THE ISLES OF THE ST. LAWRENCE.

The following lines were written by Caleb Lyon, of Lyonsdale. Although Mr. Lyon is a young man, he has been Consul to Shanghai, China, member of Assembly and State Senator, and was lately elected L. L. D. by the Norwich University. Honours were bestowed upon him.

Ten Thousand Isles—Ten Thousand Isles—
 Brilliant the wave around their shores—
 They're kiss'd by a thousand red-lip'd flowers—
 They're gon'd by a thousand emerald bowers,
 And a thousand birds their praises wake
 From many bough and plenty henke,
 And a thousand of the fragrant shade,
 Falls where the Indian's children play'd,
 And fancy's dream my heart beguile,
 While singing thro'—the Thousand Isles!

No valent virgins guard their groves,
 No Cap'd brings a thousand lotus,
 No dard's form at eve is seen,
 No night's pop the trees between,
 No Venus rises from the shade,
 No loved Adonis, red with gore,
 No pale Eolymion woo'd to sleep,
 No brave Leander braves the deep,
 No Ganymede—no Feiditas—
 These are a new world's memories!

The flag of France first o'er them hung,
 The cross was said—the vapors sang—
 The Brothers of Jesus had their strands
 As the blessed Virgin Mary's hands,
 And red moss hangs and nutmeg perfume,
 Their health's names all christianized,
 Next floated a banner with cross and crown—
 'Twas Freedom's eagle that plucked it down—
 Retaining the pure and crimson dye,
 And the stars of their own—their native sky.

'Tis there the St. Lawrence's greatest flows,
 'Tis there the moonlight the brightest glows,
 'Tis there the lilies the whitest bloom,
 'Tis there the lark the sweetest gloom,
 'Tis there the red deer feeds in spring,
 'Tis there that glitter the wood duck's wing,
 'Tis there the musketeers at morn,
 'Tis there the lion's light song is born—
 There is the fisherman's paradise,
 With his trailing skiff at the red staves.

Ten Thousand Isles! ten Thousand Isles!
 Their shores from every care beguile;
 Their isles had grace to paint
 The triumph of their river's saint,
 Whose waves return, on memory's tide,
 La Salle and Piquet side by side!
 Famed Frontenac's bold Champaign
 Threw their mantling o'er again;
 And while the golden sunlight smiles,
 Pigeons shall seek the Thousand Isles.

THE TRUE GENTLEMAN.

The distinguished Governor Morris, of Morristown, near the city of New York, who was gentleman by birth, education and most lofty bearing, on being asked for the definition of a gentleman, replied, in the words of the Psalmist:—

'Tis he who every thought and deed
 By rule of virtue moulds;
 Whom generous nature claims to speak
 The thing his heart discloses.
 Who never did a slender forge,
 His neighbor's fame to wound;
 Nor heston to a false report,
 By malice whipsaw'd round.
 Who vice in all its pomp and power
 Can treat with just neglect;
 And piety, though clothed in rage,
 Religiously regards and shrines.
 Who to his plighted words and trust
 Has ever firmly stood;
 And, though he promises to lose,
 Yet unites his promise good.
 Whose soul in every dial shines
 His virtues to employ;
 Whom no rewards can ever bribe
 The guiltless to destroy."

Varieties.

THE ROSE.—Professor Agassiz, in a lecture upon the trees of America, stated a remarkable fact in regard to the family of roses, which he said was the most beautiful family of flowers which are known, but also the richest fruits such as the apple, pear, peach, plum, apricot, cherry, strawberry, raspberry, blackberry, &c.; namely, that no fossils of plants belonging to this family have ever been discovered by geologists! This he regarded as conclusive evidence that the introduction of this family of plants upon the earth was coeval with, or subsequent to, the creation of man, to whose comfort and happiness they seem especially designed by Providence to contribute.

REPORT OF A WITNESS.—Mr Buffum, of Lyon, Mass., was under a cross-examination by an attorney named Lord, who did his best to perplex and browbeat him, so as to overturn the testimony he had given against his client. The question was something relating to machinery, and Mr. Buffum had used the word "philosophically" in his evidence. Mr. Lord continually harped upon this phrase, and endeavored to make the witness ridiculous in the eyes of the jury. At last he inquired, "Pray, Mr. Witness, you seem to be a great philosopher, can you tell me what the consequence would be, if the air should be exhausted from a boghead?" "Yes, sir," replied Mr. Buffum, "the head would fall in." "Indeed, sir?" pursued the counsel, "can you tell me, philosophically, why the head should fall in?" "Yes, sir," returned Mr. Buffum, "it is because bogheads are like some lawyers—their heads are their weakest parts."

AMERICAN SOCIETY.—The more I see of American Society (says Lady Emmeline Stuart Wortley, in her book on America just published), the better I like it. In general, I should say, there are a peculiarly sensitive people, and yet very forgiving and not easily offended. They are generally accused of being conceited. I can only say, as far I have seen, their candor appears to be far more remarkable than their conceit. Indeed, they perpetually volunteer remarks on what they consider defects in their manners and customs, with the greatest possible good humor and ingenuously. Nay, I have sometimes in common honesty, found myself compelled to take their part against themselves. In travelling, their courtesy, their good temper, their obligingness, their unselfishness, are beyond all praise.

"What is the use of living?" asked Jack Simpson the other day.—"We are dogged for crying, when we see babies—dogged because the master is cross, when we are school boys—obliged to tell sick or well or starve when we are men—to work still harder (and suffer something worse) when we are husbands, and after having exhausted life and strength in the service of other people, die and leave our children to quarrel, about the possession of father's watch and our wives—to catch somebody else." Such is life.

Brydson, the traveller, in his old age, heard his own adventures in Sicily read aloud by his family, and quite unconscious that these were the scenes which his own eyes had seen, and his own lips had described, declared that it was all very amusing, but he wondered if it was true!

A young man who has recently taken a wife, says he did not find it half as hard to get married as he did to buy the furniture.

 Consumption can be and has been cured,
 in thousands of cases, by this only certain remedy,
 JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT,
 and no remedy has ever before been discovered that will certainly
 Cure Consumption.

The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, have been cured by the wonderful remedy, and are now as well and healthy as ever. It is a compound of medicaments which are peculiarly adapted to, and essentially necessary for the cure of COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system matter by expectoration, producing a delightful change in the breathing and chest, and this after the prescriptions of the very best medical men and the inventions of kind and sorrowing friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [we will show them to any person, calling at our office.] This medicine will speak for itself and is the true and only safe remedy for the cure of

CURES FOR THE UNCURED

HOLLOWAY'S OINTMENT.

AN EXTRAORDINARY CURE OF SCROFULA OR KING'S
 EVID.
 Extract of a Letter from Mr. J. H. Alday, 208, High Street, Chelsea, dated the 23d of January, 1846.

"I am, My eldest son, when about three years of age, was afflicted with a Glanular Swelling in the neck, which after a short time broke out into an Ulcer. An eminent medical man pronounced it a very bad case of Scrofula, and prescribed for a considerable time without effect. The disease then for four years went on gradually increasing in violence, when, besides the ulcer in the neck, another formed below the left knee, and a third under the eye, besides several others on the left arm, with a tumor between the eye which was expected to break. During the whole of the time my suffering boy had received the constant advice of the most celebrated medical gentlemen at Chelsea, besides being for several months at the General Hospital, where one of the surgeons said that he would amputate the left arm, but that the blood was so impure, that if that limb were taken off it would be ten years impossible to substitute the disease. In this desperate state I determined to give your Pills and Ointment a trial, and after two months' perseverance in their use, the tumor gradually began to disappear, and the discharge from all the ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed, and the boy thoroughly restored to the enjoyment of health, in the attainment of a large circle of acquaintance, who could testify to the truth of this miraculous cure. Three years have now elapsed without any recurrence of the malady, and the boy is now as healthy as heart ever wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other means had failed.

(Signed) J. H. ALDAY.
 CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.
 Extract of a Letter from Mr. John Pitt, Dudley, 184 Jan. 1850, to Professor HOLLOWAY.

"It is, with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for this last year, at times I was so hard as hardly to be able to walk. I had tried every kind of medicine that was recommended without receiving any benefit. I at last thought I would give your medicine a trial and indeed, in the course of three weeks, I was enabled to walk as well as ever in my life. I am well known as this parish, having been sixty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot.

(Signed) JOHN PITT.
 CURE OF A BAD LEG OF MORE THAN SIXTY YEARS' STANDING.
 Mr. Barker, of No. 5, Graham's Place, Drury, near Hill, had an ulcer on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them. He very often suffered most excruciating pains for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was cured by their use, and he is now as well as he ever was in his life. I am well known as this parish, having been sixty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot.
