## THIRD PARTY IS MAY MAKE TRIESTE A FREE PORT NICKNAMED LEVITES

Mr. Cockshutt, of Brantford, Tells the Self-Styled Progressives that Their Avoird Policy is a Most Destructive One, and Dubs them "Levites."

Ottawa, May 28.—With the exception of a speech by W. F. Cockshutt of Brantford, the Budget debate in the House today drifted into the doldrums.

Mr. Cockshutt was as militant as ever. He gave to the third party a new name "Levites" called after Levi Thompson of Quappelle, the Progressive chief whip. Their policy, he characterized as the most destructive which had ever threatened the peace of Canada. It should be nipped in the bud, and amid loud, ironical cheers from the third party, he exhorted the "Levites" to consult the rest of the country before launching their platform as that of a national Progressive party. The farmers should consider themselves citizens and not try to further the interests of the Canadian Council of Agriculture.

A Bill to amend the criminal codes Act was introduced by the Hon. J. G. Doherty and given first reading. Modifications in the law as regards race track betting and the carrying of fire arms are included in the amendments proposed.

First reading was given to Bills amending the Penitentiary Act, the Admiralty Act and the Juvenile Delinquents Act.

A Bill to empower the Government to apply for charters for three small extensions to the Canadian National Railways in the West, was given second reading. In the Senate, discussion of the Immigration Act was postponed until next week. Second reading was given to the Seventh Day Adventists' Bill, the Northwest Route Limited Bill, a Bill to amend the Supreme Court Act and the Bill for the settlement of Indian Acts and Indian affairs.

## THE PRINCE IS QUITE AS GALLANT AS EVER

Melbourne, Australia, May 28.—The Prince of Wales made a splendid impression in his official speech at the Commonwealth banquet. He said that he had seen and known so many diggers in the field that he felt that he had a thorough introduction to the Australian nation.

"I hope you will not fall in future to regard me as one of yourselves," said the Prince, who created a great amount of applause and laughter as he continued.

"The men are a very important part of every nation. The women are equally important, and often more interesting. I have been looking forward to making the acquaintance of Australian women in their own land. They have rendered splendid services during the war. None realize more than I, the sacrifice and suffering of the women of Australia."

Foreign Office officials pointed out that Dr. Karl Renner, the Austrian Chancellor, while visiting Rome told the Italian Government that his country desired the free use of Trieste. The officials said that they felt his influence in this respect to be of greater weight than any representations the Jugo Slavs might have made.

## POPE ANGERED AT CRIME IN IRELAND

London, May 28.—Anglo-Irish relations will not be affected by the visit of many prominent Irishmen to Rome in connection with the beatification of Oliver Plunkett, first bishop of Armagh, says the Rome correspondent of the Daily Mail. Sean O'Connell, "president" of the Irish Parliament, was asked whether the visit of prominent Irishmen to Rome would result in any improvement in relations between their country and England. O'Connell replied: "None whatever."

"While it would be wrong to say Pope Benedict has departed from his policy of non-interference in the national affairs of Europe," the correspondent writes, "information has been received that he had expressed his disapproval of the continuance of crime in Ireland. If his words have been veiled in diplomatic language, they, nevertheless, have revealed a definite state of mind—that no solution can ever be reached by one party murdering another. The pope is keenly desirous of peace everywhere and if he can in any way bring his moral support into play, he will do it. This was actually done in meeting Irish bishops and in receiving Irish civilian pilgrims."

## REGULATING THE PROFITS OF RACING ASSOCIATIONS

Ottawa, May 28.—Profits of racing associations are limited according to the amount of the bets on each race, by a provision of the amendments to the Criminal Code, introduced in the Commons this afternoon by the Hon. C. J. Doherty.

These amendments provide that betting shall be by the pari-mutuel system only, and that profits of race track owners shall be limited to seven per cent. of the amount bet on each race, where that amount is under \$20,000.

## POLES WOULD BE BETWEEN TWO FIRES

London, May 28.—Negotiations are proceeding between the Lithuanian Minister of War and the Russian Soviet Government, says a Central News Dispatch from Berlin, where by Lithuania would attack Vilna and Grodno, thus, it is pointed out, the Lithuanians would be attacking the Polish army from the rear while the Russian Soviet forces would attack Dvinsk.

## CUMBERLAND VS. NANAIMO TODAY

What Will in All Probability Prove to be the Best Football Match of the Season, Will be Played on the Cricket Ground This Evening.

The Nanaimo football team will be put to the test of their career as contenders for the championship of the Inter-City League, today, when they meet Cumberland, admittedly the champion team of the Province, and holders of the McBride Shield and the Island Cup. If Nanaimo can come through this afternoon's game without a loss, if they only succeed in making a drawn game of the encounter, they should with ordinary luck, retain their place at the top of the League table for the remainder of the season. If they should win, then their position as leaders of the League should be assured.

In any event the game will most assuredly be a good one to watch, and the gate should be the biggest seen on the cricket field this year if the rain holds off. Cumberland are said to have considerably strengthened their team since they won the McBride Shield from Wallace, but even allowing them the added strength which the inclusion of James, late of the Victoria Wests will bring them, there is nothing to lead one to suppose that they are superior to the local aggregation. When they last played here, their star full back, Wilkinson, announced that he was through with football, owing to an injury to one of his knees, but apparently his team mates have caused him to reconsider this decision, since he is slated to be included in the line up for this afternoon. Admitting that they are a good team, it cannot be said that they are a great team, and the eleven which will do duty for Nanaimo, the same as won such a decisive victory over the Vancouver Rangers in Vancouver on Empire Day, should be capable of taking their measure. In any case, Nanaimo has the better of it in the attack, for the local line will take some beating if they are all fit and well. Cumberland may have a shade the better of it in the back division, but even this is open to question, while in goal Routledge has not his equal on the coast today. If a prophecy may be ventured therefore it will be that Nanaimo will win, though probably not by any great margin.

## CEGAR W. A. HEARD NOTABLE ADDRESS

Mrs. T. W. Martindale Spoke of the Scope Which Women Have for Useful Work in the World.

The ladies of Cedar enjoyed an interesting address from Mrs. T. W. Martindale on Wednesday afternoon. Her opening remarks were centered on the great scope women have for useful work, if they would but consider that the limits of the home are so extensive. She used for example the Boys' Industrial School of Vancouver, which, through the efforts of some of our women, has been converted from an inhuman house of punishment to a home of correction. The crimes committed by children were often the result of neglect in the training of the home, church or school, and having studied and located the cause, it might be eradicated and the good qualities developed. This method is now being adopted at the school in Vancouver, only waiting the approval and encouragement of the general public.

A vivid description was given of the building and surroundings and the training in farming, manual training, tailoring and cobbling, apart from that of general schooling which the boys enjoyed. It is felt that the honor system and kindly treatment afforded these boys will do more toward improving and making character than the severe punishments previously applied. An appeal was made to the ladies to interest themselves more keenly in such public charities, for it is missionary work which the W. A. aims at chiefly, and surely this might be considered a branch of that line.

There was a general vote of appreciation expressed to Mrs. Martindale for an entertaining afternoon, and a hope that Cedar might again be favored with a visit from her.

Gill nets and drag seines may be used for the capture of the little red fish or so called "kokanee" in the Okanagan, Arrow and Kootenay Lakes. In the fresh water lakes of the Port George, Omenaca, and Cariboo districts, gill nets may only be used for the capture of white fish, char, trout and fish of other species except salmon and sturgeon.

He thought the scheme would lighten the load both of the homeland and the Dominions. Mr. Watt also announced the early initiation of an extensive Commonwealth immigration campaign.

Speaking of the Australian state railway association, he said he was not a Socialist, but he rejoiced that the railways were the people's property.

According to one provincial officer more than fifty complaints against other Petit Cote farmers will be heard in the police court.

Rum running is so well established in Essex County it is said, that the farmers are paying little attention to seeding.

## SOVIET RUSSIA SCORNS LEAGUE OF NATIONS

The Soviet Minister of Foreign Affairs Expresses Astonishment That While Proposing Peace, the League Abets Poland in Making War.

London, May 28.—The recent communication sent by Sir Eric Drummond, secretary of the League of Nations, to the Russian Soviet government, expressing regret that the Moscow authorities had set up conditions tantamount to a refusal to permit an investigation committee of the league to visit Soviet Russia, has been answered by M. Tchitcherin, the Soviet commissary for foreign affairs.

A Moscow wireless despatch says that Tchitcherin stated in this reply that the Soviet government felt compelled to express its extreme astonishment at the request of the League of Nations, which while declaring that its object was the restoration of justice and peace, had granted one of its members, Poland, full freedom to violate the peace and strangle justice by trying to convert the Ukraine into a vassal state. The commissary declares that the other members of the league are affording Poland assistance, both directly and indirectly, and at the same time were giving help to the anti-Bolsheviks in the Crimea.

"The most elementary requirements for the safety of the republic," adds the Soviet foreign minister, "makes it impossible under these conditions for the Soviet government to make any other decision until the military situation created by the Polish advance has been altered to such an extent that it will be unnecessary to take considerations of safety into account."

Paris, May 28.—(Can. Press).—Premier Millerand obtained for his Government the largest vote of confidence it had received since its formation, this was 535 to 68, the united Socialists alone voting solidly against the Government.

The subject in question was Premier Millerand's interpretation of France's foreign policy, and the Chamber gave the Premier by its vote, the mandate to go to the approaching conference at Spa between the Allies and the Germans, and demand application in full of the terms of the Versailles Treaty, and to accept no compromise on the question of a fixed sum of indemnity to be paid by Germany.
