6, 6-2, 6-3.

Miss DeWolfe and R. Tufts, Wolfville, defeated Miss M. Duncan and Dr. Shankel, Windsor, 6-3, 6-2. Miss McLean and G. Eaton, Wolfville, defeated Miss A. Cochrane and Miss E. Fairbanks, Windsor, 11-9, 6-4. Miss E. Mounce and B. Curry, Windsor, defeated Mrs. Collins and Mr. McDonald, Wolfville, 5-7, 6-4, 8-6.

MOSHER—EATON

At the church at Grand Pre, Thursday, July 16, at 8 o'clock, p.m., Doris Belcher Eaton, youngest daughter of Mr. and Mrs. William Payzant Eaton, became the bride of Edward G. Mosher, Manager of the Bank of Nova Scotia at Belle Island, New Brunswick. Rev. W. A. Burbridge, B.D., pastor of the United Church, officiated.

The church was decorated with flowers, the ceremony being performed beneath an arch with white floral-bell. The bride, who was given away by her father, wore a gown of crepe orchid baronette with a poke to correspond and carried a shower bouquet of carnations and sweet peas.

In attendance were Miss Mary H. Eaton, sister of the bride; Miss Freda and Ethel Townsend, nieces of the bride; Miss Kathleen Mosher, sister of the groom. The church was filled with relatives and friends of the contracting parties.

Miss Laing presided at the organ and rendered Lohengrin's Bridal Chorus and Mendelssohn's March.

Immediately after the ceremony Mr. and Mrs. Mosher left on a motor trip through the valley at the conclusion of which they left for Newfundland where they will reside.

The bride was the recipient of many gifts, including linen, cut glass, silver, china, and cheques.

The groom's gift to the bride was a grey leather noisum bag containing a substantial cheque, and to the lady ushers onyx and pearl rings set in white gold, and to the organist an onyx bar pin.

Miss Eaton was very active in social and church circles, as soloist in the church and on many other occasions her beautiful voice was gladly given for the enjoyment of all.

Mr. Mosher is a son of Mr. and Mrs. Richard Mosher, River street, Kentville.

Exports of agricultural and vegetable products from Canada during 1924 were valued at \$445,516,290, an increase of \$29,305,300 over 1923. Wood and paper exports ranked second last year with a total of \$225,360,780.

APPLE APHIDS OR PLANT LICE

Four species of aphids commonly attack the apple in Nova Scotia, besides a number of others of less common occurrence. They are the rosy aphid, the green aphid, the apple-oot aphid or bud aphid and the woolly apple aphid, of which the first two species are by far the most important.

The Rosy Aphid. In the spring after the apple blossoms have fallen it is a common sight to see the leaves about the blossom clusters showing a pronounced curling, which when examined will be found to be due to a large globose aphid of a general bluish-grey appearance covered over with a whitish powder. Around this mother aphid (called the stem mother) will be found a brood of young aphids, the small ones yellowish, the larger pinkish in color and also covered over with a whitish powder. These insects in feeding show a marked preference for the fruit clusters, where they swarm on the undersides of the leaves, the blossom buds and sometimes on the developing fruit. The result is that the fruit itself is attacked, as frequently happens, it is malformed, distorted, twisted and simply as a result of the insect's work. The injury is all done early in the season as the insect ordinarily deserts the apple during the latter part of the season.

The insects emerge from their small, black, oval, shiny eggs in the spring as the bud tips show green and cluster at their tips. As the leaves expand they curl around the insect, protecting it. The first generation of aphids are all females that give birth to their young alive, as is the case with all subsequent generations except the last, which consists of both males and females, reproducing by means of eggs, there being a possibility of eight or more generations each year. The first two generations live upon the apple and are very prolific, the stem mothers producing from 100 to 300 young each, and the second generation averaging over 100. The third generation of this insect are usually all winged and fly to the plantain, usually the narrow-leaf plantain, which is a common weed in the province and on this plant several more generations are passed. Winged forms return to the apple and produce a generation of true egg-laying females which are fertilized by males produced on the plantain.

The Green Apple Aphid. The green aphid is recognized by its general color, the head and thorax of the winged forms being black. It is similar in life history to the rosy aphid except that though found on a number of trees and shrubs beside the apple it is capable of developing on the apple throughout the year and is not under the necessity of migrating to a secondary food plant. On the apple or other infested plant it produces a succession of generations composed partly of wingless forms that stay on the same tree and partly of winged individuals that fly to other apple trees, thus spreading the infection. This insect confines itself more than the rosy aphid to the twigs and shoots, causing the leaves to curl and even kill the tender tips in severe cases, but sometimes in midsummer and later it may, if unusually numerous, desert the leaves and tender shoots and attack the developing fruit, dwarfing it and spoiling its appearance. The skin becomes roughened and "pimply" and

Featured on its editorial page, June 23, the success of Moirs in making chocolates of such quality that "a firm located at the extreme easterly metropolis of Canada has been able to capture markets in every section of Canada, overcoming handicaps of wataresheds and distance from markets."

Another extract: "The presumption of a Canadian citizen trying to sell chocolates in a country (England) famous for Chocolate manufacture was viewed with dismay, but in the end the market was captured. Moirs Chocolates today enjoy a good sale in the Old Country."

EMPLOYEES OF L. E. SHAW LTD. HAVE PLEASANT OUTING

The annual picnic of the employees of the L. E. Shaw Ltd. brick-yards at Avonport was held yesterday at Hall's Harbor and proved to be a most enjoyable and successful function. Seven cars and a large motor bus were employed to take the party of sixty-five to and from their destination. The weather was favorable and a full day of amusement was had.

The only mishap was when the brake on the bus failed to work when descending the steep hill towards the shore and occasioned a spill. The driver was able to turn the vehicle from the road and it went into the ditch and turned over, but fortunately without any of the occupants sustaining serious injury.

On arriving at their destination an elaborate lunch was served, after which a baseball game between the married and single men was played. Overtime play was necessary in order to reach a decision the score being in the end 11-10 in favor of the single men. The afternoon was spent pleasantly with a motor-boat sail, swimming, tug-of-war and other sports.

IN INTERESTS OF FRUIT INDUSTRY

Movement Started to Hold National Apple Day and Week in Canada

For several years the United States have held a National Apple Day and Week. National Apple Day being October 31st, and National Apple Week from October 31st to November 6th. The fruit interests in Canada have decided to put on the same sort of campaign and will hold National Apple Day and Week on the same dates as they are held in the United States, so that there will be one National Apple Day and Week all through Canada and the United States. The details of the campaign are now being prepared and will be advertised all through Canada very shortly.

SUNDAY SCHOOL WORKERS HOLD SESSION HERE

Summer School of Methods Now Drawing to a Close at Acadia Seminary

The annual Summer School of Methods for Sunday School workers has been in session at Acadia Seminary this past week, having opened last Thursday night with a registration of about fifty pupils. This school is interdenominational and a similar school has been held at the same time at Mount Allison University. The subjects taught and lecturers here have been as follows:

Miss Hazel Alivard, Leader in Canadian Girls in Training work at Moncton, had charge of the Teen Age Girls Specialization course.

Miss Annie E. Harris, Elementary Secretary of the Maritime Religious Education Council led the course in Beginner's and Cradle Roll Specialization.

Rev. A. N. Marshall, D.D., Pastor of the Wolfville Baptist church, conducted the services of the Worship Period.

Rev. F. M. Milligan, B.A., Field Secretary for the Maritime Provinces of the Board of Sabbath Schools and Young People's Societies of the Presbyterian church, lectured on "Missionary Education and conducted the specialization course dealing with young people's work."

Miss Alice Harrison, formerly Elementary Secretary of the Maritime Religious Education Council, led the course on Junior Specialization.

Rev. H. S. B. Strothard, B.A., Field Secretary for the Maritime Provinces on Newfoundland of the Board of Religious Education, the Methodist church, lectured on "The Teacher's Study of the Life of Christ."

SUMMER VISITORS

Those who have registered at "Hill-side Hall", Prospect street, during the past few weeks were:

Miss Margaret Taylor, Miss Ethel Ronan, Ottawa; Miss Farleand, Boston; Mrs. Shepherd, Chicago; Mrs. A. E. Tucker, Miss J. E. Williams, Miss B. M. Riail, Baltimore, Md.; Miss E. Strachan, Miss C. Seaver, Toledo, Ohio; Mr. and Mrs. Franklin W. Campbell, New York City; Mr. and Mrs. Atlas H. Hoff, Master A. Hoff, Master H. Hoff, Albany, Alabama; Miss Carolyn Glander, Miss Ruth Cassidy, Toledo, Ohio; Mr. and Mrs. Frank Kelley, Mr. and Mrs. Geo. H. Bearce, Brocton, Mass.; Miss Jessie Milligan, Miss E. Iva Yerxa, St. John, N.B.; Geo. H. Wilkins, Mary E. Wilkins, Cambridge, Mass.; Clara L. Hughes, Ewanston, Ill.; Ellen M. Guiney, Highland Park, Ill.; Mr. and Mrs. Harold Wilson, Cranford, New Jersey; Gertrude W. Chaffin, Malden, Mass.; Miss Helen Follensbee, Gloucester, Mass.

ANNOTATED GUIDE OF THE LAND OF EVANGELINE

The Dominion Atlantic Railway has just published an Annotated Guide covering the territory from Yarmouth to Halifax. In this book of 70 beautifully printed and well illustrated pages with map, each town is described from the viewpoint of the pleasure seeker. It renders in new color many of the heroic and romantic phases of the famous shrines of history and scenic beauty that make the storied Land of Evangeline the most alluring and soul-satisfying summer vacation country in America.

This book may be purchased at Grand Pre Memorial Park, Grand Pre, N. S., Price 75 cents.

Councillor Narrows J. Brydon, of Weston, died suddenly at his home last Saturday morning. He was 61 years of age and had represented Ward Five in the Municipal Council for the past nine years.

SCOUTS RETURN FROM TRIP TO CHESTER

Most Enjoyable Time Spent by No. 2 Troop Cruising on South Shore

The Boy Scouts of No. 2 Wolfville Troop returned on Saturday from their Chester trip. In spite of rain and fog they report a most enjoyable time.

Arriving at Chester Basin early on Friday, July 17, they spent the day in search of a suitable yacht. The boat that had been promised them was not available and a whole day was wasted before one was finally located at Indian Point.

Saturday morning was rainy and foggy and not considered fit to start for the cruise.

Headquarters had been established at the hospitable farm of Mr. Colin Borgald, whose family have always showered kindness upon the Wolfville Scouts, who visited there first in 1912.

A motor boat was hired on Saturday afternoon and a visit was paid to Chester. Sunday was spent quietly at camp, all attending church on Sunday morning.

Monday morning the "Quick Step", a fine little auxiliary schooner, was sailed over from Indian Point and the crew appointed to their stations.—Mr. Brown, captain; Mr. F. Davidson, chief engineer; Harold Mitchell, assistant engineer; Reg Northover, first mate; Frank Shaw, second mate; Lawrence Smith, boatswain; Semour Gerard and Roy Northover, able-bodied seamen. With such a crew it was thought safe, in spite of thick fog, to set sail for Deep Cove early Tuesday morning.

The day was pleasantly spent in that beautiful spot and as the fog lifted the return sail was enjoyed by all.

On Wednesday provisions and bedding were put aboard and a cruise was taken through the many islands to the Saw Pit or back harbour of Lunenburg. The boys spent the evening in exploring the old town and visiting a street fair. That night all slept or tried to sleep on board the "Quick Step", but the pouring rain kept some of them on the move trying to find dry quarters.

Sail was set for Chester Basin Thursday morning and on arrival the crew were told off to procure supplies for "clam chowder" and "blueberry grout".

Friday morning they sailed over to Chester and in the afternoon returned the boat to Indian Point.

They had hoped to cruise as far west as Liverpool or at any rate to Bridgewater, but the rain and fog forbade this. In order to make this up to the boys they were given the choice of returning by motor either by way of Bridgewater or Halifax. They chose the latter and Saturday was spent in that city. Some of them watched the yacht races from Point Pleasant Park while others visited friends in the city.

Wolfville was reached about six p.m. It is said that some sad hearts were left at Chester Basin; but in the words of the old song, "Every Nice Girl Loves a Sailor".

All Boy Scouts and Wolf Cubs of St. John's Sunday School (1st Wolfville Troop) are requested to meet the Scoutmaster at the Club Room at 7:30 Friday evening, when final arrangements for camp will be made. It is expected that camp for these boys will be held at Sunken Lake next week. Charge has been fixed at \$2.00. The camp will be run on regular Scout lines.

PREDICTS UNION OF ALL CHURCHES

Will Come With Understanding of Essentials, Says Bishop Manning

MONTREAL, July 27.—"Church union of all the churches, even including the Church of Rome, will come in time, not as the result of a sacrifice of the essentials, but following a better understanding on the part of all the churches as to the best that are really essential. In that union the Church of England will not be destroyed but will continue stronger and greater than ever. I approve of the movement in England at the present time, if for no other reason than because I believe the discussion of these questions does good and must eventually lead to a clearer and better understanding of the purpose of union."

These are the views expressed today toward inter-denominational church union by Right Rev. Bishop Manning, of the Cathedral of St. John the Divine, New York, who was in Montreal over the week end. He left today for Quebec on a vacation.

FAMOUS RACING MELODRAMA COMING TO ORPHEUM

An interesting side-light on "Wild-fire", the Vitaphone racing melodrama to be shown at the Orpheum Theatre, is the fact that T. Hayes Hunter, who directed the picture was stage manager for Lillian Russell when she made her great success in the play. Mr. Hunter was selected because of this very fact and the wisdom of the choice is very evident to anyone who has been fortunate enough to have seen the picture. The film version of this famous play has every thrill and every bit of action that made the play the biggest hit of Miss Russell's career, and in addition it shows actual racing scenes, taken at Oriental Park in Havana, something, of course, that was impossible of accomplishment on the stage. Without taking a thing from the fame of the celebrated Lillian Russell, it must be said that Aileen Pringle, who stars in the picture need never be afraid of a comparison. She has made Claire Barrington live as vividly on the screen as Lillian Russell ever did on the stage—and that is saying a good deal.

At the Orpheum next Monday and Tuesday.

After a woman succeeds in getting the wedding ring where she wants it she begins to say what she means.
