

VARIETIES.

Action.—I have often had occasion to observe that a warm blundering man does more for the world than a frigid wise man.

Not so bad.—It is related of an old Presbyterian minister, down East, that being astonished at the outrageous flatteries inscribed on the tombstone of the village church yard, he was heard muttering as he went out the gate—"Here lie the dead and here the living lie."

The latest mode of "popping the question" is to do it with a kind of a laugh, as if you were joking. If the girl accepts, well and good; if she does not, you can say, you were only in fun.

Lord Byron gives this account of a party with Sheridan: "He was first silent, then talky, then disputatious, then unintelligible, then altogether, then inarticulate, then drunk."

The best thing to take after being intoxicated—Aa solution never to get tipsy again.

Rev. Roland Hill once said—"I do not want the walls of separation between different orders of Christians to be destroyed, but only lowered, that we may shake hands a little easier over them."

Henry Ward Beecher says that "dress does not make the man; but, when the man is made, he looks better dressed up."

The following is a good phrase, descriptive of an energetic character: "Cromwell did not wait to strike until the iron was hot, but made it hot by striking."

A son of the Emerald Isle, having been told that the price of potatoes had risen, exclaimed, "This is the first time I ever felt grieved at the rise of my best friend."

Cheap living in Patagonia. The natives steal all they eat, wear a couple of fig leaves for clothes, and sleep, most any where. Very convenient mode that for "short" style of folks.

The first line—we have not been able yet to get further than the first line—of Mr. Charles Dickens' new work of fiction, "Hard Times," reads thus: "Now what I want is facts!" We are not so exacting as the talented author. We could be well content to dispense with facts, if he would only once more give us, as he used to do, good fictions. But one thing we must insist upon; and we trust that Mr. Dickens will excuse our parodying his brilliant style, when we assure him that—"What we want are grammar!"

A very pretty young woman went to the post office, lately, with a letter and no direction, and said to the postmaster: "Send that to my sweetheart!" The postmaster took it, looked at it, and said: "What is his name, and where does he live?" The girl replied: "Ah that is the very thing I don't want any one to know."

A youngster, who had just risen to the dignity of the first pair of boots with heels on them, laid liable, through some demeanor to maternal chastisement. After pleading to get clear, to no effect, he exclaimed:—"Well if I've got to stand it, I mean to take off my boots."

"Why?" asked his mother. "Because I want, be whipped in them new boots, no how. That's so."

A passenger on the mail boat from Louisville, not in the habit of "indulging," found himself somewhat under the influence of "Old King Al." Being asked how he came to drink so much, he replied, "why, fust is, gents, (hic) the river has got so low, (hic) the captain has forbid the use of water as a beverage, there is none to spare."

"This is a pretty time o'night to come skulking home, you drunken brute! Whar have you been, eb?" said Mrs. Potts, when she saw Mr. Potts practicing at the cork screw polka on the staircase. "Been—hic—been? Why—hic—ye see, Sal—hic—Sally, I've been to the—hic—temperance mass—hic—meeting, and I've eat too much lemonade." "Eat what?" "Yes—hic—eat that, too."—At this juncture a heavy squelch announced the downfall of the Potts family.

What do the Sick Require?

To those who think—if sick, if suffering the torments of pain, or afflicted with long illness, the invalid's constant hope and most fervent desire is to be relieved and cured of the distressing ailment that time. On this principle the R.R.R. REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R.R.R. Theory is predicated.

The R.R.R. REMEDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and quickly free the afflicted from the most obstinate and serious maladies, infusing new life and vigor in the shattered and bruised body, and renew each member and organ of the human system with strength and power.

The R.R.R. REMEDIES consist of RADWAY'S READY RELIEF, RADWAY'S RENOVATING RESOLVENT, and RADWAY'S REGULATORS. RADWAY'S READY RELIEF is for the instant relief of the sufferer from pain, and to check and arrest the progress of disease, to dislocate, fracture, sprain, rheumatism, neuralgia, and infectious poisons, thus protecting whoever uses it against all poisonous infection from Contagion, and from sudden attacks of Cholera, Typhoid, Ship Fever, Fever and Ague, &c. Like other of the R.R.R. Remedies, it is a safe and certain cure of all pains and diseases of the Joints, Limbs, Nerves, &c.

Its first action is to remove the pain, (hence its usefulness in Neuralgia cases); its second, to remove the cause of the disease, and to check and arrest the progress of inflammation, if the Relief be applied after the first little smarting it over the pain is extinguished, and the work of reparation now commences. But if the Relief is not applied, there are many chances to one that the pain will continue, and an inflammation be set up, instead of a simple incised wound we have inflammation—disease to contend with. Beside, its direct power over pain, the Ready Relief is the most effectual and disquieting "counter irritant" that is known to the medical world.

If there be a congestion or heaping up of the blood in any particular part, occasioning pain and threatening inflammation or disease, as Stomach, Lungs, Liver, or spleen in the loins, Pleuritic congestion, &c. the Relief will be found the most invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion is dispersed, and the pain removed at once. Let any one who may doubt this make the trial. Now, these two properties, its power over pain and its "counter irritant" render it the most valuable remedy for Diarrhoea, and although not an astringent in the popular meaning of the term, yet it stops the pain and arrests the discharge of the most frightful Diarrhoea or Cholera in a short time.

DISINFECTANT. RADWAY'S READY RELIEF is the most safe and powerful disinfectant in the world—as such, it is a most effectual cure and positive preventative of FEVER AND AGUE.

So with other fevers and all malarious diseases. Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA. whether Typhoid or Billious, RADWAY'S READY RELIEF, taken internally, and applied over the surface of the body, and the bowels regulated and kept soluble with RADWAY'S REGULATORS, the patient will soon be out of danger, and speedily restored to health. The R.R.R. Remedies are given, and will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT is the second of the R.R.R. Remedies. It is for the cure of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES. For the present, let us pass to the consideration of the RESOLVENT, the second of the three R.R.R. Medicines.

RADWAY'S RENOVATING RESOLVENT is for the cure of Chronic Diseases, of inflammation that is kept alive on fire by some sustaining cause, and the Chemist tell us that inflammation is a slow conical combustion. And this cause is a deposit resulting from the inflammation whilst it is in an active or acute condition, for all diseases is at one time acute before it becomes chronic. If a person has Chronic Rheumatism, it is the result of a deposit in the fibrous tissue surrounding joints; if a person is Scrofulous, these deposits often show themselves in small lumps under the skin, and along the neck, if he have a Consumption or Chronic Cough, there is tubercular matter deposited in the lungs; if Bronchitis, it takes place in the Bronchial tubes; if Syphilis, it occurs in every tissue and organ in the body, and in the most delicate spaces nothing. Now to cure these diseases, these Chronic Inflammations, (for it is this in every case.) it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the impure blood be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbents be active and the blood be purified to a certain extent, and stimulate them into action, and at the same time purify the blood. Medicines that depend merely on purifying the blood alone will scarcely ever cure Chronic Diseases; to ensure success they must at first have the power to stimulate the absorbents, and remove the diseased deposits. The action of the RESOLVENT is directed first to the absorbents, stimulating them into action, and second to the blood which it purifies by its action over the glands, the liver, pancreas, kidneys &c. which are the sources that nature has established for purifying the blood. You will, after this description, we hope, appreciate the name we have given to the second of the R. R. R. REMEDIES OF RENOVATING RESOLVENT.

It removes away diseased deposits; it purifies the blood and renovates the system. Tumors are removed and dissolved by its operation; Chronic Swellings are dissipated; Nerves are softened and melted away. The most leathern Skin diseases disappear under its action; Scrofulous constitutions are soon amended, and the disease checked when ever it has attacked the system. Syphilis, with all its horrible train of concomitants, here finds a certain and infallible cure; and Consumption too, often finds its master—Consumption, that prevalent and lamentable disease of the lungs, that is so well known to you all, from its fatal and almost hopeless character, and the havoc it produces among the young, the most gifted and the most beautiful of the human race, creeping over our vixen with an insidious yet awful certainty, and consigning to an early and premature grave its yearly victims of victims. Tubercular Consumption is often regarded as a specific disease of the lungs alone. This is a mistake; it is but one of the forms of Scrofulousness—a Scrofulous deposit, an inflammation of the lung structure, and could be as readily cured as any other Scrofulous disease—such as Rheumat, Hip

Complaint, or White Swelling.—If it was not for the peculiar structure and action of the lungs in which it takes place.

The lungs expand and contract during every respiration; and from the moment the first breath of life is drawn, until the last guttural sigh passes from the dying invalid, a never-ceasing action is kept up on their part. It will readily be conceived then, how difficult it must be for an Ulcer of the lungs to heal, where it is constantly kept irritated by the act of breathing.

Understand, then, we do not offer you the RESOLVENT as a certain cure for Consumption or Scrofula of the lungs, as it is for other Chronic Diseases. We believe that it will cure Scrofula in any other part of the body, but from the very nature of the case, this complaint—except in its first stages—is often incurable; but we can recommend it as the most certain remedy (when taken as directed in our pamphlets) that we possess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the RENOVATING RESOLVENT. What the Relief is to Acute Diseases the RESOLVENT is to Chronic; it resolves away the foreign and diseased deposit; it purifies the blood and it renovates the system.

NO. 3. We now request the reader's attention to the third of the R.R.R. REMEDIES.

RADWAY'S REGULATORS. Every pill taker should examine the theory on which the REGULATORS are founded. Every chronic disease of inflammation, viz: BRUISES, TUMORS, the most pleasant and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system in use.

We have hitherto been treating of diseases or inflammations in its acute or chronic state, and its remedies; the RELIEF in one hand and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately proceeding from inflammation, viz: BRUISES, TUMORS, &c. which is the result of the foreign matter which it irritates the nervous system, and remove its effects wherever it exists, and to aid the RELIEF or RESOLVENT in treatment of inflammation, are the chief purposes of the REGULATORS.

But how is nervous irritation the cause of disease? Because the glands of the system are controlled by the brain and nervous centers, and what irritates the brain causes irregularities of the glands; and when the glands refuse to do their work, the foreign matter which it is their duty to remove, is left in the blood, and increases already existing irritations. The glands are severs of the system and are composed chiefly of the Liver, the Kidneys, the Pancreas, the Salivary Glands, and those of the skin and intestinal canal. Now, a regular and honest action of these organs are indispensable to keeping the blood in a pure and natural state. If we give you poison instead of food to eat you can easily understand that the blood will be corrupted by it, and diseased action will follow; and it will be just as surely corrupted if the glands do not abstract the worn out materials from it.

Again, if the kidneys be interfered with in their action, from any irritation whatsoever, why then we have the salts of the urine, the poisonous urea, circulating in the blood, producing headaches, coma, drowsiness, &c.

And, last and most important of all, if any irritating causes interfere with the operation of that great laboratory the Liver, behold the disastrous effects! The bile, instead of passing into the intestines to aid digestion, &c. Also Spavin, Ringbone, Strachon, Cracked Heels, Chafes, Galls, &c. on Horses and other animals. It is external in its application, and we GUARANTEE it to cure PARASITICALLY in every case for which we recommend it.

Many Physicians use it because they can depend upon it—so can their patients.

Farmers and Livery-stable Keepers. Say they will have it, and will not be satisfied without it, after giving it a fair trial. Therefore we say to travellers upon highways and by-ways use the Mustang Liniment! It has become so thoroughly introduced throughout the United States, British Possessions, and West Indies, that it is almost impossible to stop the cars at any Station without beholding the gay banner of the "Mustang."

The prices are as follows—25 cents, 50 cents, and \$1 per bottle, the 50 cent being three times as large as the 25 cent size, and the \$1 size nearly three times as large as the 50 cent size, so that the large bottles are cheapest.

Agents for P. E. I. W. R. WATSON, Sold also by J. M. W. SKINNER, and by dealers generally.

PROCLAMATION

Good People of P. E. I. PROBABLY there is not a family in your Parish but what some members of it are more or less afflicted by Humors or Chronic Affections. As a remedy for these various complaints, there are numerous preparations brought into the market, but all of them of little or no good. But there is a discovery which has recently been made in chemical analysis that is wonderful in its operation. It has been long enough tried and we have proof sufficient to certify—

—all from men holding the highest offices the people of the United States can give—that the medicine will do just what it is recommended. It is DOCTOR HAMPSON'S VEGETABLE TINCTURE. The medicine is compounded from the Vegetable Kingdom and may be used by any person without injurious consequences. By a wise choice and combination of some of the best of each class of co-operative, simple remedies, it fully reaches all the essential organs of the human system, and there it has proved itself so effectually curative of the whole round of chronic affections.

Over two millions bottles have been sold in the north and west during the last five years.

Three to five bottles is warranted to cure the worst case of Rheumatism.

Two bottles will check the worst case of Dyspepsia.

Three bottles are warranted to cure the severest case of Erysipelas.

Five to eight bottles will cure the worst case of Scrofula.

One to two bottles is warranted to cure the worst kind of Pimples on the Face.

Two to three bottles is warranted to cure the worst case of Ring Worm.

Five bottles will cure a certain remedy for the Piles.

Five bottles will cure the worst case of Cough, Consumption, General Debility, Asthma, &c.

As a FEMALE MEDICINE it has no superior. We could give hundreds of cases where the cure was truly wonderful, but we request all to get a supply for their own use, and to certify of its cure. Price \$1.00 per bottle.

General Agent for P. E. I. W. R. WATSON, Sold also by J. M. W. SKINNER.

Notice to Travellers.

It has become an established fact that accidents will happen notwithstanding the care and attention which may be paid to the safety and convenience of travellers. Explosions will take place, bridges will be broken, and cars run off the track as usual.

It is well enough for the public and legislators to caution companies to "beware," and "take heed," in such casualties will occur, which result in severe contusions, broken limbs, burns, bruises, &c.

The Mexican Mustang Liniment. Upon such occasions, is invaluable! The wonderful effects of its soothing and healing properties have induced many, who have tried it, to always carry a bottle of it with them when they are travelling.

Frequent tests have proven it to be efficacious in curing Rheumatism, Piles, Scrofulous diseases, Cancers, Ulcers, Old Sores, Neuralgia, Toothache, Earache, &c. Also Spavin, Ringbone, Strachon, Cracked Heels, Chafes, Galls, &c. on Horses and other animals. It is external in its application, and we GUARANTEE it to cure PARASITICALLY in every case for which we recommend it.

Many Physicians use it because they can depend upon it—so can their patients.

Farmers and Livery-stable Keepers. Say they will have it, and will not be satisfied without it, after giving it a fair trial. AYER'S CHERRY PECTORAL

For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the labors of life—increasing its enjoyment, and even prolonging the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout the broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year.

Our space here will not permit us to publish any properties of the cure effected by its use, but we would present the following:—and refer further enquiry to my American Almanac, which the agent below named, will always be pleased to furnish free, whereas are full particulars, and independent proof of these statements.

Office of Transportation, Laurens R. R., R. C., Aug. 4, 1855.

J. C. AYER. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the winter of 1854, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a tea-spoonful every three hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use he was able to eat and drink without pain.

It is in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude, prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect, J. M. POWELL, Sept. Trans., L. R. R.

Rock Hill, (Somerset Co.,) N. J., July 21, 1855.

Dr. J. C. AYER.—Since your medicine has become known here, it has a greater demand than any other remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me, Yours, with respect, JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1855.

J. C. AYER. Sir: This may certify that I have used your CHERRY PECTORAL for upwards of one year; and it is my sincere belief that I should have seen in my grave this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully, D. A. McCULLIN, Attorney at Law.

Wilkesbarre, Pa., September 28, 1855.

Dr. J. C. AYER, My dear Sir,—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. Invariably recommended it for pulmonary affections, as do many of our principal physicians.

I am your friend, CHAS. STELLATER, M. D. PREPARED BY J. C. AYER, CHEMIST, LOWELL, MASS.

For sale by T. DESBRIAY, & Co., General Agent

And by Mr. LEMUEL OWEN, Georgetown, EDWARD GORF, Grand River, EDWARD NEEDHAM, St. Peter's Bay, J. J. FRASER, St. Elizabeth's, GEORGE WIGGINTON, Crapaud, JAS. L. HOLMAN, do, WM. DODD, Bedouan, JAMES FRASER, New London.

FOR SALE. 200 ACRES of land on Township No. 81 having a front of 30 Chains on Montague River. 200 Acres on Lot No. 5, embracing the West Point of the Island. 100 Acres on Township No. 60. Pasture Lot No. 108 in the Royalty of Georgetown and Town Lot No. 95 in the 4th hundred of Lots in Charlotteville. Apply to WILLIAM FORDAN. Feb. 7th, 1854.

Shingles, Prime Shingles, DRY MARIAN, from Bedouan, 218,000 CEDAR and PINE SHINGLES; quality good as last year, if not superior. Apply soon. JAMES N. HARRIS. June 29, 1854. Sw

CHAMPAGNE. WHISKY CASES of prime CHAMPAGNE, just received at "Peeping Tom," from Liverpool. Also, a quantity of OZYMUS. For sale by CHARLES STEWART. June 7, 1854. If
