THANKSGIVING DAY

GOVERNOR-GENERAL'S MOTHER IS DEAD
Vancouver, B. C., Sept. 26—The Duke of Devonshire, Governor-General of Canada, received word on Friday of the death in England of his mother, Lady Emma Cavendish. The Vice-Royal party which arrived here yesterday, will not be able to fill all their engagements on the coast as a consequence.

WHAT'S A BILLION, ANYWAY?
We often hear and see the word, especially now, when we read in the newspapers that the World War will cost something like two hundred billions of dollars; that Germany's indemnity is twenty billions. For the financier the word has a definite meaning. To him a billion dollars represents just so much purchasing power; he knows just how much effort is required to correct it. But what does a billion mean to you?

Suppose that in the summer of 1870 a paying teller had started counting out the one dollar bills. Counting at the rate of a hundred and fifty a minute, and working eight hours a day, three hundred days a year, allowing for Sundays, holidays, and a short vacation, he would have handled out his last bill in the summer of 1916. It's lucky we don't own a billion. Think how many people we should have to employ to keep it counted.

Government Meeting at Chatham a Fizzle

Last night a meeting of Government supporters was held in Chatham for the purpose of appointing delegates to attend the Convention which the Government Ticket are holding in Chatham on Thursday. The attendance consisted of twelve persons, including two reporters. The others present were mostly men, who are engaged on the new road between Newcastle and Chatham, which is a place of Government work, also the Hon. Robt. Murray's son-in-law, a Liquor Vendor, and others who are now holding government positions. It was a difficult proposition to secure a Secretary for the meeting one of the reporters having been asked but declined, and it became necessary for Hon. Robt. Murray's son-in-law to accept the position in order to get the meeting started. It was impossible to get any of the present to act as delegates to the convention, and after considerable discussion, a committee of three were appointed to select delegates before the convention was held.

The Hon. Robt. Murray promised the meeting that Stumpage would not be raised if the government was elected, which evidently pleased the one lumberman who was present.

In short the meeting was the biggest political fizzle ever held on the Miramichi.
